Mexican Americans Across Generations Jessica Vasquez-Tokos, 2011-04-18 Outstanding Academic Title from 2011 by Choice Magazine While newly arrived immigrants are often the focus of public concern and debate many Mexican immigrants and Mexican Americans have resided in the United States for generations Latinos are the largest and fastest growing ethnic group in the United States and their racial identities change with each generation While the attainment of education and middle class occupations signals a decline in cultural attachment for some socioeconomic mobility is not a cultural death knell as others are highly ethnically identified There are a variety of ways that middle class Mexican Americans relate to their ethnic heritage and racialization despite assimilation among a segment of the second and third generations reveals the continuing role of race even among the U S born Mexican Americans Across Generations investigates racial identity and assimilation in three generation Mexican American families living in California Through rich interviews with three generations of middle class Mexican American families Vasquez focuses on the family as a key site for racial and gender identity formation knowledge transmission and incorporation processes exploring how the racial identities of Mexican Americans both change and persist generationally in families She illustrates how gender physical appearance parental teaching historical era and discrimination influence Mexican Americans racial identity and incorporation patterns ultimately arguing that neither racial identity nor assimilation are straightforward progressions but instead develop unevenly and are influenced by family society and historical social movements *Race, Racial Attitudes and Stratification Beliefs* Matthew O. Hunt, George Wilson, 2011-05-20 This book presents readers with a collection of cutting edge studies by leading scholars of inequality and race looking specifically at racial attitudes and stratification beliefs research *Outsiders No More?* Jennifer Hochschild, Jacqueline Chattopadhyay, Claudine Gay, 2013-08-15 *Outsiders No More* brings together a multidisciplinary group of scholars to consider pathways by which immigrants may be incorporated into the political processes of western democracies At a time when immigrants are increasingly significant political actors in many democratic polities this volume makes a timely and valuable intervention by pushing researchers to articulate causal dynamics provide clear definitions and measurable concepts and develop testable hypotheses By including historians sociologists and political scientists by ranging across North America and Western Europe by addressing successful and failed incorporative efforts this handbook offers

guides for anyone seeking to develop a dynamic unified and supple model of immigrant political incorporation

Marriage Vows and Racial Choices Jessica Vasquez-Tokos, 2017-02-14 Choosing whom to marry involves more than emotion as racial politics cultural mores and local demographics all shape romantic choices In *Marriage Vows and Racial Choices* sociologist Jessica Vasquez Tokos explores the decisions of Latinos who marry either within or outside of their racial and ethnic groups Drawing from in depth interviews with nearly 50 couples she examines their marital choices and how these unions influence their identities as Americans Vasquez Tokos finds that their experiences in childhood adolescence and young adulthood shape their perceptions of race which in turn influence their romantic expectations Most Latinos marry other Latinos but those who intermarry tend to marry whites She finds that some Latina women who had domineering fathers assumed that most Latino men shared this trait and gravitated toward white men who differed from their fathers Other Latina respondents who married white men fused ideas of race and class and perceived whites as higher status and considered themselves to be marrying up Latinos who married non Latino minorities African Americans Asian Americans and Native Americans often sought out non white partners because they shared similar experiences of racial marginalization Latinos who married Latinos of a different national origin expressed a desire for shared cultural commonalities with their partners but like those who married whites often associated their own national origin groups with oppressive gender roles Vasquez Tokos also investigates how racial and cultural identities are maintained or altered for the respondents children Within Latino white marriages biculturalism in contrast with Latinos adopting a white American identity is likely to emerge For instance white women who married Latino men often embraced aspects of Latino culture and passed it along to their children Yet for these children upholding Latino cultural ties depended on their proximity to other Latinos particularly extended family members Both location and family relationships shape how parents and children from interracial families understand themselves culturally As interracial marriages become more common *Marriage Vows and Racial Choices* shows how race gender and class influence our marital choices and personal lives

The Future of Whiteness Linda Martín Alcoff, 2015-10-12 White identity is in ferment White European Americans living in the United States will soon share an unprecedented experience of slipping below 50% of the population The impending demographic shifts are already felt in most urban centers and the effect is a national backlash of hyper mobilized political and sometimes violent activism with a stated aim that is simultaneously vague and deadly clear to take our country back Meanwhile the spectre of minority status draws closer and the material advantages of being born white are eroding This is the political and cultural reality tackled by Linda Martín Alcoff in *The Future of Whiteness* She argues that whiteness is here to stay at least for a while but that half of whites have given up on ideas of white supremacy and the shared public material culture is more integrated than ever More and more whites are becoming aware of how they appear to non whites both at home and abroad and this is having profound effects on white identity in North America The young generation of whites today as well as all those who follow will have never known a

country in which they could take white identity as the unchallenged default that dominates the political economic and cultural leadership Change is on the horizon and the most important battleground is among white people themselves The Future of Whiteness makes no predictions but astutely analyzes the present reaction and evaluates the current signs of turmoil Beautifully written and cogently argued the book looks set to spark debate in the field and to illuminate an important area of racial politics

Migrant Marginality Philip Kretsedemas, Jorge Capetillo-Ponce, Glenn Jacobs, 2013-08-15 This edited book uses migrant marginality to problematize several different aspects of global migration It examines how many different societies have defined their national identities cultural values and terms of political membership through and in opposition to constructions of migrants and migration The book includes case studies from Western and Eastern Europe North America and the Caribbean It is organized into thematic sections that illustrate how different aspects of migrant marginality have unfolded across several national contexts The first section of the book examines the limitations of multicultural policies that have been used to incorporate migrants into the host society The second section examines anti immigrant discourses and get tough enforcement practices that are geared toward excluding and removing criminalized aliens The third section examines some of the gendered dimensions of migrant marginality The fourth section examines the way that racially marginalized populations have engaged the politics of immigration constructing themselves as either migrants or natives The book offers researchers policy makers and students an appreciation for the various policy concerns ethical dilemmas and political and cultural antagonisms that must be engaged in order to properly understand the problem of migrant marginality

The Other Side of Assimilation Tomas Jimenez, 2017-07-18 The not so strange strangers in their midst Salsa and ketchup cultural exposure and adoption Spotlight on white fade to black Living with difference and similarity Living locally thinking nationally
