summary and exercises **Making the African Continental Free Trade Agreement a Success** Albert G.

Zeufack, Fulbert Tchana Tchana, Aly Sanoh, 2024-04-05 In 2019 African heads of state and governments launched in fanfare the African Continental Free Trade Agreement AfCFTA a historic agreement for economic transformation across the continent But now comes the hard bit how to make the agreement a success In this book senior experts from across the world come together to provide a comprehensive analysis of the conditions needed for AfCFTA to successfully spur economic development in Africa It puts forward three foundations for success demography dividend digital economy and economic diversification In addition to trade policy the book recommends that African policymakers should strengthen fiscal and monetary policy coordination adopt and implement the appropriate regulatory environment and build suitable connectivity infrastructure The stakes are high If implemented correctly the book argues that AfCFTA could speed up trade within Africa which could double every five years Success would mean growth investment changing trade patterns jobs economic transformation poverty reduction and a continental market for services Driven by concrete evidence based strategies for long term growth this book is an essential read for policy makers development practitioners economics researchers and everyone with an interest in the future of Africa The Dirty Side of the Garment Industry Nikolay Anguelov, 2015-09-04 When

thinking about lowering or changing consumption to lower carbon footprints the obvious offenders come easily to mind petroleum and petroleum products paper and plastic even food But not clothes Although the clothing industry is the second largest polluter after agriculture most consumers do not think of clothes as a source of environmen **Reducing**

Inequalities Towards Sustainable Development Goals Medani P. Bhandari, 2022-09-01 The Sustainable Development Goals SDGs are a set of global goals that meet some of the most pressing challenges facing our world today Goal 10 concerns reducing global inequalities Inequality is currently seen in the social political and economic structures of communities at both the national and international level The United Nations approach to sustainable development is to create a set of goals and targets try to minimize the accelerating gaps of inequality The book presents new insights for evaluating the progress on SDGs especially goal 10 it also boldly sets new economic social and environmental targets for reducing inequality Using case studies this book encourages readers to view economic development through the lens of growing inequalities and disparities Such inequalities are clearly becoming more obvious as the world is better connected and information is quickly shared The books main aim is therefore to direct the efforts of scholars practitioners and policymakers to swiftly find the balance between the three pillars of sustainable development The main challenges and focus of each chapter are different and collectively they give an integrated understanding of the phenomenon of sustainable development and its diverse aspects This book will be useful for policymakers social and environmental activists agencies educators and practitioners in the sphere of social or environmental economics The methodology of the research can be replicated and taken forward by future researchers in the field **Supranational Institutions and Peacebuilding in Africa** Redie Bereketeab, 2024-09-06 This

book analyses the role of the African Union and regional economic communities in contributing to peacebuilding in Africa Big and small conflicts rage across the African continent and this book argues that the African Union and the five regional economic communities have the potential to greatly contribute to peace and peacebuilding In Africa Looking across the African Union and the five regional economic communities the AMU ECCAS ECOWAS IGAD and SADC the book considers in detail the organizations programmes engagement endeavours success and failure of activities of peacebuilding in their respective regions Overall the book argues that an institutionalised and formalised relationship between the African Union and the regional economic communities would not only be decisive for the prospects for peace in the region but would also serve to strengthen the continent s role on the global stage through asserting its agency owning its agenda and designing its own solutions and mechanisms for addressing problems Drawing together an international team of prominent experts this book will be of interest to researchers policymakers NGOs activists and regional and international actors working on African politics security governance and economics

