Women Of The Constitution Wives Of The Signers:

Women of the Constitution Janice E. McKenney, 2013 *Women of the Constitution* follows in the footsteps of the 1912 work *The Wives of the Signers* which was devoted to biographical sketches of the spouses of the signers of the Declaration of Independence. This new publication will be the first work devoted exclusively to brief biographies of the forty three wives of the signers of the U S Constitution on September 17 1787. Each entry includes vital information where known such as birth parents marriage children and death as well as a footnoted biography with its own bibliography. Also provided are illustrations of many of the wives and their homes as well as an appendix describing the now historic residences in which the signers and their spouses resided.

The Men Who Made the Constitution John R. Vile, 2013-10-10 Few events in the history of the United States were of greater consequence than the Constitutional Convention of 1787. Although most histories have focused on the issues and compromises that dominated the debates the exchanges were also shaped by the dynamic personalities of the fifty five delegates who attended from twelve of the thirteen states. In *The Men Who Made the Constitution* constitutional scholar John R. Vile explores the lives and contributions of all delegates to the 1787 Constitutional Convention including those who left before the Convention ended and those who stayed until the last day but refused to sign. Each biography records the delegate's birth education previous positions or public service roles homes family life life after the Convention death and resting place. Drawing directly from Convention debates and a vast array of secondary sources Vile covers the positions of each delegate at the Convention on both major and minor issues and describes his service on committees and afterward at state ratification conventions. *The Men Who Made the Constitution* includes a bibliography of key sources engravings of delegates for whom portraits were created a quiz on key facts and a transcript of the Constitution of the United States. This work is the perfect reference for students and scholars as well as professional and amateur historians of colonial and early American history constitutional law and American jurisprudence.

Through concise entries the book names every woman writer identified in its vast research from celebrated figures like Phillis Wheatley to lesser known authors whose manuscripts lay buried in archives. Each entry provides essential biographical details while select excerpts in seventeen languages bring these voices to life revealing how women navigated the era's revolutionary ideals and patriarchal barriers. Structured democratically the volume treats all writers equally whether anonymous pseudonymous or celebrated in their time. It highlights their diverse experiences poets and novelists abolitionists and suffragists mothers and mill workers. From memoirs to political tracts their works testify to the
