A Bible student reference A New Testament prophecy of a falling away from truth into apostasy and lawlessness in the final generation before Jesus Christ returns in glory is being fulfilled now and is shortly to end Yet Christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this or that Christ s return is therefore now almost upon us How and why this is the case is here explained thoroughly and logically with many examples directly from the word of God In God s saving plan for the world everyone must in time make a free will choice to become part of the Israel of God in order to access eternal life in the kingdom of God The route to take is the strait and narrow way Mat 7 13 14 that very few have so far found and it involves the biblical new and old covenants which both apply to this Israel Embark on this voyage only if you are willing to be challenged about some basic Christian preconceptions be a serious open minded Bible student and trust what the Bible teaches but remember that time is short What the Bible has taught me I see as

both vital and urgent for our eternal salvation yet I know of no church or individual theologian who teaches what this book deals with in any substantive way Be prepared for major challenges to your understanding just as God has challenged me In the epistles Paul refers to two Israels whom he calls Israel after the flesh I Cor 10 18 and the Israel of God Gal 6 16 I focus mainly on the latter but I also explain an unexpected but critically important connection between them Dependent on the teaching nearly all Christian denominations either teach nothing at all on it or almost the opposite of what Scripture repeatedly showed me Looking back I find this absolutely staggering Very few Christians understand that the new covenant also only applies to Israel as I will clearly show I no longer believe that the NT New Testament can be fully understood without this extra Israel dimension Had I felt I could deliver this in a more light hearted way I would have done so but its implications are too awesome and fundamental to our eternal life prospects for that

Mesoamerican Narratives at the British Museum Laura Ann Osorio Sunnucks, Omar Aguilar Sánchez, Iyaxel Ixkan Cojtí Ren, Alejandro José Garay

Herrera, Osiris Sinuhé González Romero, Maarten E.R.G.N. Jansen, Raul Macuil Martínez, Romelia Mó Isém, Gabina Aurora Pérez Jiménez, 2025-08-18 This bilingual book is the outcome of a research project undertaken between the Santo Domingo Centre of Excellence for Latin American Research at the British Museum and a group of Indigenous and non Indigenous archaeologists and activists from Mexico and Guatemala The chapters include new interpretations of some written narratives in the Mesoamerican collection at the British Museum as well as critical reflections on the politics of Indigenous participation in museum projects and collection research The book includes new scholarly interpretations of the Tonindeye Codex the Xiuhpohualli of Tenochtitlan and the Yaxchilan lintels and seeking to read these Mesoamerican narratives in an embodied way it hopes to foster temporal imagination in the museum It also discusses Indigenous epistemologies while focusing on the relevance of mobilising this work strategically outside of the museum among descendant communities In this way researchers and visitors might interrogate their political and emotional positions towards colonial collections

Time in Ancient Stories of Origin Anke Walter, 2020-06-29 Greek and Roman stories of origin or aetia provide a fascinating window onto ancient conceptions of time Aetia pervade ancient literature at all its stages and connect the past with the present by telling us which aspects of the past survive even now or ever since then Yet while the standard aetiological formulae remain surprisingly stable over time the understanding of time that lies behind stories of origin undergoes profound changes By studying a broad range of texts and by closely examining select stories of origin from archaic Greece Hellenistic Greece Augustan Rome and early Christian literature Time in Ancient Stories of Origin traces the changing forms of stories of origin and the underlying changing attitudes to time to the interaction of the time of gods and men to historical time to change and continuity as well as to a time beyond the present one Walter provides a model of how to analyse the temporal construction of aetia by combining close attention to detail with a view towards the larger temporal agenda of each work In the process new insights are provided both into some of the best known aetiological works of antiquity e g by Hesiod Callimachus Vergil

Ovid and lesser known works e g Ephorus Prudentius Orosius This volume shows that aetia do not merely convey factual information about the continuity of the past but implicate the present in ever new complex messages about time J.K.
