BELIEVE

The Truth About Conservative Christians

George Yancey, Ashlee Quosigk

The Truth About Conservative Christians:

The Truth about Conservative Christians Andrew M. Greeley, Michael Hout, 2008-09-15 Ever since the reelection of President Bush conservative Christians have been stereotyped in the popular media Bible thumping militants and anti intellectual zealots determined to impose their convictions on such matters as evolution school prayer pornography abortion and homosexuality on the rest of us But conservative Christians are not as fanatical or intractable as many people think nor are they necessarily the monolithic voting block or political base that kept Bush in power Andrew M Greeley and Michael Hout's eye opening book expertly conveys the complexity variety and sensibilities of conservative Christians dispelling the myths that have long shrouded them in prejudice and political bias For starters Greeley and Hout reveal that class and income have trumped moral issues for these Americans more often than we realize a dramatic majority of working class and lower class conservative Christians backed liberals such as Jimmy Carter and Bill Clinton during their runs for president And when it comes to abortion most conservative Christians are not consistently pro life in the absolute fashion usually assumed they are still more likely to oppose the practice than other Americans but 86 percent of them are willing to tolerate it to protect the health of the mother or when the woman has been raped and 22 percent of them are even pro choice What do conservative Christians really think about evolution homosexuality or even the meaning of the word of God Answering these questions and more **The Truth about Conservative Christians** will interest and surprise a broad range of readers especially in this heated election year

The Evangelicals You Don't Know Tom Krattenmaker, 2013-04-26 So you have a problem with evangelical Christians Which ones These are the provocative questions Tom Krattenmaker poses to his fellow progressives in **The Evangelicals You Don't Know** He challenges stereotypes about evangelical Christians and introduces readers to a movement of new evangelicals who are bringing forth a non partisan expression of evangelicalism and creating opportunities for alliances and partnerships to advance the common good Krattenmaker argues that cultural fault lines no longer divide the religious from the secular or the evangelicals from everyone else Rather the lines that matter now run between the fundamentalist culture warriors of both the left and right on one side and on the other the good doers of any faith or none who want to work together to solve our society's problems and introduce a new civility and decency to our shared national life Krattenmaker is one of the best informed non evangelicals writing about evangelicalism in American public life He offers interesting stories intriguing character sketches and incisive writing in his readable and engaging book Recounting the findings and insights gleaned from his many years of engagement with evangelical America he draws conclusions sure to surprise challenge and even inspire non evangelicals who had written off this controversial and influential faith movement **The Evangelicals You Don't Know** offers a refreshing alternative to narratives that pay attention only to aspects of evangelicalism that are most distasteful and threatening to secular progressives and liberal religionists providing instead a hopeful introduction to promising new currents rising among theologically conservative Christians *Conservative*

Christian Politics in Russia and the United States John Anderson, 2014-09-19 This book explores the politics of conservative Christian churches and social movements in Russia and the United States focusing on their similar concerns but very different modes of political engagement Whilst secularisation continues to chip away at religious adherence and practice in Europe religion is often quite rightly seen as an influential force in the politics of the United States and more questionably as a significant influence in contemporary Russia This book looks at the broad social movement making up the US Christian Right and the profoundly hierarchical leadership of the Russian Orthodox Church as socially conservative actors and some of the ways they have engaged in contemporary politics Both are seeking to halt the perceived drift towards a more secular political order both face significant challenges in handling the consequences of secularism pluralism and liberal individualism and both believe that their nations can only be great if they remain true to their religious heritage In exploring their experience the book focuses on shared and different elements in their diagnosis of what is wrong with their societies and how this affects their policy intervention over issues such as religious and ethnic belonging sexual orientation and education Drawing on political sociological and religious studies this work will be a useful reference for students and scholars of religion and politics Russian politics and American politics

How to be Evangelical Without Being Conservative Roger E. Olson, 2008 In recent years the American media have portrayed the evangelical movement as a conservative force in society equating it with fundamentalism Many people equate evangelical Christianity with conservatism in religion politics theology and social attitudes But is this the whole story of evangelicalism Roger Olson's new book sets forth evidence that the link between evangelicalism and conservatism has not always been as strong as it is today in the popular mind Olson shows how contemporary

A Conservative Christian Reviews the Greatest Movies Ever Made George McManus, 2003-07

