The Third Freedom Ending Hunger In Our Time:

The Third Freedom George Stanley McGovern, 2001 In this book George McGovern lays out a workable and affordable five point program to end world hunger And in the midst of this heated debate one compelling moral issue is clear every major religion and ethical formulation commands its adherents to feed the hungry We feed the hungry because it is right McGovern contends that it will also be economically beneficial to all American Government and the Vision of the Democrats Mark Louis Latour, 2007-04-26 This work is a comprehensive introduction to the most important issues facing American citizens and their government It addresses various interpretations of the proper role of government with a view towards the Democrats re working of such integral issues as States rights Societal affluence and social needs Campaign finance reform Media Consolidation America s climbing debt ceiling China s military and political expansion Manufacturing s decline Job outsourcing The disappearance of pension plans The whittling away of America s middle class America s inadequate health care system Environmental degradation America s vanishing family farms **Cents and Sustainability** Michael H. Smith, Karlson Hargroves, Cheryl Desha, 2010 Cents and Sustainability is a clear sighted response to the 1987 call by Dr Gro Brundtland in Our Common Future to achieve a new era of economic growth that is forceful and at the same time socially and environmentally sustainable The Brundtland Report argued that not only was it achievable but that it was an urgent imperative in order to achieve a transition to sustainable development while significantly reducing poverty and driving clean and green investment With some still arguing for significantly slowing economic growth in order to reduce pressures on the environment this new book Cents and Sustainability shows that it is possible to reconcile the need for economic growth and environmental sustainability through a strategy to decouple economic growth from environmental pressures combined with a renewed commitment to achieve significant environmental restoration and poverty reduction Beginning with a brief overview of some of the most pressing environmental challenges of our time the book then explains decoupling theory overviews a number of factors that can undermine and even block efforts to decouple in both developed and developing countries and then discusses a number of key considerations to assist the development of national decoupling strategies The book then focuses on presenting evidence to support greater action not just on climate change but also on decoupling economic growth from the loss of biodiversity and the deterioration of natural systems freshwater extraction waste production and air pollution In the lead up to the 2012 United Nations Earth Summit and beyond Cents and Sustainability will be a crucial guide to inform and assist nations to develop strategies to significantly reduce environmental pressures strengthen their economy create jobs and reduce poverty I commend the team from The Natural Edge Project and their partners for undertaking to develop a response to Our Common Future to mark its 20th anniversary Dr Gro Brundtland Sequel to The Natural Advantage of Nations Published with The Natural Edge Project **Preaching God's Transforming Justice** Ronald J. Allen, Dale P. Andrews, Dawn Ottoni Wilhelm, 2012-01-01 A unique lectionary commentary focusing on

matters of social justice **The Liberals' Moment** Bruce Miroff, 2009 Revisits the largely forgotten story of how the McGovern campaign represented the zenith of sixties style liberalism and how its historic defeat still haunts Democrats to this day and in the process identifies what Democrats must do before they can reassume their role as agents of progressive change **Culture Wars** Roger Chapman, 2015-03-17 The term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today *Freedom from Poverty* Daniel P.L. Chong, 2011-06-06 Human rights advocacy in the West is changing Before the turn of the century access to goods such as food housing and health care while essential to human survival were deemed outside of the human rights sphere Traditional human rights institutions focused on rights in the political arena that could be defended through legal systems In *Freedom from Poverty* Daniel P L Chong examines how today's nongovernmental organizations are modifying human rights practices and reshaping the political landscape by taking up the cause of subsistence rights This book outlines how three types of NGOs human rights social justice and humanitarian organizations are breaking down barriers by incorporating access to economic and social goods into national laws and advancing subsistence rights through nonjuridical means These NGOs are using rights not only as legal instruments but as moral and rhetorical implements to build social movements shape political culture and guide development work Rights language is now invoked in churches political campaigns rock concerts and organizational mission statements Chong presents a social theory of human rights to provide a framework for understanding these changes and defending the legitimacy of these rights *Freedom from Poverty* analyzes new trends in the evolution of human rights by combining constructivist and postpositivist legal approaches This book provides valuable concepts to human rights practitioners political scientists antipoverty advocates and leaders who are serious about ending widespread privation and disease **Abraham Lincoln** George S. McGovern, 2008-12-23 America's greatest president who rose to power in the country's greatest hour of need and whose vision saw the United States through the Civil War Abraham Lincoln towers above the others who have held the office of president the icon of greatness the pillar of strength whose words bound up the nation's wounds His presidency is the hinge on which American history pivots the time when the young republic collapsed of its own contradictions and a new birth of freedom sanctified by blood created the United States we know today His story has been told many times but never by a man who himself sought the office of president and contemplated the awesome responsibilities that come with it George S McGovern a Midwesterner former U S senator presidential candidate veteran and

historian by training offers his unique insight into our sixteenth president He shows how Lincoln sometimes went astray particularly in his restrictions on civil liberties but also how he adjusted his sights and transformed the Civil War from a political dispute to a moral crusade McGovern s account reminds us why we hold Lincoln in such esteem and why he remains the standard by which all of his successors are measured

How Corporations Hurt Us All Dan Butts,2003 The recent accounting and corporate scandals of Enron WorldCom Tyco K Mart and McWane producer of cast iron water and sewer pipes which has killed 9 workers and injured 4600 more with impunity since 1995 and other greedy and lawless billion dollar behemoths are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people communities the earth and to our children s and grandchildren s future How Corporations Hurt Us All examines many crises including how Big Oil billion dollar weapons contractors and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations our collapsing corporate health care system that restricts free speech stifles public debate and manipulates public opinion to serve narrow corporate and political goals Some of the world s largest multinational corporations DExxonMobil 1 oil company Wal Mart 1 retailer HCA 1 hospital conglomerate Citigroup the world s 1 financial institution and other rogue operations are profiled in the book The good news is that there are effective approaches to all of these interrelated greed driven crises Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens groups and millions of individuals throughout the world Yet what is ultimately necessary to reverse global economic social and environmental deterioration and eventual collapse insure world peace and security strengthen our weakened civil liberties and fulfill our human potential as the book explains is forging a broad consensus on a new bottom line or organizing principle for business and society

Perceptions of China and White House Decision-Making, 1941-1963 Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes Reinforced by the politics of McCarthyism at home intellectual debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted Offering new insights into the China policies of consecutive administrations from 1941 to 1963 this

volume will be of great interest to scholars and students of American foreign policy security studies and international relations

Outgrowing the Earth Lester R. Brown, 2012-04-27 Historically food security was the responsibility of ministries of agriculture but today that has changed decisions made in ministries of energy may instead have the greatest effect on the food situation Recent research reporting that a one degree Celsius rise in temperature can reduce grain yields by 10 per cent means that energy policy is now directly affecting crop production Agriculture is a water intensive activity and while public attention has focused on oil depletion it is aquifer depletion that poses the more serious threat There are substitutes for oil but none for water and the link between our fossil fuel addiction climate change and food security is now clear While population growth has slowed over the past three decades we are still adding 76 million people per year In a world where the historical rise in land productivity has slowed by half since 1990 eradicating hunger may depend as much on family planners as on farmers The bottom line is that future food security depends not only on efforts within agriculture but also on energy policies that stabilize climate a worldwide effort to raise water productivity the evolution of land efficient transport systems and population policies that seek a humane balance between population and food Outgrowing the Earth advances our thinking on food security issues that the world will be wrestling with for years to come
