Women Writing And The Industrial Revolution:

Women, Writing, and the Industrial Revolution Susan Zlotnick, 2001-02-21 Industrialization in the eighteenth and nineteenth centuries inspired deep fears and divisions throughout England. The era's emergent factory system disrupted traditional patterns and familiar ways of life. Male laborers feared the loss of meaningful work and status within their communities and families. Condemning these transformations, Britain's male writers looked longingly to an idealized past. Its women writers, however, were not so pessimistic about the future. As Susan Zlotnick argues in *Women Writing and the Industrial Revolution*, women writers foresaw in the industrial revolution the prospect of real improvements. Zlotnick also examines the poetry and fiction produced by working class men and women. She includes texts written by the Chartists, the largest laboring class movement in the early nineteenth century, as well as those of the dialect tradition, the popular commercial literature of the industrial working class after mid-century.

Working Women, Literary Ladies Sylvia Jenkins Cook, 2008 This book explores the mental and literary awakening that many working class women in the United States experienced when they left the home and began to work in factories early in the nineteenth century. Cook also examines many of the literary productions from this group of women, ranging from their first New England magazine of belles lettres, *The Lowell Offering*, to Emma Goldman's periodical *Mother Earth*, from Lucy Larcom's epic poem of women factory workers, *An Idyl of Work*, to Theresa Malkiel's fictional account of sweatshop workers in New York, *The Diary of a Shirtwaist Striker*. Working women's avid interests in books and writing evolved in the context of an American romanticism that encouraged ideals of self-reliance that were not formulated with factory girls in mind. Their efforts to pursue a life of the mind while engaged in arduous bodily labor also coincided with the emergence of middle class women writers from private and domestic lives into the literary marketplace. However, while middle class women risked forfeiting their status as ladies by trying to earn money by becoming writers, factory women were accused of selling out their class credentials by trying to be literary. Cook traces the romantic literariness of several generations of working class women in their own writing and the broader literary responses of those who shared some, though by no means all, of their interests. The most significant literary interaction, however, is with middle class women writers. Some of these, like Margaret Fuller, envisioned ideals of female self-development that inspired without always including working women. Others, like novelists Davis Phelps, Alcott, and Scudder, created compassionate fictions of their economic and social inequities but balked at promoting their artistic and intellectual equality.

Companion to Women's Historical Writing M. Sponberg, A. Curthoys, B. Caine, 2016-04-30 This A-Z reference work provides the first comprehensive reference guide to the wide range of historical writing with which women have been involved, particularly since the Renaissance. *The Companion* covers biographical writing, travelogue, and historical fictions, broadening the concept of history to include the forms of writing with which women have historically engaged. The focus is on women writing in English internationally, but historical and historiographical traditions from beyond the English

speaking world are also examined Brief biographies of individual writers are included *The Palgrave Encyclopedia of Victorian Women's Writing* Lesa Scholl, Emily Morris, 2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement *Women Writing about Money* Edward Copeland, 2004-12-02 The fictional world of women in the time of Jane Austen set in the context of social and economic reality *Working Women, Literary Ladies* Sylvia J. Cook, 2008-01-30 Working Women Literary Ladies explores the simultaneous entry of working class women in the United States into wage earning factory labor and into opportunities for mental and literary development It is the first book to examine the fascinating exchange between the work and literary spheres for laboring women in the rapidly industrializing America of the nineteenth and early twentieth centuries As women entered the public sphere as workers their opportunities for intellectual growth expanded even as those same opportunities were often tightly circumscribed by the factory owners who were providing them These developments both institutional and personal opened up a range of new possibilities for working class women that profoundly affected women of all classes and the larger social fabric Cook examines the extraordinary and diverse literary productions of these working women ranging from their first New England magazine of belles lettres The Lowell Offering to Emma Goldman s periodical Mother Earth from Lucy Larcom s epic poem of female factory life An Idyl of Work to Theresa Malkiel s fictional account of sweatshop workers in New York The Diary of a Shirtwaist Striker This vital new book traces the hopes and tensions generated by the expectations of working class women as they created a wholly new way of being alive in the world **British Women Writers and Race, 1788-1818** E. Wright, 2015-12-11 This book presents a unique sociological examination of British raciology focusing on women s literary works of the late eighteenth and early nineteenth centuries and drawing from a range of academic disciplines particularly literature history and cultural studies Wright traces the emergence of British modernity through the writings of a select group of women writers including Jane Austen Hannah More Fanny Burney Mary Wollstonecraft Mary Shelley and Maria Edgeworth of diverse political and philosophical affiliations and fills a gap in scholarship on feminist accounts of late eighteenth and early nineteenth century women s writing *A History of Women's Writing in France* Sonya Stephens, 2000-05-22 This volume was the first historical introduction to women s writing in France from the sixth century to the present day Specially commissioned essays by leading scholars provide an introduction in English to the wealth and diversity of French women writers offering fascinating readings and perspectives The volume as a whole offers a cohesive history of women s writing which has sometimes been obscured by the canonisation of a small feminine elite Each chapter focuses on a given period and a range of writers taking account of prevailing sexual ideologies

and women's activities in or their relation to the social political economic and cultural surroundings Complemented by an extensive bibliography of primary and secondary works and a biographical guide to more than one hundred and fifty women writers it represents an invaluable resource for those wishing to discover or extend their knowledge of French literature written by women

Working-Class Women Poets in Victorian Britain Florence S. Boos, 2008-06-12 Though working class women in the nineteenth century included many accomplished and prolific poets their work has often been neglected by critics and readers in favour of comparable work by men Questioning the assumption that few poems by working class women had survived Florence Boos set out to discover supposedly lost works in libraries private collections and archives Her years of research resulted in this anthology Working Class Women Poets in Victorian Britain features poetry from a variety of women including an itinerant weaver a rural midwife a factory worker protesting industrialization and a blind Scottish poet who wrote in both the Scots dialect and English In addition to biographical information and contemporary reviews of the poets work the anthology also includes several photographs of the poets their environment and the journals in which their poems appeared
