Sandole, Sean Byrne, Ingrid Sandole-Staroste, Jessica Senehi, 2008-07-31 This major Handbook is a collection of work from leading scholars in the Conflict Analysis and Resolution CAR field The central theme is the value of interdisciplinary approaches to the analysis and resolution of conflicts *Economic Assistance and the Northern Ireland Conflict* Sean Byrne, 2009 However it is important to note that economic aid to promote a change in

Northern Ireland's economic well being is also tied into the 1998 Good Friday Agreement which has at its center a comprehensive range of new political power sharing institutions *Theories of International Relations and Northern Ireland* Timothy J. White, 2017-01-29 This book uses the case of Northern Ireland to evaluate theoretical approaches in international relations It investigates the process of negotiation that led to the signing of the Good Friday or Belfast Agreement and the continuing challenges to peace reconciliation in Northern Ireland Incorporating the work of leading scholars it explores a wide range of topics including the function of deception in promoting peace the question of partition and how it was reimagined by nationalists such as John Hume and how the decommissioning process led to a role in internal policing for paramilitaries The influence of outside actors notably the United States and the European Union is also considered along with the involvement of the Catholic Church and the marginalization of women This book will be important for academics interested in theories of international relations and to a wider public interested in understanding the Northern Ireland peace process *Hybridity on the Ground in Peacebuilding and Development* Joanne Wallis, Lia Kent, Miranda Forsyth, Sinclair Dinnen, Srinjoy Bose, 2018-03-01

Hybridity on the Ground in Peacebuilding and Development engages with the possibilities and pitfalls of the increasingly popular notion of hybridity The hybridity concept has been embraced by scholars and practitioners in response to the social and institutional complexities of peacebuilding and development practice In particular the concept appears well suited to making sense of the mutually constitutive outcomes of processes of interaction between diverse norms institutions actors and discourses in the context of contemporary peacebuilding and development engagements At the same time it has been criticised from a variety of perspectives for overlooking critical questions of history power and scale The authors in this interdisciplinary collection draw on their in depth knowledge of peacebuilding and development contexts in different parts of Asia the Pacific and Africa to examine the messy and dynamic realities of hybridity on the ground By critically exploring the power dynamics and the diverse actors ideas practices and sites that shape hybrid peacebuilding and development across time and space this book offers fresh insights to hybridity debates that will be of interest to both scholars and practitioners Hybridity has become an influential idea in peacebuilding and this volume will undoubtedly become the most influential collection on the idea Nuance and sophistication characterises this engagement with hybridity Professor John Braithwaite **The New Politics of Conflict Resolution** Morgan Brigg, 2008-11-02 This book shows that the conflict resolution field often denies difference even as it attempts to implement a progressive and responsive politics Innovative theoretical analysis suggests ways of responding anew across difference and beyond dominant ways of thinking about political community and conflict American Book Publishing Record , 2006

From Civil Rights to Armalites Niall Ó Dochartaigh, 1997 This book describes and analyses political changes in Derry from the beginning of the civil rights movement in 1968 to the height of the Troubles in 1972 and explains how conditions were created for protracted conflict in those early years The situation in Northern Ireland is distinguished above all by its duration After rapidly pitching forward towards full scale civil war in the early 1970s the conflict was stabilized and brought under control Despite predictions that the conflict would gradually dissipate it persisted over two decades The city of Derry has been a principle focus for the conflict It was in Derry that the early civil rights campaign focused the first rioting broke out and it was to Derry that the first British troops were sent in August 1969 By analyzing the development and escalation of the conflict in Derry this book provides a detailed examination of a number of broader issues It seeks to explain how the civil rights campaign was superseded by a conflict how large sections of the Catholic community became actively hostile to the Northern Ireland state how the Protestant community was transformed by events and why the British army became a major party in the conflict Ultimately it illustrates the way in which complex and durable relationships of confrontation were established and how these relationships created a political framework within which conflict could be sustained for decades Publisher description [Bibliographie Mensuelle](#) United Nations Library (Geneva, Switzerland), 2007