Biblical Truths Dale B. Martin, 2017-01-01 A leading biblical scholar's landmark work challenges the historical realism that has dominated the discipline for more than two centuries How can a modern person informed by science and history continue to recite the traditional creeds and confessions of the Christian church What does the Bible mean and how do we verify biblical truths In this groundbreaking book a leading biblical scholar urges readers to be more creative interpreters of biblical texts mapping out an alternative way of reading that is not first and foremost about understanding what those texts would have meant for the original authors and readers Limiting our study to the ancient meaning of the text he argues has produced either bad history or bad theology or both One cannot derive robustly orthodox Christian doctrine or theology from a mere historical interpretation of the Bible Martin offers instead theological readings of the New Testament that are faithful to Christian orthodoxy as generally understood but without attempting a foundationalist understanding of the meaning of the text His provocative and ambitious book demonstrates how theology and scripture can remain vital in the twenty first century

One Faith No Longer George Yancey, Ashlee Quosigk, 2021-07-06 Irreconcilable differences drive the division between progressive and conservative Christians is there a divorce coming Much attention has

been paid to political polarization in America but far less to the growing schism between progressive and conservative Christians In this groundbreaking new book George Yancey and Ashlee Quosigk offer the provocative contention that progressive and conservative Christianities have diverged so much in their core values that they ought to be thought of as two separate religions The authors draw on both quantitative data and interviews to uncover how progressive and conservative Christians determine with whom they align themselves religiously and how they distinguish themselves from each other They find that progressive Christians emphasize political agreement relating to social justice issues as they determine who is part of their in group and focus less on theological agreement Among conservative Christians on the other hand the major concern is whether one agrees with them on core theological points Progressive and conservative Christians thus use entirely different factors in determining their social identity and moral values In a time when religion and politics have never seemed so intertwined One Faith No Longer offers a timely and compelling reframing of an age old conflict

Christian Fundamentalism in America David S. New, 2014-01-10 Today the United States is plagued with cultural and political polarization the Reds and the Blues Because religion has been of great significance in America right from the first colonists who believed themselves to be God's chosen nation it is not surprising that religion constitutes the basis of today's dichotomy The recent resurgence of Christian fundamentalism is significant for the future of America as a nation under God This book examines the history of conservative American Christianity as it interacts with liberal beliefs With the Enlightenment the Puritan sense of mission faded but was rekindled with the Great Awakening This religious movement unified the colonies and provided an animating ideal which led to revolution against Britain But soon after the forces of liberalism made inroads and the seeds of division were planted This balanced account favors neither conservative nor liberal It is history with a human touch emphasizing personalities from Jonathan Edwards and William Jennings Bryan to David Koresh and Jim Jones *The Quarterly Christian Spectator*, 1838 **For the Glory of God** Richard H. Jones, 2012-06-07 For the Glory of God addresses key questions regarding the connection between religion and science Richard H Jones investigates whether ideas from the Bible and Christian theology have played a significant role in the development of modern scientific theories If so has the role always been positive or negative In this regard does religion have the epistemic right to control science or to offer an alternative Christian science to mainstream science Is creationism or intelligent design a science on the same footing with neo Darwinism Is the integrity of science today in danger of religious control In this volume Jones provides an illuminating history of the role of Christian ideas in the physical and biological sciences from the Middle Ages to today He reveals the failure of the popular war and harmony models for the relation of religion and science and shows that a control model does work to explain the complex history of religion and science **The Role of Religion in Marriage and Family Counseling** Jill Duba Onedera, 2007-07-19 Religion can play a vital role in the way people relate to each other particularly with interpersonal dynamics within a family The role of a couple or family's religion's in the

counseling room is no less important This book provides practitioners with an overview of the principles of the major world religions with specific focus on how each religion can influence family dynamics and how best to incorporate this knowledge into effective practice with clients

