The Science of Bombing Randall Thomas Wakelam, 2009-06-25 After suffering devastating losses in the early stages of the Second World War the United Kingdom's Royal Air Force established an Operational Research Section within bomber command in order to drastically improve the efficiency of bombing missions targeting Germany In *The Science of Bombing* Randall Wakelam explores the work of civilian scientists who found critical solutions to the navigational and target finding problems and crippling losses that initially afflicted the RAF Drawing on previously unexamined files that re-assess the efficacy of strategic bombing from tactical and technical perspectives Wakelam reveals the important role scientific research and advice played in operational planning and how there existed a remarkable intellectual flexibility at Bomber Command A fascinating glimpse into military strategy and decision making *The Science of Bombing* will find a wide audience among those interested in air power history as well as military strategists air force personnel and aviation historians **Aviso**, 2004

The Third Reich Thomas Childers, 2017-10-10 Riveting An elegantly composed study important and even timely Kirkus Reviews starred review history of the Third Reich how Adolf Hitler and a core group of Nazis rose from obscurity to power and plunged the world into World War II In the new definitive volume on the subject Houston Press Thomas Childers shows how the young Hitler became passionately political and anti-Semitic as he lived on the margins of society Fueled by outrage at the punitive terms imposed on Germany by the Versailles Treaty he found his voice and drew a loyal following As his views developed Hitler attracted like-minded colleagues who formed the nucleus of the nascent Nazi party Between 1924 and 1929 Hitler and his party languished in obscurity on the radical fringes of German politics but the onset of the Great Depression

gave them the opportunity to move into the mainstream Hitler blamed Germany's misery on the victorious allies the Marxists the Jews and big business and the political parties that represented them By 1932 the Nazis had become the largest political party in Germany and within six months they transformed a dysfunctional democracy into a totalitarian state and began the inexorable march to World War II and the Holocaust It is these fraught times that Childers brings to life the Nazis unlikely rise and how they consolidated their power once they achieved it Based in part on German documents seldom used by previous historians *The Third Reich* is a powerful reminder of what happens when power goes unchecked San Francisco Book Review This is the most comprehensive and readable one volume history of Nazi Germany since the classic *The Rise and Fall of the Third Reich* **LIFE**, 1941-10-06 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE.com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today's people and events They have free access to share print and post images for personal use **Churchill** Samantha Heywood, 2003-12-08 Examining the influential career of Winston Churchill this new book discusses his career from Secretary of State for War and Air to British Prime Minister during the Second World War and from 1951-55 *World War II International Agreements and Understandings* United States. Congress. Senate. Committee on Foreign Relations, 1953 **Fire and Fury** Randall Hansen, 2025-05-08 Insightful rigorously researched and splendidly written Donald L Miller author of *Masters of the Air* During World War II Allied bombing obliterated every major German and Japanese city Before the dropping of the atomic bombs conventional bombing had killed approximately 400,000 Germans and 330,000 Japanese the vast majority civilians Two thirds of Germans who died under the bombs did so in 1944 and 1945 and in the last year of the war cities with little military were obliterated In Japan American bombers destroyed all but three major Japanese cities and the people in them after March 1945 These raids occurred in other words when Allied victory was assured and when precision bombing techniques were far more advanced than they were earlier in the war *Fire and Fury* asks why Based on extensive archival sources interviews with bombing survivors airmen and published first hand accounts the book looks at the bombing campaign from an avowedly human perspective Allied German and Japanese It recreates the experience of living through the death of a city It presents the complex personalities of the senior airmen and explores why bombing campaigns that seem so excessive seventy five years later seemed reasonable to many at the time It explains why those campaigns became so murderous so late in the war And it asks with the full benefits of time's fullness whether it was all worth it Perfect for fans of Max Hastings James Holland and Antony Beevor Outstanding Margaret MacMillan author of *Paris 1919* Six Months that Changed the World Clear well argued and grippingly told Keith Lowe author of *Inferno* The Fiery Destruction of Hamburg 1943 *Cultural Objects and Reparative Justice* Patty Gerstenblith, 2023-09-20 *Cultural Objects and Reparative Justice* provides a comprehensive legal and historical analysis surrounding a highly debated current question Where should cultural objects that were removed without consent be located This book follows an

innovative interdisciplinary approach based in law history art history anthropology and archaeology and proposes a paradigm for reparations Tracing the historical foundations of the current legal framework the work closely examines three factors that heavily informed the cultural heritage debate since the late eighteenth century the rise of the encyclopaedic museum the development of archaeology as a science and the appropriation of objects in the context of armed conflict and colonialism Each of these explorations is enriched by examples from around the globe and assessed on the international national and local level Subjecting contested objects such as the Parthenon Sculptures those from the Yuanmingyuan Palace the Benin artifacts looted archaeological artefacts and human remains and artwork stolen during the Holocaust to this holistic approach enables a contextualisation of the unique history of appropriation of these objects Cultural Objects and Reparative Justice outlines how current cultural heritage laws and ethical guidelines with respect to cultural heritage derive from a background of imperialism and colonialism The book advocates for a new structure based on reparation restitution repatriation compensation and market regulation to cease perpetuating past harms and to disincentivize new ones
