Blackman, Kathleen Dring, 2023-01-17 Developmental Evaluation of Children and Adolescents A Psychodynamic Guide offers an in depth multiperspective analysis of any delays regressions or aberrations in a child's developmental trajectory Blackman and Dring help the evaluator understand the child's internal conflicts as well as the family environmental context in which the child functions Chapters move longitudinally through the developmental stages In each chapter there are several key questions for evaluators to ask parents fulfilling the need for clinicians to quickly assess children followed by a longer question sheet and explanation of various answers to the questions for a more thorough assessment Each chapter also provides a discussion of the child's phase and a table listing the questions and answers for quick reference Finally brief case studies demonstrate how the developmental history and the initial session with the child should be integrated This book serves as an essential clinical guide to the developmental evaluation of children and will be suitable for all therapists working with children **Sexual Aggression Against Children** Jerome Blackman, Kathleen Dring, 2016-01-29 In Sexual Aggression Against Children Pedophiles and Abusers Development Dynamics Treatability and the Law Drs Blackman and Dring use multiple psychoanalytic principles to answer Why do people sexually abuse children and Why are most abusers male They address the legal and mental health professions minimization of the horrific nature of child sexual abuse explain how to assess pedophiles treatability and discuss

cases of adolescent and adult predators Also developmental analysis of sexual predation is integrated with a review of judicial decisions regarding civil commitment and punishment of abusers The authors suggest how courts evaluators and legislatures can preserve constitutional rights of sexual offenders while prioritizing protection of children Arrogance Salman Akhtar,Ann Smolen,2018-07-04 Arrogance as a specific constellation of affect fantasy and behavior has received little attention in psychoanalysis This is striking in light of the enormous amount of literature accumulated on the related phenomenon of narcissism Rectifying this omission the book in your hands addresses arrogance from multiple perspectives Among the vantage points employed are psychoanalysis evolutionary psychology cross cultural anthropology fiction as well as clinical work with children and adults The result is a harmonious gestalt of insight that is bound to enhance the clinician s attunement to the covert anguish of those afflicted with arrogance **Shame** Salman Akhtar,2018-03-29 This book offers ten distinguished analysts insights on shame from various perspectives which include its developmental substrate vicissitudes during adolescence and manifestations in the course of aging and infirmity It seeks to advance clinicians empathy and therapeutic skills in this realm **Unlit Corners** Salman Akhtar,2024-06-06 With contributions from Salman Akhtar Jerome Blackman Michael Civin Lois Choi Kain Nilofer Kaul M Sagman Kayatekin Z Emel Kayatekin Nina Savelle Rocklin and Ann Smolen Unlit Corners endeavours to bring light to neglected character traits which many struggle to overcome Filled with relevant case studies and carefully crafted psychoanalytic theory the book elucidates the multilayered nature of such psychopathologies and its treatment Beginning in the public realm Nina Savelle Rocklin explores the complex meaning of dirtiness both literally and figuratively relating it the body mind and language Ann Smolen s investigation of miserliness follows where she emphasizes that it is not about money but instead arises from the poverty of internal good objects which are the basic source of generosity Jerome Blackman examines the nuanced potential meanings of shyness using psychopathology and underlying etiology while Lois Choi Kain deftly categorizes outrageousness into three types a guilt driven masochist a hope driven optimist and a hate driven sadist with a subcategory for creative writers and artists The more private traits start with shallowness Michael Civin develops shallow as a general construct and studies it from a psychoanalytic perspective arguing that no human being can be described accurately as shallow The Kayatekins come next with their study of indecisiveness and the role of the ego as a way of understanding this trait Nilofer Kaul looks at restlessness and its associations in psychoanalysis literature and culture The final chapter comes from Salman Akhtar on the subject of cowardliness where he links it to the lack of self protective devices emanating from breeches in the early mother child bond and deficient identification with the same sex parent This book is highly recommended to clinicians to give them the tools to not only understand and empathize with their patient s struggles but also to enhance their capacity to help them overcome such struggles **101 More Interventions in Family Therapy** Thorana S Nelson,Terry S Trepper,2014-07-16 Inside 101 More Interventions in Family Therapy you ll discover many revolutionary and flexible strategies for family
