ESSAY BY ROBBIE BARNETT

"The pictures in this book vividly reveal
how much has changed in Tibet under the
Chinese rule. And yet, the Tibetan
spirit also shines through.
Tibetans at home and in exile remain
determined to preserve our identity and
regain the freedom we have lost."

Tibet's Fate Warren W. Smith Jr., 2023-03-15 Tibet's Fate examines the issue of the political fate of Tibet It is told by Tibetans themselves as well as by the author from his own experiences The title is not meant to imply that the current fate of Tibet is an ultimate destiny or even that Tibet's fate is already decided It is only meant in the sense that if Tibet's fate is now determined it has been determined not by the Tibetan people but by those of China If it is to be determined by China then Tibet's fate is indeed to be an integral part of China However if Tibet's fate were to be decided by the Tibetan people if they were allowed their right to national self determination then it would definitely be different Given all the criteria for independent statehood territory culture language religion and government Tibet surely should be an independent state Tibetan territory defined by altitude was the very nearly exclusively habitation of people who identified themselves as Tibetans Those people share a distinct culture language and religion They had a central government that directly administered the territory of Central Tibet and indirectly that of Kham

and Amdo Had Tibetans been allowed to determine for themselves their political status that is if they had the right to self determination as specified in the most fundamental documents of international law there is no doubt that they would have chosen independence Whatever the flaws of the Tibetan social and political systems Tibet should have had the right to determine its own fate and could have done so until deprived of that right by China The book also examines the sensitive question of the nature of the Tibetan political system and its role in the fate that has befallen Tibet The author concludes that the Tibetan political system of Chosi Shungdrel or the unity of religion and politics is implicated in the failure of Tibet to maintain its independence

The Chinese Revolution on the Tibetan Frontier Benno Weiner,2020-06-15 In *The Chinese Revolution on the Tibetan Frontier* Benno Weiner provides the first in depth study of an ethnic minority region during the first decade of the People s Republic of China the Amdo region in the Sino Tibetan borderland Employing previously inaccessible local archives as well as other rare primary sources he demonstrates that the Communist Party s goal in 1950s Amdo was not just state building but also nation building Such an objective required the construction of narratives and policies capable of convincing Tibetans of their membership in a wider political community As Weiner shows however early efforts to gradually and organically transform a vast multiethnic empire into a singular nation state lost out to a revolutionary impatience demanding more immediate paths to national integration and socialist transformation This led in 1958 to communization then to large scale rebellion and its brutal pacification Rather than joining voluntarily Amdo was integrated through the widespread often indiscriminate use of violence a violence that lingers in the living memory of Amdo Tibetans and others
