Word-formation in English Ingo Plag, 2003 This textbook provides an accessible introduction to the study of word formation focusing specifically on English Assuming no prior linguistic knowledge it explains the fundamentals of word formation encouraging students to undertake their own morphological analyses of English words and familiarising them with the methodological tools to obtain and analyse relevant data

Word-Formation in English Ingo Plag, 2018-07-12 The book enables students with little prior knowledge of linguistics to engage in their own analyses of complex words

New Impulses in Word-Formation Susan Olsen, 2016-10-31 This special issue entitled New Impulses in Word Formation demonstrates in thirteen individual empirically oriented case studies how the methods gleaned from newer theoretical models optimality theory construction grammar cognitive grammar distributive morphology parallel architecture as well as from the linguistic sub disciplines of psycholinguistics neurolinguistics corpus linguistics and computational linguistics can be applied lucratively to the field of word formation The individual contributions are from a team of international linguists and deal with a broad spectrum of interests divided almost equally between the two major areas of word formation derivation and composition

Synchronic

English Linguistics Paul Georg Meyer, 2005 **Handbook of Word-Formation** Pavol Štekauer, Rochelle Lieber, 2005-07-29
This is the most comprehensive book to date on word formation in terms of scope of topics schools and theoretical positions
All contributions were written by the leading scholars in their respective areas *English Word-formation* Pavol
Štekauer, 2000 **An Onomasiological Theory of English Word-Formation** Pavol Štekauer, 1998-12-15 Pavol Štekauer
presents an original approach to the intricate problems of English word formation The emphasis is on the process of coining
new naming units words This is described by an onomasiological model which takes as its point of departure the naming
needs of a speech community and proceeds through conceptual reflection of extra linguistic reality and semantic analysis to
the form of a new naming unit As a result it is the form which implements options given by semantics by means of the so
called Form to Meaning Assignment Principle Word formation is conceived of as an independent component interrelated with
the lexical component by supplying it with new naming units and by making use of the word formation bases of naming units
stored in the Lexicon The relation to the Syntactic component is only mediated through the Lexical component In addition the
book presents a new approach to productivity It is maintained that word formation processes are as productive as syntactic
processes This radically new approach provides simple answers to a number of traditional problems of word formation
