The Turbulent Decade Confronting The Refugee Crisis Of The 1990s:

The Turbulent Decade Sadako N. Ogata, 2005 Ogata recounts her experiences and the lessons she learned as U N high commissioner for refugees during the 1990s A tireless advocate for the victims of war Ogata tells the on the ground story of four crises in which she directed relief Iraq the Balkans the African Great Lakes region and Afghanistan *The International Struggle Over Iraq* David Malone, 2006 Iraq has dominated headlines in contemporary times but its controversial role in international affairs goes back much further This book presents an understanding of one of the most persistent crises in international affairs and the various roles the world s central peace making forum has played in it **Protracted Refugee Situations** Gil Loescher, James Milner, 2013-11-05 Protracted refugee populations not only constitute over 70% of the world s refugees but are also a principal source of many of the irregular movements of people around the world today The long term presence of refugee populations in much of the developing world has come to be seen by many host states in these regions as a source of insecurity In response host governments have enacted policies of containing refugees in isolated and insecure camps have prevented the arrival of additional refugees and in extreme cases have engaged in forcible repatriation Not surprisingly these refugee populations are also increasingly perceived as possible sources of insecurity for Western states Refugee camps are sometimes breeding grounds for international terrorism and rebel movements These groups often exploit the presence of refugees to engage in activities that destabilise not only host states but also entire regions Protecting the Displaced Sara E. Davies, Luke Glanville, 2010-06-14 This edited collection has sought contributions from some of the foremost scholars of refugee and Internally Displaced Persons IDP studies to engage with the conceptual and practical difficulties entailed in realising how the Responsibility to Protect R2P can be fulfilled by states and the international community to protect vulnerable persons Contributors to this book were given one theme to consider based on their experience and knowledge how R2P may be aligned with the protection of the displaced Contributions explore the history and progress so far in aligning R2P with refugee and IDP protection as well as examining the conceptual and practical issues that arise when attempting to expand R2P from words into deeds Human Rights in International Relations David P. Forsythe, 2006-05-01 This new edition of David Forsythe s successful textbook provides an authoritative overview of the place of human rights in international politics in an age of terrorism The book focuses on four central themes the resilience of human rights norms the importance of soft law the key role of non governmental organizations and the changing nature of state sovereignty Human rights standards are examined according to global regional and national levels of analysis with a separate chapter dedicated to transnational corporations This second edition has been updated to reflect recent events notably the creation of the ICC and events in Iraq and Guantanamo Bay and new sections have been added on subjects such as the correlation between world conditions and the fate of universal human rights Containing chapter by chapter guides to further reading and discussion questions this book will be of interest to undergraduate and graduate students of human

rights and their teachers David Forsythe received the Distinguished Scholar Award for 2007 from the Human Rights Section of the American Political Science Association

The Politics and Everyday Practice of International Humanitarianism Miriam Bradley, 2023 Through a combination of detailed case studies of humanitarian emergencies and thematic chapters which cover key concepts actors and activities this book explores the work of the largest international humanitarian agencies Its central argument is that politics play a fundamental role in determining humanitarian needs practices and outcomes In making this argument the book highlights the many challenges and dilemmas facing humanitarian agencies in the contemporary world It covers significant ground temporally geographically and thematically The book is divided into four sections providing a wide ranging survey of contemporary international humanitarianism The first section begins by presenting chapter length case studies of the international responses to eleven humanitarian emergencies from the 1960s to the present day across Africa Asia the Caribbean and Europe the second explains key concepts and trends in international humanitarianism the third discusses how the work of international humanitarian agencies interacts with a range of other actors including media celebrities donors states civil society military forces and armed groups who have significant impacts on humanitarian response and outcomes and the fourth turns to the operations and activities undertaken by aid agencies on a daily basis Ideally suited as a high level introduction for students of international humanitarianism the empirical detail and lucid analysis additionally make *The Politics and Everyday Practice of International Humanitarianism* an invaluable point of reference for more established scholars

