Narratives of Addiction Kevin McCarron,2022-01-03 Narratives of Addiction Savage Usury is the first book to argue in the face of more than a century s received wisdom that drug addiction and alcoholism are undoubtedly evidence of individual moral flaws However the sense of morality that underlies this book is completely severed from Christianity Instead it is influenced in particular by the writings of the nineteenth century German philosophers Arthur Schopenhauer and Frederick Nietzsche both of whom insisted that a genuine morality was actually incompatible with Christianity The sequence of chapters moves from addictions on the streets into rehab clinics and finally into the meetings of Alcoholics Anonymous and Narcotics Anonymous This is the first book to argue that the search for pleasure drives alcoholism and drug addiction and not the numbing of pain Throughout the book I reject the claims of the medical profession as embodied by the American Medical Association that drug addiction and alcoholism are diseases and further argue that they do not have the authority to tell hundreds of millions of Americans that addiction is not a moral failing I also query throughout the book the claims of neuroscience psychology and the social sciences that addictions to alcohol and drugs are attributable to causes that their specific disciplines are best suited to understand I argue that there is nothing complex about addiction it is a simple behavioural disorder The language routinely employed to discuss addiction is similarly not complex just confused and so it is also the rhetoric of addiction discourse especially its use of simile metaphor and euphemism that this book evaluates

Defeating Addiction and Alcoholism Susan Henneberg, 2015-12-15 Many teens experiment with alcohol and drugs but experimenting can quickly turn into addiction for some. With so many celebrities checking in and out of rehab it may seem like addiction is no big deal, maybe even glamorous. However, it is a very real problem. According to the National Survey on Drug Use and Health, 3 percent of young adults are dependent on alcohol while 11 percent are dependent on illicit drugs. This useful resource teaches readers what addiction is, who is at risk, how to identify the problem, and how to find help when things get out of hand.

Surviving Alex Patricia A. Roos, 2024-05-17 In 2015, Patricia Roos's twenty-five-year-old son Alex died of a heroin overdose. Turning her grief into action, Roos, a professor of sociology at Rutgers University, began to research the social factors and institutional failures that contributed to his death. *Surviving Alex* tells her moving story and outlines the possibilities of a more compassionate and effective approach to addiction treatment. Weaving together a personal narrative and a sociological perspective, *Surviving Alex* movingly describes how even children from good families fall prey to addiction and recounts the hellish toll it takes on families. Drawing from interviews with Alex's friends, family members, therapists, teachers, and police officers, as well as files from his stays in hospitals, rehab facilities, and jails, Roos paints a compelling portrait of a young man whose life veered between happiness, anxiety, success, and despair. And as she explores how a punitive system failed her son, she calls for a community of action that would improve care for substance users and reduce addiction, realigning public health policy to address the overdose crisis.
