The Unknowing Sage Faqir Chand,1993 **The Unknowing Sage** , **The Unknowing Sage** Faqir Chand,1989

The Unknowing Sage David Christopher Lane,2014-06-05 Faqir Chand 1886 1981 was a remarkable Indian sage who spent over seventy five years practicing an ancient meditation technique popularly known today as surat shabd yoga which attempts to induce a consciously controlled near death experience This book contains Faqir Chand s unique autobiography which was dictated shortly before his death in Urdu and translated during his lifetime into English at the personal request of Professor David Christopher Lane It also includes a seasoned selection of Faqir Chand s radical teachings as well as several introductory essays and pertinent interviews **The Unknowing Sage: The Life and Work of Baba Faqir Chand (Fifth Edition)** David Lane,2014-05-22 First dictated in Urdu at the request of David Lane this is the controversial autobiography of the late sage Baba Faqir Chand a well regarded Master in the Shabd Yoga tradition Also presents selections from his radical teachings regarding the unknowingness of gurus and mystics Includes a rare interview with Faqir conducted by Professor Mark Juergensmeyer as well as introductory essays about Faqir s teachings and meditational techniques Cosmic Creationism: Ken Wilber's Theory of Evolution David Lane,2014-05-09 This book provides an overview of Ken Wilber s view of evolutionary theory in light of his Integral philosophy It also provides a pointed critique of why Wilber consistently misreads and misunderstands Darwin s theory of evolution by natural selection **Radhasoami Reality** Mark Juergensmeyer,1991 Radhasoami Reality explores the emergence of a new religious tradition that is expanding rapidly across North India and throughout the world Mark Juergensmeyer seeks to explain why the religious logic of Radhasoami which is based on the teachings of medieval Hindu saints is so compelling to today s society **Baba Faqir Chand** David Christopher Lane,2015-02-09 This book presents a pictorial glimpse into the fascinating life and work of Baba Faqir Chand the famous unknowing sage of India Faqir explains in vivid details how gurus do not know about the miracles and visions attributed to them He also explains the secrets behind surat shabd yoga practice and provides a detailed description of how to transcend visionary phenomena Sach Khand, 2 , **The Sach Khand Journal of Radhasoami Studies** David Lane,2015-12-12 This unique journal covers the history of the Radhasoami movement as founded by Shiv Dayal Singh in the mid 19th century with unique articles on the various offshoots that have branched off from its inception Includes essays on Eckankar MSIA MasterPath and other American based gurus Also includes special issues on the death of Julian P Johnson and Soamiji s forgotten guru **Is The Universe An App? Exploring the Physics of Awareness** Andrea Diem-Lane,David Lane,2014-03-13 The idea that the world is an illusion which betrays its real origin has a long tradition and can be found in the writings of Hindu rishis early Greek philosophers and Christian gnostics What is perhaps surprising is to find such a rich literature on the subject in neuroscience and quantum physics The latest and perhaps most provocative idea to gain some currency in varying scientific disciplines is the hypothesis that the universe is the result of a computational simulation and as

such is an incredibly rich and detailed illusion which has ultimately tricked us into believing otherwise **Handbook of Religion and the Authority of Science** Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world The Skeptical Text David Lane, 2015-12-02 This book contains a series of articles which take a critical look at various religious and paranormal phenomena The Mystical David Lane, 2015-11-16 This collection of unique articles focuses on the mystical dimension in physics evolution and neuroscience Includes visual essays on unknowingness and rational explanations for the paranormal Sach Khand, 7 , **You Are Probability: Surfing The Matrix** Andrea Diem-Lane, David Christopher Lane, 2014-03-15 Just think of your father's sperm as a starting off point A usual male produces about 100 million sperm per ejaculation Only one of those sperm will survive the arduous journey to its terminal apex How many sperm does a male produce in say an 80 year life span No precise count is possible since it varies with each individual but one can roughly estimate the number to be around 500 billion or perhaps more impressive sounding as a 1 2 trillion If your own father had five children this would mean that just in terms of sperm you are a 1 in a 100 billion winner Couple this with the rarity of your mother's egg of the nearly half million follicles where only about 400 or so will become viable and the very fact that you are alive reading this essay is beyond any moneyed lottery you will ever enter **The Guru In America** , *Quantum Weirdness: Einstein vs. Bohr* Andrea Diem-Lane, 2014-05-13 This book is a brief introduction to the famous Einstein Bohr debate over the implications of quantum theory with a special focus on the philosophical ramifications of Heisenberg's uncertainty principle We are fortunate that there exists a fairly extensive record of the conversations between these two eminent thinkers Indeed it isn't hyperbolic to call the Einstein Bohr conflict one of the greatest intellectual debates of modern times nay of any time period This book begins with an overview of quantum theory and its early development It also explores some of its weirder aspects including the dual aspect of light quanta Adventures in Science: From Quantum Thinking to Alien Encounters Andrea Diem-Lane, David Christopher Lane, 2014-03-15 It is one of the curious oddities of our time that we talk so much about the scientific method as if it is one singular entity when in point of practice it is anything but The ultimate linchpin in science is decided not by how we go about doing it but about how well our hunches observations and results tally with the universe we observe and in turn how such

intellectual lurches compare and contrast with other competing stratagems in terms of yielding more not less information
The very word science derived from the Latin scire see the Oxford English Dictionary for more on its etymology is rather
open ended and simply means knowledge **Digital Philosophy** David Lane, 2014-05-10 This book explores the future of
philosophy in a digital age Exploring such subjects as the death of the book global positioning intelligence artificial psychic
implants and the reverse engineering of the brain The meditating Buddha as a neuroscientist isn't a contradiction in terms
but rather an enlightened proposition for where the future of consciousness studies is leading
