Handbook of Autobiography / Autofiction Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers

Cultural Negotiations David L. Browman, 2013-06-01 This meticulously researched reference work documents the role of women who contributed to the development of Americanist archaeology

from 1865 to 1940 Between the Civil War and World War II many women went into anthropology and archaeology fields that at the beginning of this period welcomed and made room for amateurs of both genders But over time the increasingly professional structure of these fields diminished or even obscured the contributions of women due to their lack of access to prestigious academic employment and publishing opportunities As a result a woman archaeologist during this period often published her research under her husband s name or as a junior author with her husband In Cultural Negotiations archaeologist David L Browman has scoured the archaeological literature and archival records of several institutions to bring the stories of more than two hundred women in Americanist archaeology to light through detailed biographies that discuss their contributions and publications This work highlights how the social and cultural construction of archaeology as a field marginalized women and will serve as an invaluable reference to those researchers who continue to uncover the history of women in the sciences

Murphy, 2017-01-01 The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory with a sharpened focus on gender and anthropology and the anthropology of new media and technology Short introductions and key terms accompany every reading and light annotations have been added to aid students in reading original articles Used on its own or together with A History of Anthropological Theory Fifth Edition this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today

Aging Across Cultures Helaine Selin, 2022-01-01 This volume brings together chapters about aging in many non Western cultures from Africa and Asia to South America from American Indians to Australian and Hawaii Aborigines It also includes articles on other issues of aging such as falling dementia and elder abuse It was thought that in Africa or Asia elders were revered and taken care of This certainly used to be the case But the Western way has moved into these places and we now find that elders are often left on their own or in institutions as younger people have migrated to other cities and even countries Grandparents often find themselves being parents to their grandchildren a far cry from the kind of life they believed they would have as they aged This book will explore all these issues and will be of use to students and researchers in this relatively new field
