Massage for the Mind Shirley Davalos, 2020-03-11 Massage for the Mind is a practical guide to help people use the practice of hypnotherapy to re-frame their perspective about past experiences and future possibilities We use our marvelous imaginations to create guilt and worry as well as feelings of not being enough You can use your mind to benefit your outlook rather than create fear Too often our brains are filled with a constant chatter that raises doubts and creates anxiety Hypnotherapy is a simple way of silencing that chatter creating a quiet space where new perspectives can be recognized and developed There is no magic My clients create their own healing I am simply their guide in the experience I assist people and help them use their own imagination so they understand how they can be in control of their own life The answers to their problems have been there all along I just help them realize that and identify the solutions that have long been buried in their subconscious mind Hypnotherapy plays a major role in supporting optimum health I think of it as a relaxing and healing factor for the entire body and mind It's a reliable method of quieting the mind while cutting out the constant brain chatter it creates a quiet space where new perspectives can be recognized and developed I assist people and help them use their own powers of imagination so they can be the architects of their own lives and uncover answers that have been long buried in their subconscious mind There is no magic simply a state of mind that we have overlooked My clients create their own healing I am a guide in their experience