Culture, Communication, and Christianity Charles H. Kraft, 2001 Charles Kraft is a well known author educator linguist anthropologist and missiologist This book consists of his selected writings compiled over more than three decades Subjects including anthropology communication worldview ethnolinguistics hermeneutics and contextualization are dealt with as they relate to Christianity and Kraft s unique perspective Kraft s personal story and an exhaustive bibliography of his personal writings from 1961 2000 are included This book is of extraordinary value to those who desire to study Christianity culture and communication and the interplay between all three [The Last Christian on Earth](#) Os Guinness, 2010-02-18 In one of the world s great ironies the Christian faith contributed decisively to the rise of the modern world but has been undermined decisively by the modern world it helped to create The Christian faith has become its own gravedigger In the 25 years since philosopher and social critic Os Guinness first published *The Gravedigger* Files much has happened the fall of the Soviet Union the rise of the computer age the reemergence of China and India the rise of Islamic terrorism and the worldwide revitalization and politicization of religion The central mystery of Dr Guinness s spy novel inspired by his affection for John le Carr thrillers remains unsolved Can Christians regain the full integrity of faith in Christ while fully and properly engaged in the advanced modern world This new edition of *The Last Christian on Earth* which includes previously unpublished top secret memos is Dr Guinness s parable about the future of the Christian church in the West Written in the grand tradition of le Carr Fleming and Clancy this thriller pays homage to the genre while transcending it because the real life ending has yet to be written

Evangelicals and Democracy in America Steven G. Brint, Jean Reith Schroedel, Steven Brint, 2011-09 By the end of the nineteenth century the vast majority of U S churches were evangelical in outlook and practice America s turn toward modernism and embrace of science in the early twentieth century threatened evangelicalism s cultural prominence But as confidence in modern secularism wavered in the 1960s and 1970s evangelicalism had another great awakening The two volumes of *Evangelicals and Democracy in America* trace the development and current role of evangelicalism in American social and political life Volume I focuses on who evangelicals are today how they relate to other groups and what role they play in U S social institutions Part I of *Religion and Society* examines evangelicals identity and activism Contributor Robert Wuthnow explores the identity built around the centrality of Jesus church and community service and the born again experience Philip Gorski explores the features of American evangelicalism and society that explain the recurring mobilization of conservative Protestants in American history Part II looks at how evangelicals relate to other key groups in American society Individual chapters delve into evangelicals relationship to other conservative religious groups women and gays African Americans and mainline Protestants These chapters show sources of both solidarity and dissension within the traditionalist alliance and the hidden strengths of mainline

Protestants moral discourse Part III examines religious conservatives influence on American social institutions outside of politics W Bradford Wilcox David Sikkink Gabriel Rossman and Rogers Smith investigate evangelicals influence on families schools popular culture and the courts respectively What emerges is a picture of American society as a consumer marketplace with a secular legal structure and an arena of pluralistic competition interpreting what constitutes the public good These chapters show that religious conservatives have been shaped by these realities more than they have been able to shape them Evangelicals and Democracy in America Volume I is one of the most comprehensive examinations ever of this important current in American life and serves as a corrective to erroneous popular representations These meticulously balanced studies not only clarify the religious and social origins of evangelical mobilization but also detail both the scope and limits of evangelicals influence in our society This volume is the perfect complement to its companion in this landmark series Evangelicals and Democracy in America Volume II Religion and Politics Teaching Adolescents Religious Literacy in a Post-9/11 World Robert Nash, Penny A. Bishop, 2009-11-01 For thousands of years religion has been a key element of human societies Whenever we as educators exclude or minimize religion s vast role in society we leave out a large part of our world s shared history This is a serious act of educational omission even neglect on the part of our nation s public middle and secondary schools particularly when adolescents are so ready to engage in meaningful conversation about the world that surrounds them Our book s central purpose is to provide middle level and high school teachers with the necessary background knowledge and pedagogical skills necessary to help adolescents become religiously literate learners and citizens Currently there is no text like ours on the market that both covers a number of world religions and presents concrete recommendations for teaching and learning this material Our book is meant to educate the following audiences teacher educators middle level and high school teachers in all content areas administrators school boards and parents For us educating for religious literacy is all about bringing adolescents into the 21st century of teeming religious and spiritual diversity a long neglected component of the multicultural curriculum in public schools In a post 9 11 world religious literacy requires that students understand the whats and whys of differing religious beliefs both in their own country and elsewhere It means looking for commonalities as well as differences between and among the great wisdom traditions both nationally and internationally It is about understanding how all of us might live peacefully in a religiously diverse world Our book accomplishes these goals by being informative practical experiential case based and above all accessible to beginners

