status as members of the polity and hardly ever together as a group This volume seeks to investigate the partial citizenship which these groups share and in doing so to reflect upon civic marginalisation as a distinct kind of normative wrong For example it is not often considered that children though their lack of civic and political rights are marginal citizens and thus have something in common with other marginalised groups Each of the book s chapters explores some theoretical or practical aspect of marginal citizenship and the volume as a whole engages with pressing debates in law and political theory such as the limits of democratic inclusion the character of social justice the integration of migrants and the enfranchisement of prisoners and children This book was published as a special issue of the Critical Review of Social and Political Philosophy
