Grondlijnen van internationaal recht Marc J. Bossuyt,Jan Wouters,2005 Ben ik wel woke genoeg? Martin Harlaar,2022-03-09 Kriskras trok auteur Martin Harlaar door het Land van Woke dat hem in toenemende mate voorkwam als een mengeling van Lewis Carrolls Alice in Wonderland en George Orwells 1984 Soms alleen maar bizar en lachwekkend vaak ook bedreigend en angstaanjagend Zijn reisverslagen zijn te lezen in het eerste deel van dit boek Universiteiten liggen in de frontlinie van de Social Justice War In hoeverre staan het vrije woord en de wetenschappelijke methode onder druk als gevolg van het woke activisme Studenten dringen aan op het ontslag van docenten die een verkeerd woord hebben gebruikt of die verkeerde idee n hebben Docenten gaan over tot zelfcensuur en universiteitsbesturen vertonen weinig ruggengraat In het Land van Woke wordt wetenschap ondergeschikt gemaakt aan ideologie Academici uit binnen en buitenland laten hun licht over deze kwestie schijnen in het tweede deel van dit boek dat bijdragen bevat van Dorian Abbot Henry Bauer Floris van den Berg Peter Boghossian Sarah Bracke Johan Braeckman Erwin Chemerinsky Howard Gillman Paul Cliteur Meindert Fennema Sibö Kanobana Ruud Koopmans Lawrence Krauss Anna Krylov Mary Lefkowitz Judi Mesman Helen Pluckrose Julian Schaap Harvey Silverglate Peter Tatchell Neil Thin Rebecca Tuvel Sebastien Valkenberg Walter Van Steenbrugge Richard Westra Walter Weyns en Dick Zijp Using Online Dictionaries Carolin Müller-Spitzer,2014-08-22 Until now there has been very little research into the use of online dictionaries In contrast the market for online dictionaries is increasing both for academic lexicography and for commercial lexicography with sales figures for printed reference works in continual decline This has led to a demand for reliable empirical information on how online dictionaries are actually being used and how they could be made more user friendly The volume Using Online Dictionaries makes a substantial contribution to closing this research gap It is divided into four parts The first part contains articles on fundamental issues a research review of the empirical studies on digital dictionaries which have already been carried out and a brief methodological guideline for lexicographical researchers who are interested in conducting their own empirical research The second part contains the results of two studies that focus on general questions about the use of online dictionaries It presents empirical data on contexts of dictionary use on expectations and demands regarding online dictionaries Furthermore innovative features such

as the use of multimedia elements or the option of a user adaptive interface and questions of design were assessed empirically. The third part of this volume comprises more specific studies of online dictionaries: an eye tracking study evaluating the new web design of the dictionary portal OWID and a log file study which tries to get to the bottom of the following question: Do dictionary users look up frequent words or put differently: is there a connection between how often a word is looked up and how often it appears in a corpus? In the last chapter of this thematic section the question of how users judge the combination of a written paraphrase and an additional illustration in illustrated online dictionaries is addressed. The last part focuses on the use of monolingual dictionaries in particular the German online dictionary *elexiko*. In this context two online questionnaire based studies were carried out. The empirical studies were conducted in the form of online surveys combining questionnaires and experimental elements and in the form of laboratory studies using eye tracking technology as well as using observational methods such as log file analyses. Regarding the comprehensive research framework this volume can be relevant to lexicographers, metalexicographers and linguists who are interested in the use of online dictionaries and in the development and exploration of lexicographical data for the internet as well as linguists interested in empirical methods. It addresses a broad expert audience by presenting an academic subject which is currently the focus of much discussion.