Dragonomics Carol Wise,2020-03-24 An insightful examination of the political and economic ties between China and Latin America from the 1950s to the present This book explores the impact of Chinese growth on Latin America since the early 2000s Some twenty years ago Chinese entrepreneurs headed to the Western Hemisphere in search of profits and commodities specifically those that China lacked and that some Latin American countries held in abundance copper iron ore crude oil and soybeans Focusing largely on Argentina Brazil Chile Costa Rica Mexico and Peru Carol Wise traces the evolution of political and economic ties between China and these countries and analyzes how success has varied by sector project and country She also assesses the costs and benefits of Latin America s recent pivot toward Asia Wise argues that while opportunities for closer economic integration with China are seemingly infinite so are the risks She contends that the best outcomes have stemmed from endeavors where the rule of law regulatory oversight and a clear strategy exist on the Latin American side

Strategic Regions in 21st Century Power Politics Jakub Landovský,Martin Riegl,Irina Valko,2014-11-19 Resource wars identity conflicts disinformation geostrategic rivalries global power shifts and an increasing number of non state actors make it difficult to analyse contemporary international relations At the same time contemporary power rivalries are increasingly affected by currency wars economic diplomacy competitive intelligence economic warfare indirect strategies and state capitalism The events in Ukraine in Spring 2014 reconfirm that Thomas Friedman s flattening of the world based on the coincidence of the collapse of the Berlin Wall and the emergence of Netscape and the Web workflow software uploading outsourcing offshoring supply chaining insourcing in forming and steroids like Facebook and Instagram goes hand in hand with the fact that as postulated by Robert Kaplan geography still matters in a global world Globalization exists because of local processes and local processes are ultimately shaped by globalization Geography remains among the primary factors shaping a country s foreign policy This book addresses the most fundamental geopolitical issues observable in a region where the great game of geopolitics is particularly

still alive in East and South East Asia The contemporary geopolitical situation in this part of the world is far from stable the width and depth of economic integration in the region resonates with the nature of political relations crises in the global financial system climate change and the regional security architecture inherited from the Cold War era In terms of power relations the particular changes in the region s status quo imply an immediate intensification of the PRC s activities within the framework of political and security dialogue with its direct neighbors ultimately leading to a rivalry between China and the United States The studies presented in this book largely focus on East and South East Asian actors and problems while studies of the situation in other global regions enrich the research by adding a global dimension to the study of regional geopolitical affairs Low Carbon Economy and Health in the Context of Carbon Neutrality Yuanjun Zhao, Chunjia Han, Zheng Liu, 2023-12-08

Global warming has led to increasing climate risks and climate change is a global issue facing mankind Therefore most developed countries have set a clear goal of achieving carbon neutrality after reaching peak carbon emissions In the context of global warming low carbon economy based on low energy consumption and low pollution has become a global popular research topic At present the international community has formed a consensus on green transformation and taken practical actions At the same time the achievement of the carbon neutrality goal has highlighted the importance of public health and therefore a series of new research directions are emerging and how to develop a low carbon economy and protect public health while achieving the carbon neutrality goal has become an important issue In the post epidemic era economic recovery and public health issues need to be addressed and a low carbon economy and public health will face even greater challenges with carbon neutrality goals placing this issue at the forefront For this Research Topic we would like submissions that provide research results on topics such as green development green low carbon resource conservation low carbon economy low carbon development low carbon living low carbon living low carbon society population health health distribution health awareness health behavior and public health Quantitative qualitative and mixed methods approaches are welcome to explore the low carbon economy and public health from multiple perspectives The developmental history of the low carbon economy the level of development and the evaluation of the level of development The many challenges faced by the low carbon economy in the development process and how to deal with the challenges in the development process The development of a low carbon economy is influenced by a variety of factors such as low carbon investment policy norms technology development energy development and digitalization levels etc We would like research works which study the factors that influence the development of a low carbon economy Analyze which industries will have an impact on the development of a low carbon economy including but not limited to the energy industry transportation industry and construction industry To study the factors that affect the development of public health and how to improve public health To study the impact of residential environment sports environment community environment etc on public health To study the methods used in studies related to the development of a low carbon economy and public health development To analyze the

impact of the development of a low carbon economy on other industries such as international trade the real estate industry and tourism