Our Last Best Hope -President John F. Kennedy M. James Wilkinson, 2007-12 As America tries to deal with the consequences of its misfired Iraq expedition and the host of other challenges lurking in a murky future this book will sharpen our thoughts on the uses and misuses of the UN and where it fits into Washington policies The authors suggest an approach and specific policy elements that merit serious attention even as they make clear they do not expect the UN will be any kind of panacea Morton Abramowitz Senior Fellow at The Century Foundation By the same authors *The Third Try can the UN work* Published in Australia by Scribe Books in 2005 *The Third Try* was selected for the short list of a prestigious New South Wales Literary Prize The German translation by Dr Michael Haupt was released in 2006 by Parthas Verlag in Berlin from *Third Try* Australian reviews a brilliant analysis of an often maligned organization that pledged international kinship and is struggling to reinvent itself to stand for something meaningful An extremely significant book that is sure to rouse the public from its slumber Five stars Tony O Loughlin Australian Bookseller Publisher October 2005 written for the lay reader and is set out in a clear straightforward style Its accessible manner makes welcome reading when facing such a daunting subject Chris Saliba WebDiary

Protecting Civilians in War Miriam Bradley, 2016 This volume examines the roles methods and effectiveness of the International Committee of the Red Cross ICRC and the Office of the UN High Commissioner for Refugees UNHCR in protecting civilians in internal armed conflicts

UNHCR Associate Professor Department of International Development Alexander Betts, Chairman of the External Advisory Board to the United Nations

High Commissioner for Refugees in Geneva and Professor of International Relations Gil Loescher, James Milner, 2008-08
This is a concise and comprehensive introduction to both the world of refugees and the UN organization that protects and assists them. Written by experts in the field, this is one of the very few books that trace the relationship between state interests, global politics, and the work of the United Nations High Commissioner for Refugees (UNHCR). Looking ahead into the twenty-first century, the authors outline how the changing nature of conflict and displacement poses UNHCR with a new array of challenges and how there exists a fundamental tension between the UN's human rights agenda of protecting refugees fleeing conflict and persecution and the security, political, and economic interests of states around the world. Key topics discussed include: The UNHCR as an actor in world politics since 1950; Refugee definition and protection instruments; New challenges to the UNHCR's mandate; Institutional strengths and weaknesses; Asylum crises in the global North and global South; Protracted refugee situations and internally displaced persons; Key criticisms and continuing relevance of the UNHCR.

International Migration and Citizenship Today Niklaus Steiner, 2009-09-10
International migration has emerged in the last decade as one of the world's most controversial and pressing issues. This thought-provoking textbook offers the reader a more nuanced and knowledgeable understanding of the complex economic, political, cultural, and moral concerns that arise when people move across borders seeking admission into other countries. Splitting the text into five broad sections, Steiner facilitates easy navigation of the complex discussions that surround the issue of migration. Section One: Introduction examines how the central questions that frame the book will be addressed, including what criteria should be used to admit migrants and how should a country grant citizenship. Section Two: Immigrants discusses the criteria for accepting immigrants, dealing with the unwanted, and assessing the economic, cultural, and political impacts. Section Three: Refugees evaluates the methods used to protect refugees, the controversies surrounding asylum, and the shortcomings of current refugee definitions. Section Four: Citizenship charts the rise of nationalism, presents modern issues of minority rights and diversity, and examines processes of naturalization across the globe. Section Five: Conclusion considers more unconventional approaches to migration and citizenship and suggests moving towards a more holistic approach. Carefully constructed to spark discussion and student reflection, and featuring suggested resources at the

