The Three Christs Of Ypsilanti New York Review S Classics:

The Three Christs of Ypsilanti Milton Rokeach, 2011-04-19 On July 1 1959 at Ypsilanti State Hospital in Michigan the social psychologist Milton Rokeach brought together three paranoid schizophrenics Clyde Benson an elderly farmer and alcoholic Joseph Cassel a failed writer who was institutionalized after increasingly violent behavior toward his family and Leon Gabor a college dropout and veteran of World War II The men had one thing in common each believed himself to be Jesus Christ Their extraordinary meeting and the two years they spent in one another's company serves as the basis for an investigation into the nature of human identity belief and delusion that is poignant amusing and at times disturbing Displaying the sympathy and subtlety of a gifted novelist Rokeach draws us into the lives of three troubled and profoundly different men who find themselves confronted with the ultimate contradiction conceivable for human beings more than one person claiming the same identity **Psychoanalysis, Classic Social Psychology and Moral Living** Paul

Marcus, 2019-12-06 In *Psychoanalysis Classic Social Psychology and Moral Living* Let the Conversation Begin Paul Marcus uniquely draws on psychoanalysis and social psychology to examine what affects the ethical decisions people make in their everyday life Psychoanalysis traditionally looks at early experiences concepts and drives which shape how we choose to behave in later life In contrast classic social psychology experiments have illustrated how specific situational forces can shape our moral behaviour In this ground breaking fusion of psychoanalysis and social psychology Marcus gives a fresh new perspective to this and demonstrates how in significant instances these experimental findings contradict many presumed psychoanalytic ideas and explanations surrounding psychoanalytic moral psychology Examining classic social psychology experiments such as Asch's line judgement studies Latan and Darley's bystander studies Milgram's obedience studies Mischel's Marshmallow Experiment and Zimbardo's Stanford Prison Experiment Marcus pulls together insights and understanding from both disciplines as well as ethics to begin a conversation and set out a new understanding of how internal and external factors interact to shape our moral decisions and behaviours Marcus has an international reputation for pushing boundaries of psychoanalytic thinking and with ethics being an increasingly relevant topic in psychoanalysis and our world this pioneering work is essential reading for psychoanalysts psychoanalytic psychotherapists moral philosophy scholars and social psychologists **The Technical Delusion** Jeffrey Sconce, 2019-01-17

Delusions of electronic persecution have been a preeminent symptom of psychosis for over two hundred years In *The Technical Delusion* Jeffrey Sconce traces the history and continuing proliferation of this phenomenon from its origins in Enlightenment anatomy to our era of global interconnectivity While psychiatrists have typically dismissed such delusions of electronic control as arbitrary or as mere reflections of modern life Sconce demonstrates a more complex and interdependent history of electronics power and insanity Drawing on a wide array of psychological case studies literature court cases and popular media Sconce analyzes the material and social processes that have shaped historical delusions of electronic contamination implantation telepathy surveillance

and immersion From the age of telegraphy to contemporary digitality the media emerged within such delusions to become the privileged site for imagining the merger of electronic and political power serving as a paranoid conduit between the body and the body politic Looking to the future Sconce argues that this symptom will become increasingly difficult to isolate especially as remote and often secretive powers work to further integrate bodies electronics and information To Show and to Tell Phillip Lopate,2013-02-12 A long awaited and illuminating book on personal writing from Phillip Lopate celebrated essayist professor of writing at Columbia University and editor of The Art of the Personal Essay Distinguished author Phillip Lopate editor of the celebrated anthology The Art of the Personal Essay is universally acclaimed as one of our best personal essayists Dallas Morning News Here combining more than forty years of lessons from his storied career as a writer and professor he brings us this highly anticipated nuts and bolts guide to writing literary nonfiction A phenomenal master class shaped by Lopate s informative accessible tone and immense gift for storytelling To Show and To Tell reads like a long walk with a favorite professor refreshing insightful and encouraging in often unexpected ways Handbook of Classical Sociological Theory Seth Abrutyn,Omar Lizardo,2021-11-01 This is the first handbook focussing on classical social theory It offers extensive discussions of debates arguments and discussions in classical theory and how they have informed contemporary sociological theory The book pushes against the conventional classical theory pedagogy which often focused on single theorists and their contributions and looks at isolating themes capturing the essence of the interest of classical theorists that seem to have relevance to modern research questions and theoretical traditions This book presents new approaches to thinking about theory in relationship to sociological methods **Being Human** Max Malikow,2010-09-20 The thread running through this collection of essays is the inviolate marriage between philosophy and psychology Psychotherapist Mary Capocefalo has written Long before psychologists were asking questions about mind and behavior philosophers were expressing the same curiosity The Socratic method of teaching by asking questions is indispensable in psychotherapy Aristotle spoke about happiness as though he had read twentieth century psychological research on the subject Albert Camus reduced the study of philosophy to a single psychological issue suicide Conversely Sigmund Freud and Carl Jung addressed the question of the meaning of life Lawrence Kohlberg and John Robert Coles investigated moral behavior And Viktor Frankl integrated existentialism into the practice of psychotherapy East is east and west is west and never the twain shall meet does not apply to philosophy and psychology *The Politics and Ethics of Identity* Richard Ned Lebow,2012-08-30 Challenges the notion of consistent unitary identities arguing that we are multiple changing selves shaped by social contexts and processes Personal Networks Mario L. Small,Brea L. Perry,Bernice Pescosolido,Edward B. Smith,2021-09-16 Social networks are ubiquitous The science of networks has shaped how researchers and society understand the spread of disease the precursors of loneliness the rise of protest movements the causes of social inequality the influence of social media and much more Egocentric analysis conceives of each individual or ego as embedded in a

personal network of alters a community partially of their creation and nearly unique to them whose composition and structure have consequences This volume is dedicated to understanding the history present and future of egocentric social network analysis The text brings together the most important classic articles foundational to the field with new perspectives to form a comprehensive volume ideal for courses in network analysis The collection examines where the field of egocentric research has been what it has uncovered and where it is headed *Onward and Upward in the Garden* Katharine S. White, 2015-03-17 In 1925 Harold Ross hired Katharine Sergeant Angell as a manuscript reader for The New Yorker Within months she became the magazine's first fiction editor discovering and championing the work of Vladimir Nabokov John Updike James Thurber Marianne Moore and her husband to be E B White among others After years of cultivating fiction White set her sights on a new genre garden writing On March 1 1958 The New Yorker ran a column entitled Onward and Upward in the Garden a critical review of garden catalogs in which White extolled the writings of seedmen and nurserymen those unsung authors who produced her favorite reading matter Thirteen more columns followed exploring the history and literature of gardens flower arranging herbalists and developments in gardening Two years after her death in 1977 E B White collected and published the series with a fond introduction The result is this sharp eyed appreciation of the green world of growing things of the aesthetic pleasures of gardens and garden writing and of the dreams that gardens inspire