The Oxford Handbook of Christian Fundamentalism Andrew Atherstone, David Ceri Jones, 2024-01-18 This authoritative volume offers the fullest account to date of Christian fundamentalism its origins in the nineteenth century and its development up to the present day It looks at the movement in global terms and through a number of key subjects and debates in which it is actively engaged *So Many Christians, So Few Lions* George Yancey, David A. Williamson, 2014-11-06 *So Many Christians So Few Lions* is a provocative look at anti Christian sentiments in America Drawing on both quantitative

and qualitative research authors George Yancey and David A Williamson show that even though or perhaps because Christianity is the dominant religion in the United States bias against Christians also exists particularly against conservative Christians and that this bias is worth understanding The book does not attempt to show the prevalence of anti Christian sentiments called Christianophobia but rather to document it to dig into where and how it exists to explore who harbors these attitudes and to examine how this bias plays itself out in everyday life Excerpts from the authors interviews highlight the fear and hatred that some people harbor towards Christians especially the Christian right and the ways these people exhibit elements of bigotry prejudice and dehumanization The authors argue that understanding anti Christian bias is important for understanding some social dynamics in America and they offer practical suggestions to help reduce religious intolerance of all kinds

The Evangelicals Frances FitzGerald, 2017-04-04 Winner of the 2017 National Book Critics Circle Award National Book Award Finalist Time magazine Top 10 Nonfiction Book of the Year New York Times Notable Book Publishers Weekly Best Books of 2017 This epic history The Boston Globe from Pulitzer Prize winning historian Frances FitzGerald is the first to tell the powerful dramatic story of the Evangelical movement in America from the Puritan era to the 2016 election We have long needed a fair minded overview of this vitally important religious sensibility and FitzGerald has now provided it The New York Times Book Review The evangelical movement began in the revivals of the eighteenth and nineteenth centuries known in America as the Great Awakenings A populist rebellion against the established churches it became the dominant religious force in the country During the nineteenth century white evangelicals split apart first North versus South and then modernist versus fundamentalist After World War II Billy Graham attracted enormous crowds and tried to gather all Protestants under his big tent but the civil rights movement and the social revolution of the sixties drove them apart again By the 1980s Jerry Falwell and other southern televangelists such as Pat Robertson had formed the Christian right Protesting abortion and gay rights they led the South into the Republican Party and for thirty five years they were the sole voice of evangelicals to be heard nationally Eventually a younger generation proposed a broader agenda of issues such as climate change gender equality and immigration reform Evangelicals now constitute twenty five percent of the American population but they are no longer monolithic in their politics They range from Tea Party supporters to social reformers Still with the decline of religious faith generally FitzGerald suggests that evangelical churches must embrace ethnic minorities if they are to survive A well written thought provoking and deeply researched history that is impressive for its scope and level of detail The Wall Street Journal Her brilliant book could not have been more timely more well researched more well written or more necessary The American Scholar

Evangelicals & Scripture Vincent E. Bacote, Laura Miguez Quay, Dennis L. Okholm, 2009-08-20 Vincent Bacote Laura C Miguez and Dennis L Okholm present twelve essays that explore in depth the meaning of an evangelical doctrine of Scripture that takes seriously both the human and divine dimensions of the Bible

THE TRUTH OF THE ORIGIN OF THE UNIVERSE Sabrie Soloman, 2024-06-12 God s

Signature in DNA The Rapture The Great Tribulation Armageddon War World War III The concept of God's signature in DNA is a fascinating topic that explores the intricate design and complexity of the human genome Many creationists and religious believers see the complexity and precision of DNA as evidence of an intelligent designer or creator pointing to the existence of a higher power The idea that DNA contains a signature of God's handiwork is a theme often discussed in religious and philosophical circles highlighting the wonder and mystery of life itself Moving on to the topics of the Rapture the Great Tribulation and the Armageddon War these concepts are deeply embedded in Christian eschatology or the study of end times The Rapture is believed to be the biblical event where believers are taken up to heaven to be with God before a period of tribulation and judgment on earth The Great Tribulation is a period of intense suffering and turmoil that is prophesied to occur before the final battle of Armageddon believed by the author to be World War III These apocalyptic beliefs have captured the imagination of many believers and have inspired countless books movies and religious teachings While interpretations of these events may vary among different Christian denominations the underlying message of hope redemption and faith in the face of adversity remains a central theme

This is likewise one of the factors by obtaining the soft documents of this **The Truth About Conservative Christians** by online. You might not require more era to spend to go to the book creation as capably as search for them.
