Voting In Fear Electoral Violence In Sub Saharan Africa:

Violence in African Elections Mimmi Söderberg Kovacs, Jesper Bjarnesen, 2018-04-15 Multiparty elections have become the bellwether by which all democracies are judged and the spread of these systems across Africa has been widely hailed as a sign of the continent's progress towards stability and prosperity. But such elections bring their own challenges, particularly the often intense internecine violence following disputed results. While the consequences of such violence can be profound, undermining the legitimacy of the democratic process and in some cases plunging countries into civil war or renewed dictatorship, little is known about the causes. By mapping, analysing and comparing instances of election violence in different localities across Africa, including Kenya, Ivory Coast and Uganda, this collection of detailed case studies sheds light on the underlying dynamics and sub-national causes behind electoral conflicts, revealing them to be the result of a complex interplay between democratisation and the older patronage-based system of Big Man politics. Essential for scholars and policymakers across the social sciences and humanities interested in democratization, peacekeeping and peace studies. *Violence in African Elections* provides important insights into why some communities prove more prone to electoral violence than others, offering practical suggestions for preventing violence through improved electoral monitoring, voter education and international assistance.

Military, Politics and Democratization in Southern Africa Tendai Chari, Patrick Dzimiriri, 2023-08-10 This book explores multiple challenges faced by democratization in Southern Africa. Applying a wider lens to the concept of political transition and employing a variety of theoretical and methodological approaches, the contributions gathered here explore residual political-cultural practices that hinder democratic consolidation in Southern Africa. Presenting various case studies, the book tackles themes such as the military-political nexus, leadership renewal, constitutionalism, electoral politics, election violence, marginalization of women, civil society and political transition, media framing and transitional justice. Written from a multidisciplinary perspective and drawing on empirical data from multiple sources, this edited volume challenges orthodox conceptualizations of political transition. The book will be of interest to students and scholars of political science, African studies and related fields, as well as policy-makers and professionals interested in the latest political developments in Southern Africa.

Voting in Fear Dorina Akosua Oduraa Bekoe, 2012 Nine contributors offer pioneering work on the scope and nature of electoral violence in Africa, investigate the forms electoral violence takes and analyze the factors that precipitate, reduce and prevent violence. The book breaks new ground with findings from the only known dataset of electoral violence in sub-Saharan Africa spanning 1990 to 2008. Specific case studies of electoral violence in countries such as Ghana, Kenya and Nigeria provide the context to further understanding the circumstances under which electoral violence takes place, recedes or recurs.

Ordering Violence Paul Staniland, 2021-12-15 In *Ordering Violence* Paul Staniland advances a broad approach to armed politics, bringing together governments, insurgents, militias and armed political parties in a shared framework to argue that governments' perception of the ideological threats posed by armed groups drive their responses and

interactions Staniland combines a unique new dataset of state group armed orders in India Pakistan Burma Myanmar and Sri Lanka with detailed case studies from the region to explore when and how this model of threat perception provides insight into patterns of repression collusion and mutual neglect across nearly seven decades Instead of straightforwardly responding to the material or organizational power of armed groups Staniland finds regimes assess how a group s politics align with their own ideological projects Explaining for example why governments often use extreme repression against weak groups even while working with or tolerating more powerful armed actors Ordering Violence provides a comprehensive overview of South Asia s complex armed politics embedded within an analytical framework that can also speak broadly beyond the subcontinent

Contentious Elections Pippa Norris, Richard W. Frank, Ferran Martínez i Coma, 2015-04-10 From Afghanistan to Zimbabwe the world has witnessed a rising tide of contentious elections ending in heated partisan debates court challenges street protests and legitimacy challenges In some cases disputes have been settled peacefully through legal appeals and electoral reforms In the worst cases however disputes have triggered bloodshed or government downfalls and military coups Contentious elections are characterized by major challenges with different degrees of severity to the legitimacy of electoral actors procedures or outcomes Despite growing concern until recently little research has studied this phenomenon The theory unfolded in this volume suggests that problems of electoral malpractice erode confidence in electoral authorities spur peaceful protests demonstrating against the outcome and in the most severe cases lead to outbreaks of conflict and violence Understanding this process is of vital concern for domestic reformers and the international community as well as attracting a growing new research agenda The editors from the Electoral Integrity Project bring together scholars considering a range of fresh evidence analyzing public opinion surveys of confidence in elections and voter turnout within specific countries as well as expert perceptions of the existence of peaceful electoral demonstrations and survey and aggregate data monitoring outbreaks of electoral violence The book provides insights invaluable for studies in democracy and democratization comparative politics comparative elections peace and conflict studies comparative sociology international development comparative public opinion political behavior political institutions and public policy

Peace or Democracy? Izabela Pereira Watts, 2023-04-03 Contrary to the common belief that peace and democracy go hand in hand after a civil war Pereira Watts argues they are in fact at a crossroads Offering an innovative framework based on Philosophical Actors and Tactical considerations Pereira Watts identifies 14 dynamic dilemmas in democratic peacebuilding with respective trade offs She focuses on explaining the contradictions in modern post conflict recovery the challenges facing interim governments and the international community s role Based on an analysis of more than 40 countries between 1989 and 2022 and more than 60 UN peace operations she presents critical issues that commonly need to be addressed in such scenarios Elections and Political Parties the Constitution Checks Balances and Power sharing Transitional Justice Human Rights Amnesty Truth Commissions and War Crimes Tribunals Disarmament Demobilization and Reintegration and Media

Reform and Civil Society Solving any of these dilemmas leads to others that shape a complex apparatus for restoring peace and installing a new political regime An essential resource for decision takers policymakers international analysts and practitioners in the field of peacebuilding that will also be of great value to students of International Relations and Peace Studies as well as anyone interested in peacekeeping democracy building and state building

Why Elections Fail Pippa Norris, 2015-07-08 Too often elections around the globe are unfortunately deeply flawed or even fail What triggers these problems In this second volume of her trilogy on electoral integrity Pippa Norris compares structural international and institutional accounts as alternative perspectives to explain why elections fail to meet international standards The book argues that rules preventing political actors from manipulating electoral governance are needed to secure integrity although at the same time officials also need sufficient resources and capacities to manage elections effectively Drawing on new evidence the study determines the most effective types of strategies for strengthening the quality of electoral governance around the world With a global perspective this book provides fresh insights into these major issues at the heart of the study of elections and voting behavior comparative politics democracy and democratization political culture democratic governance public policymaking development international relations and conflict studies and processes of regime change
