You Can't Bungee Jump with a Pair of Pantyhose! Terssa Markworth, 2015-02-27 Why do you need more children their families asked We don t they answered but maybe these children need a family Terssa and Doug Markworth have twenty one kids Some share their DNA but most are adopted foster children All are equally cherished The challenges of family life were multiplied sometimes to the point of despairing as to whether they as parents were making a difference in anyone s life but so too were the uncountable joys They taught every child about Jesus and the Bible and ultimately had to leave the decision of salvation for each to make on his or her own Of course people often asked How do you do it Terssa s immediate answer in her head and heart was God s grace and a good dose of Prayer Facing criticism she and her husband would return to their core value Are we trying to please men or please God

Whack Job Rachel McCarthy James, 2025-05-13 A brilliant and bloody examination of the axe s foundational role in human history from prehistoric violence to war and executions to newspaper headlines and popular culture For as long as the axe has been in our hands we have used it to kill Much like the wheel the boat and the telephone the axe is a transformative piece of technology one that has been with us since prehistory And just as early humans used the axe to chop down trees hunt for food and whittle tools they also used it to murder Over time this particular use has endured as the axe evolved over centuries to fit the needs of new agricultural architectural and social development so have our lethal uses for it Whack Job is the story of the axe first as a convenient danger and then an anachronism as told through the murders it has been employed in throughout history from the first axe murder nearly half a million years ago to the brutal harnessing of the axe in warfare to its use in King Henry VIII s favorite method of execution to Lizzie Borden and the birth of modern pop culture Whack Job sheds brilliant light on this familiar implement this most human of weapons This is a critical examination of violence an exploration of how technology shapes human conflict the cruel and sacred rituals of execution and battle and the ways humanity fits even the most savage impulses into narratives of the past and present
