Womens Philosophies Of Education Thinking Through Our Mothers:

Women's Philosophies of Education Connie Titone, Karen E. Maloney, 1999 This work presents the educational philosophies of seven women from a variety of times cultures and classes whose ideas have influenced our thinking on education in the United States Readers can access a broad range and depth of information from this book in order to form their own answers to essential questions about education The book presents several philosophical themes in each chapter which include each female pioneer s beliefs about human nature and the purpose of life the author s answers to questions such as how education ought to be how women ought to be educated and the role of women in society as well as the type of curriculum and pedagogy that emerge from the woman s specific philosophical stance Covers the contributions of two women who are contemporary U S philosophers and five women from a variety of racial and ethnic groups For educators or individuals interested in the role women play in education Women Philosophers Volume I Dorothy G. Rogers, 2020-02-06 Illuminating a significant moment in the development of both American and feminist philosophical history this book explores the pioneering thought of the women in the early American Idealist movement and outgrowths of it in the late nineteenth century Dorothy Rogers specifically examines the ideas of women who entered philosophical discourse through education and social activism She begins by discussing innovative educators some of whom were members of the influential Idealist movement in St Louis Missouri in the eighteen sixties and seventies She then looks at the ideas and impact of women who were independent scholars and social and political activists Throughout the volume Rogers explores how Idealist thought developed matured and was transformed over time across lines of race culture and socio economic class Several of the women discussed were ardent feminists and activists Mary Church Terrell Anna C Brackett Grace C Bibb Ana Roqu Ellen M Mitchell Lucia Ames Mead Jane Addams Ida B Wells Barnett and Luisa Capetillo By providing exciting new insights into the work of these early women philosophers and introducing the next generation of women who shared the same ideals and influences Rogers deftly elucidates the genealogy of women s thought as it developed across North America Mary Wollstonecraft Susan Laird, 2014-10-23 Best known as author of A Vindication of the Rights of Woman 1792 if not also as mother of Frankenstein s author Mary Shelley Mary Wollstonecraft survived domestic violence and unusual independent womanhood to write engaging letters fiction history critical reviews handbooks and treatises Her work on coeducational thought was a major early modern influence upon the development of a post Enlightenment tradition and continues to have vital relevance today Celebrated as an early modern feminist abolitionist and socialist philosopher Wollstonecraft had little formal schooling but still worked as a governess school teacher and educational writer This succinct critical account of that prolific research begins by recounting her revolutionary self education Susan Laird explains how Wollstonecraft came to criticize moral flaws in both men s and women s private education based on irrational assumptions about sexual character under the Divine Right of Kings It was to remedy those moral flaws of monarchist education that Wollstonecraft theorized her

influential but incomplete concept of publicly financed universal egalitarian coeducation

Women in Pragmatism: Past, Present and Future Núria Sara Miras Boronat, Michela Bella, 2022-07-07 This book offers a selection of the papers of the Women in Pragmatism International Conference held at the University of Barcelona in January 2020 The conference gathered women and non binary scholars from twelve different countries This was the first pragmatist conference organized entirely by women and non binary persons It has initiated a stable network of mentoring and support analogous to other women philosophers organizations The book provides paths to reconstruct the roots of pragmatism integrating the works of women pragmatists of the past and linking them to the current developments of feminist and pragmatist topics Scholars of different countries status and backgrounds serve as a powerful example of the trend toward interdisciplinary cooperation and versatility we might expect for the future of pragmatism The book is of interest for scholars interested in both pragmatism and feminism from various perspectives ranging from psychology to semiotics logic and sociology wishing to expand their horizons and understand their relevant interactions

Anna Julia Cooper, Visionary Black Feminist Vivian M. May, 2012-08-21 Vivian M May explores the theoretical and political contributions of Anna Julia Cooper a renowned Black feminist scholar educator and activist whose ideas deserve far more attention than they have received Drawing on Africana and feminist theory May places Cooper s theorizing in its historical contexts and offers new ways to interpret the evolution of Cooper s visionary politics subversive methodology and defiant philosophical outlook Rejecting notions that Cooper was an elitist duped by dominant ideologies May contends that Cooper s ambiguity code switching and irony should be understood as strategies of a radical methodology of dissent May shows how across six decades of work Cooper traced history s silences and delineated the workings of power and inequality in an array of contexts from science to literature economics to popular culture religion to the law education to social work and from the political to the personal May emphasizes that Cooper eschewed all forms of mastery and called for critical consciousness and collective action on the part of marginalized people at home and abroad She concludes that in using a border crossing intersectional approach Cooper successfully argues for theorizing from experience develops inclusive methods of liberation and crafts a vision of a fundamentally egalitarian social imaginary

Fifty Modern Thinkers on Education Liora Bresler, David Cooper, Joy Palmer, 2002-09-11 Fifty Modern Thinkers on Education looks at fifty of the twentieth century s most significant contributors to the debate on education Among those included are Pierre Bourdieu Elliot Eisner Hans J Eysenck Michel Foucault Henry Giroux Jurgen Habermas Susan Isaacs A S Neill Herbert Read Simone Weill Together with Fifty Major Thinkers on Education this book provides a unique history of educational thinking Each essay gives key biographical information an outline of the individual s principal achievements and activities an assessment of his or her impact and influence and a list of their major writings and suggested further reading
