Wordplay Crosswords Mensa:

Wordplay Crosswords 2 Richard Silvestri, 2008 Puzzle fans will welcome this second collection of crossword fun from Richard Silvestri. All crosswords have words but some are sorely lacking in wordplay. Luckily this collection has plenty every theme and many of the clues are bursting with homophones, sneaky double meanings and other linguistic tricks. The crosswords have no obscure vocabulary just clever and inventive themes that will keep readers guessing until they've filled in the very last square. Here's just a sampling of what Silvestri has in store for solvers: What 12 letters mean Turn down trash Why REFUSE REFUSE of course There's a ton of verbal calisthenics to keep every brain sharp

Wordplay Crosswords Richard Silvestri, 2004 All these puzzles are based on wordplay puns, anagrams and linguistic trickery. Written by a former editor of America's Crossword Magazine. An official MENSAs puzzle book. A former editor of Crossword magazine who has constructed more than 500 published puzzles takes crosswords to a new extra entertaining and more challenging level. Richard Silvestri, a self-confessed wordplay addict, adds a little spice to the solving by inserting puns, anagrams and other linguistic trickery into the clues and their answers. Some of the crosswords feature homophones, others include heteronyms and still more have letter shifts and transposals. For example a puzzle called Give It a Wrest features lots of silent W puns: Extremely good craftsman DIVINE, WRIGHT, Chief towel twister LORD OF THE WRINGS and Gun moll's shawl GANGSTER WRAP. Puzzlemeisters will have lots of fun with these

Mensa Cryptic Crosswords 2 Emily Cox, Henry Rathvon, 2007 From Mensa R comes a series of super challenging puzzles that go way beyond the average crossword and also offer an authentic treasure trove of wordplay demanding some skilled solving. Here's how they go: each clue has two parts. One is the normal definition of an answer while the other features a little linguistic playfulness: maybe an anagram, perhaps a pun and sometimes even a word written backward. And the hitch is there's usually no indication of which comes first or punctuation to mark the division. You've got to see through the clue maker's deceptions and tease out the correct answer by rethinking the clue's wording. Some of the irresistible language trickery includes double definitions, hidden answers, homophones and containers