end of each section this book offers dozens of contemporary examples and case studies from across the globe International Migration and Citizenship Today is essential reading for not only students of migration and citizenship but also globalization international relations and democracies *Humanitarian Business* Thomas G. Weiss,2013-04-24 With some 50 million people living under duress and threatened by wars and disasters in 2012 the demand for relief worldwide has reached unprecedented levels Humanitarianism is now a multi billion dollar enterprise and aid agencies are obliged to respond to a range of economic forces in order to stay in business In his customarily hard hitting analysis Thomas G Weiss offers penetrating insights into the complexities and challenges of the contemporary humanitarian marketplace In addition to changing political and military conditions that generate demand for aid private suppliers have changed too Today s political economy places aid agencies side by side with for profit businesses including private military and security companies in a marketplace that also is linked to global trade networks in illicit arms natural resources and drugs This witch s brew is simmering in the cauldron of wars that are often protracted and always costly to civilians who are the very targets of violence While belligerents put a price tag on access to victims aid agencies pursue branding in a competition for scarce resources relative to the staggering needs As marketization encroaches on traditional humanitarianism it seems everything may have a price from access and principles to moral authority and lives *What's Wrong with the United Nations and How to Fix it* Thomas G. Weiss,2013-05-20 Six decades after its establishment the United Nations and its system of related agencies and programs are perpetually in crisis While the twentieth century s world wars gave rise to ground breaking efforts at international organization in 1919 and 1945 today s UN is ill equipped to deal with contemporary challenges to world order Neither the end of the Cold War nor the aftermath of 9 11 has led to the next generation of multilateral institutions But what exactly is wrong with the UN and how can we fix it Is it possible to retrofit the world body In his succinct and hard hitting analysis Thomas G Weiss takes a diagnose and cure approach to the world organization s inherent difficulties In the first half of the book he considers the problems of international leadership and decision making in a world of self interested states the diplomatic difficulties caused by the artificial divisions between the industrialized North and the global South the structural problems of managing the UN s many overlapping jurisdictions agencies and bodies and the challenges of bureaucracy and leadership The second half shows how to mitigate these maladies and points the way to a world in which the UN s institutional ills might be cured His remedies are not based on pious hopes of a miracle cure for the UN but rather on specific and encouraging examples that could be replicated With considered optimism and in contrast to received wisdom Weiss contends that substantial change in intergovernmental institutions is plausible and possible The new and expanded second edition of this well regarded and indispensable book will continue to spark debate amongst students scholars and policymakers concerned with international politics as well as anyone genuinely interested in the future of the United Nations and multilateral cooperation UN Peacekeeping Operations and the Protection of Civilians Conor Foley,2017-09-07

Concept of Climate Migration Benoît Mayer, 2016-11-25 This timely book offers a unique interdisciplinary inquiry into the prospects of different political narratives on climate migration. It identifies the essential angles on climate migration: the humanitarian narrative, the migration narrative, and the climate change narrative, and assesses their prospects. The author contends that although such arguments will influence global governance, they will not necessarily achieve what advocates hope for. He discusses how the weaknesses of the concept of climate migration are likely to be utilized in favour of repressive policies against migration or for the defence of industrial nations against perceived threats from the Third World.

Bosnia Remade Gerard Toal, Carl T. Dahlman, 2011-02-16 Bosnia Remade is an authoritative account of ethnic cleansing and its partial undoing from the onset of the 1990s Bosnian wars up through the present. Gerard Toal and Carl Dahlman combine a bird's-eye view of the entire war from onset to aftermath with a micro-level account of three towns that underwent ethnic cleansing and later the return of refugees. There have been two major attempts to remake the ethnic geography of Bosnia since 1991. In the first instance, ascendant ethno-nationalist forces tried to eradicate the mixed ethnic geographies of Bosnia's towns, villages, and communities. These forces devastated tens of thousands of homes and lives but they failed to destroy Bosnia Herzegovina as a polity. In the second attempt, which followed the war, the international community in league with Bosnian officials endeavored to reverse the demographic and other consequences of this ethnic cleansing. While progress has been uneven, this latter effort has transformed the ethnic demography of Bosnia and moved the nation beyond its recent segregationist past. By showing how ethnic cleansing was challenged, Bosnia Remade offers more than just a comprehensive narrative of Europe's worst political crisis of the past two decades. It also offers lessons for addressing an enduring global problem.
