Congress. Senate. Committee on Government Operations. Subcommittee on Korean War Atrocities, 1954 **Asia**, 1923 *Fire for Effect!* Anthony J. Sobieski, 2005-04-29 FIRE FOR EFFECT is more than just a book about the Korean War It is the untold history of the Korean War Artillery Forward Observer told by the men themselves From the earliest days of the war in 1950 through

the harrowing battles of 1951 and on into the so called stalemate period of the hill battles of 1952 and 1953 into the final climactic battles before the cease fire the Forward Observer or FO was there Korea was and is known as the Artillery War because more rounds were fired in Korea than in all of WWII and it was the job of the FO to direct these rounds onto their targets FOs are the eyes of the artillery and the importance of their job in Korea has been largely overlooked until now Serving as infantrymen but not being considered one Forward Observers lived ate and slept on the front lines ever ready to respond to an attack or defend friendly troops and positions and sometimes losing their lives doing it The awesome responsibility and firepower that was placed on a 22 or 23 year old lieutenant or sergeant was staggering and after reading these first hand accounts one can easily imagine what these young men faced on a daily basis With over 100 interviews of Forward Observers from all time periods and from all locations and battles of the war the grittiness and reality of what these servicemen went through in the Forgotten War is brought to life so that their deeds may be remembered for future generations so the battlefield known as Korea and its veterans will not be forgotten any more

We Went as Boys...We Came Back as OLD MEN! Sergeant Dennis Urban, 2024-10-01 The Infantryman His emotions are impenetrable yet his shoulders are soft for someone to lean on His hands are firm yet know exactly where to be If he has his arms wrapped around you you're either in the last moments of your life or the safest place you could ever be He's stubborn but will let you have your way just to see you smile He's deadly with a rifle but gentle with a child He plays poker with the devil but guards the gate of Heaven He curses like no other but is the perfect gentleman He has a thousand yard stare but when you look into his eyes it's the most comforting thing you've ever felt The US government trained him as a weapon but raised him as a lover He knows every part of his rifle and every curve of his woman There is no other man like him Whether you love him or hate him both are a privilege He could be your worst nightmare or your best friend I am a seventy five year old former infantry soldier with eight months of hazardous duty pay under my belt I made my Sergeant E 5 stripes the hard way I earned them while patrolling inside the DMZ for over four months The patrol ambush teams that I worked with took part in a number of small firefights leading to three confirmed enemy kills and numerous wounded enemy forces The North Koreans almost always carried off their wounded and dead soldiers so the U N would have no evidence of them violating the truce agreement signed in 1953 That doesn't mean we didn't kill and wound more of them we just could not recover their bodies Our team suffered one casualty during our five months in the DMZ from August 7 1968 to January 7 1969 Our company had at least three patrol teams available each and every day but there was no communication between the teams so we had no way to know what they were running into on a daily basis While on the barrier fence positions I had one incident where I fatally wounded a North Korean infiltrator who managed to take shelter inside the fifty yard deep minefield after which he died I was involved in a vicious firefight along with a nearby foxhole as we fought against a much superior force of North Korean infiltrators which resulted in three North Korean soldiers bodies being recovered The quick response force the next morning found many pools

of frozen blood used combat bandages and bloody drag trails headed back toward North Korea close to two miles away The QRF leader later told us we were up against a force as large as thirty men and we were instrumental in stopping them while other forces were sent for By the time they arrived we were all down to our last bullets for our rifles and had already put our bayonets on the end of our rifles expecting a full assault on our two positions My last firefight was while on a woodcutting detail inside the DMZ very close to the MDL or the dividing line between South and North Korea A medium sized North Korean force totally camouflaged in white managed to get within one hundred yards of our location before they were spotted and a firefight took place as we fled the scene leaving our tools and precious wood behind The next morning we returned with a full platoon of armed soldiers and found many blood pools on the ground and bloody drag marks where dead and injured soldiers were carried away to North Korea about one half mile north of the battle scene With the added guards we completed our mission to gather the much needed firewood for the troops on the line and got the hell out of there Two days later our unit rotated to our camp south of the Imjin River

The Fangirl Chronicles C.M. Otis' Odyssey Otis,2023-02-20 Computers have now taken over our lives with countries hacking one another all over the world The older generation are unable to keep up with the new technology and I consider myself an old dinosaur and have trouble operating a smartphone or logging onto the internet In fact when I arrived in Hawaii twenty years ago I went into Comp USA and asked the young salesperson where the typewriters were and he wouldn t stop laughing Families are changing with same sex marriages and while parents are both working the children have no guidance with drug use common and suicide rates high Young people don t respect their elders and crime and murders are taking place all over our country Maybe if and when this pandemic is ever under control this world will return to the basics but I don t know
