Grofman, Alexander H. Trechsel**

Women For President Second Edition Media Bias In Nine Campaigns:

The ^ABranding of Right-Wing Activism Khadijah Costley White, 2018-08-02 From the start of Barack Obama's presidency in 2009 conservative populist groups began fomenting political fractiousness dissent and surprising electoral success The Tea Party was one of the major characters driving this story changing the tone tenor and shape of the political landscape one that this book sees as a product of media branding Beyond the creation of the Tea Party this project also investigates what the mass mediated construction of the Tea Party tells us about the current media and cultural moment specifically the role of journalism in a Web 2.0 age and contemporary American notions of democracy citizenship and belonging

Masculinity, Media, and the American Presidency Meredith Conroy, 2016-04-08 This book analyzes the way media describe presidential candidates character and the degree to which this discourse maintains a preference for masculinity in our politics using content analysis of major print new media outlets

Women, Power, and Politics Lori Cox Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U.S. politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics

He Runs, She Runs Deborah Jordan Brooks, 2013-07-21 While there are far more women in public office today than in previous eras women are still vastly underrepresented in this area relative to men Conventional wisdom suggests that a key reason is because female candidates start out at a disadvantage with the public compared to male candidates and then face higher standards for their behavior and qualifications as they campaign He Runs She Runs is the first comprehensive study of these dynamics and demonstrates that the conventional wisdom is wrong With rich contextual background and a wealth of findings Deborah Jordan Brooks examines whether various behaviors such as crying acting tough displays of anger or knowledge gaffes by male and female political candidates are regarded differently by the public Refuting the idea of double standards in campaigns Brooks's overall analysis indicates that female candidates do not get penalized disproportionately for various behaviors nor do they face any double bind regarding femininity and toughness Brooks also reveals that before campaigning begins women do not

start out at a disadvantage due to gender stereotypes In fact Brooks shows that people only make gendered assumptions about candidates who are new to politics and those stereotypes benefit rather than hurt women candidates Proving that it is no more challenging for female political candidates today to win over the public than it is for their male counterparts He Runs She Runs makes clear that we need to look beyond public attitudes to understand why more women are not in office

Sex and Gender in the 2016 Presidential Election Caroline Heldman, Meredith Conroy, Alissa R. Ackerman, 2018-09-07 In order to understand the motivations for and implications of Hillary Clinton's historic run for the White House and her subsequent defeat the authors explore sexism and gender bias in U S political and social culture While there is some indication that overt sexism toward women in politics is declining whether this is true for women who run for the highest office in American politics remains relatively unknown Hillary Clinton's historic run as the 2016 Democratic nominee however allows scholars and journalists to contextualize decades of scholarship on sex gender and the American presidency In Sex and Gender in the 2016 Presidential Election the authors all experts on gender in politics analyze the nature of gender in public opinion media coverage social media and culture during the 2016 presidential election They assess whether conventional expectations and theories hold up in today's sociopolitical climate Moreover they consider how Clinton's foray into relatively uncharted territory might redirect the political field and its implications for women with political ambitions going forward

Women, Language and Politics Sylvia Shaw, 2020-05-28 Investigates the underrepresentation of women in politics by examining how language use constructs and maintains gender inequalities in political institutions

Gender and Political Marketing in the United States and the 2016 Presidential Election Minita Sanghvi, 2018-05-22 This book focuses on the unique challenges women in politics face in the United States based on their gender It also focuses on issues of intersectionality in political marketing including race age weight sexual orientation gender identity and gender expression From a theoretical perspective this book facilitates an investigation of the interplay of gender dynamics and power structures within political marketing Focusing on women in the United States of both parties at various levels in politics it examines both historical data and contemporary examples of female politicians and their campaigns Using qualitative research methods and taking a feminist approach to data collection and analysis this book features primary source interviews with 15 politicians including a Governor Senator two Congresswomen and several state and local legislators It also incorporates interviews with 19 political consultants PAC executives aides political party officials and members of the media

Cultural Sexism Heather Savigny, 2020-06-24 How does gendered power work How does it circulate How does it become embedded And most importantly how can we challenge it Heather Savigny highlights five key traits of cultural sexism violence silencing disciplining meritocracy and masculinity prevalent across the media entertainment and cultural industries that keep sexist values firmly within popular consciousness She traces the development of key feminist thinkers before demonstrating how the normalization of misogyny in popular media culture news and politics perpetuates patriarchal values within our everyday

social and cultural landscape She argues that we need to understand why MeToo was necessary in the first place in order to bring about impactful lasting and meaningful change

Multicultural Journalism Margaret E. Thompson, 2024-01-31 This book introduces a more collaborative and reflexive way of producing news that incorporates concepts of cultural identity and cultural positioning of both journalists and sources using a feminist approach to inclusion of all voices and perspectives This text proposes a feminist collaborative model of journalism that incorporates critical reflexivity requiring journalists not only to be aware of their own cultural positionality but also that of their sources as a means of producing more authentic and balanced news coverage The model is intended for use by journalists as well as journalism education programs to educate future journalists on how to effectively serve audiences with scrupulously investigated reported and crafted stories Chapters explore journalism during the Obama and Trump years current journalistic trends and alternative media and feature topics such as fake news racism sexism in news production and content and immigration and media Thompson addresses issues of power and privilege amongst journalists and marginalized groups and how these implicate power dynamics of journalism practice and reinforce social inequality particularly relating to race and gender This book is ideal for advanced undergraduate and graduate students of journalism and media studies as well as scholars journalists and media practitioners

The Oxford Handbook of Electoral Persuasion Elizabeth Suhay, Bernard Grofman, Alexander H. Trechsel, 2020-04-01 Elections are the means by which democratic nations determine their leaders and communication in the context of elections has the potential to shape people's beliefs attitudes and actions Thus electoral persuasion is one of the most important political processes in any nation that regularly holds elections Moreover electoral persuasion encompasses not only what happens in an election but also what happens before and after involving candidates parties interest groups the media and the voters themselves This volume surveys the vast political science literature on this subject emphasizing contemporary research and topics and encouraging cross fertilization among research strands A global roster of authors provides a broad examination of electoral persuasion with international perspectives complementing deep coverage of U S politics Major areas of coverage include general models of political persuasion persuasion by parties candidates and outside groups media influence interpersonal influence electoral persuasion across contexts and empirical methodologies for understanding electoral persuasion
