Vulnerable Being Vulnerable In A Brick World:

The Vulnerability of Teaching and Learning in a Selfie Society Douglas Loveless, Cheryl L Beverly, Aaron Bodle, Katie S. Dredger, Diane Foucar-Szocki, Teresa Harris, Shin Ji Kang, Thall Jane B., Phillip Wishon, 2016-11-25 This book explores the generative power of vulnerabilities facing individuals who inhabit educational spaces We argue that vulnerability can be an asset in developing understandings of others and in interrogating the self Explorations of vulnerability offer a path to building empathy and creating engaged generosity within a community of dissensus This kind of self examination is essential in a selfie society in which democratic participation often devolves into neoliberal silos of discourse and marginalization of others who look think and believe differently By vulnerability we mean the experiences that have the potential to compromise our livelihood beliefs values emotional and mental states sense of self worth and positioning within the Habermasian system lifeworld as teachers and learners We can refer to this as microvulnerability that is those things humans encounter in daily life that make us aware of the illusion of control The selfie becomes an analogy for the posturing of a particular self that reinforces how one hopes to be understood by others What are the vulnerabilities teachers and learners face And how can we joker as Norris calls it the various vulnerabilities that we inherently bring into teaching and learning spaces In light of the divisive discourses around the politics of Ferguson Charlie Hebdo ISIS Ebola Surveillance and Immigration vulnerability offers an entry way into exhuming the humanity necessary for a participatory democracy that is often hijacked by a selfie mentality

Natural Law, Ethics and Human Vulnerability Sean Coyle, 2025-09-18 This book explores human vulnerability through the lens of natural law theory Beginning with a detailed examination of natural law ethics centred upon the virtues Part One it sets out the relationship between natural law and human vulnerability To be human is to be vulnerable but vulnerability must itself be understood by reference to the human goods that are the central concern of natural law ethics Such goods lie at the heart of what it means to lead a flourishing life but they are in no way certain goods such as health education the family can all be perverted or taken away by human agency or the vicissitudes of life Part Two poses the problem of how human beings and government can build resilience in the face of these vulnerabilities Its main contention is that the central aims of vulnerability theory including that of state responsiveness are pre figured in the social teachings of the Catholic Church These teachings provide a compelling basis for the demand that the state be more responsive to social scourges such as poverty crime debt and dependency Vulnerability theorists will benefit from a new perspective on the problems that are central to their analysis natural law theorists will profit by an enrichment and extension of their central concerns
