Muscles in the Movies John D. Fair, David L. Chapman, 2020-11-16 John Fair and David Chapman tell the story of how filmmakers use and manipulate the appearance and performances of muscular men and women to enhance the appeal of their productions. The authors show how this practice, deeply rooted in western epistemological traditions, evolved from the art of photography through magic lantern and stage shows into the motion picture industry, arguing that the sight of muscles in action induced a higher degree of viewer entertainment. From Eugen Sandow to Dwayne 'The Rock' Johnson, muscular actors appear capable of performing the miraculous, and with the aid of stuntmen and filming contrivances, they do. By such means, muscles are used to perfect the art of illusion inherent in movie making from its earliest days.

The Vietnam War in Popular Culture Ron Milam, 2016-11-07 Covering many aspects of the Vietnam War that have not been addressed before this book supplies new perspectives from academics as well as Vietnam veterans that explore how this key conflict of the 20th century has influenced everyday life and popular culture during the war as well as for the past 50 years How did the experience of the Vietnam War change the United States not just in the 1950s through the 1970s but through to today What role do popular music and movies play in how we think of the Vietnam War How similar are the recent wars in Iraq and Afghanistan and now Syria to the Vietnam War in terms of duration cost success and failure rates and veteran issues This two volume set addresses these questions and many more examining how the Vietnam War has been represented in media music and film and how American popular culture changed because of the war Accessibly written and appropriate for students and general readers this work documents how the war that occurred on the other side of the globe

in the jungles of Vietnam impacted everyday life in the United States and influenced various entertainment modes. It not only covers the impact of the counterculture revolution, popular music about Vietnam recorded while the war was being fought, and after, and films made immediately following the end of the war in the 1970s, but also draws connections to more modern events and popular culture expressions such as films made in the aftermath of September 11, 2001. Attention is paid to the impact of social movements like the environmental movement and the civil rights movement and their relationships to the Vietnam War. The set will also highlight how the experiences and events of the Vietnam War are still impacting current generations through television shows such as *Mad Men*. **How White Men Won the Culture Wars** Joseph

Darda, 2021-05-25 CHOICE Outstanding Academic Title 2022 A cultural history of how white men exploited the image of the Vietnam veteran to roll back civil rights and restake their claim on the nation. If war among the whites brought peace and liberty to the blacks, Frederick Douglass asked in 1875, peering into the nation's future, what will peace among the whites bring? The answer, then and now, after civil war and civil rights, is a white reunion disguised as a veterans reunion. *How White Men Won the Culture Wars* shows how a broad contingent of white men, conservative and liberal hawk and dove, vet and nonvet, transformed the Vietnam War into a staging ground for a post-civil rights white racial reconciliation. Conservatives could celebrate white vets as raceless embodiments of the nation. Liberals could treat them as minoritized heroes whose voices must be heard. Erasing Americans of color, Southeast Asians, and women from the war, white men, with stories of vets on their mind, could agree after civil rights and feminism that they had suffered and deserved more. From the POW/MIA and veterans' mental health movements to *Rambo* and *Born in the U.S.A.*, they remade their racial identities for an age of color blindness and multiculturalism in the image of the Vietnam vet. No one wins in a culture war, except, Joseph Darda argues, white men dressed in army green. *Crank it up* Steven Gerrard, Robert Shail, 2019-09-23 Jason Statham has risen from street seller through championship diving and modelling to become arguably the biggest British male film star of the twenty-first century. This is the first book to offer a critical analysis of his work across a variety of media, including film, television, video games, and music videos. Each chapter focuses on a particular aspect of Statham's career, from his distinctive screen presence to his style branding and celebrity. Accessibly written and featuring a contribution from Hollywood director Paul Feig, who worked with Statham on the 2015 action comedy *Spy*, the collection will appeal to a wide audience of scholars, students, and fans. **Screening the Crisis** Hilaria Loyo, Juan A. Tarancón, 2022-07-14 The financial collapse of 2008

extended and deepened a prolonged, multilayered crisis that has transformed often in unexpected ways how we think about all aspects of social life. Amid these turbulent times, film studies scholars have begun to ask new questions and create fresh strategies in order to integrate intellectual and political work in ways that directly address our current predicament. This timely volume reconsiders the relationships between cinema and society at a time when neoliberal policies threaten not only civic culture but also nearly every aspect of human life. *Screening the Crisis* brings together established authors as well as

brilliant young scholars in the field of film studies to explore the ways in which new tendencies in US cinema enhance awareness of the complexity of the problems facing contemporary society The issues addressed include economic inequality shifts in gender roles racial conflicts immigration surveillance practices the environmental crisis the politics of housing and the fragility of nationhood These questions are explored through in depth studies and contextualized analyses of a wide variety of recent films genres and filmmakers With its ample range of topics and perspectives this collection provides an essential reference work for those who want to research how US cinema has responded to the manifold interconnected crises that characterize our current times *Action Cinema Since 2000* Chris Holmlund,Lisa Purse,Yvonne Tasker,2024-05-16
