Little Red Readings Angela E. Hubler, 2014-04-29 A significant body of scholarship examines the production of children's literature by women and minorities as well as the representation of gender race and sexuality But few scholars have previously analyzed class in children's literature This definitive collection remedies that by defining and exemplifying historical materialist approaches to children's literature The introduction of Little Red Readings lucidly discusses characteristics of historical materialism the methodological approach to the study of literature and culture first outlined by Karl Marx defining key concepts and analyzing factors that have marginalized this tradition particularly in the United States The thirteen essays here analyze a wide range of texts from children's bibles to Mary Poppins to The Hunger Games using concepts in historical materialism from class struggle to the commodity Essayists apply the work of Marxist theorists such as Ernst Bloch and Fredric Jameson to children's literature and film Others examine the work of leftist writers in India Germany England and the United States The authors argue that historical materialist methodology is critical to the study of children's literature as children often suffer most from inequality Some of the critics in this collection reveal the ways that literature for children often functions to naturalize capitalist economic and social relations Other critics champion literature that reveals to readers the construction of social reality and point to texts that enable an understanding of the role ordinary people might play in creating a more just future The collection adds substantially to our understanding of the political and class character of children's literature worldwide and contributes to the development of a radical history of children's literature

Readings and Cases

in International Management David C. Thomas, 2003-06-11 Rapid changes in management worldwide have clearly challenged the ability of academics to make courses in international management relevant. One of the best ways to enrich courses is to supplement textbook material with recent articles and case studies. *Readings and Cases in International Management: A Cross Cultural Perspective* is a compilation of contemporary readings and case studies that focus on managing global organizations. Intended as a companion to editor David C. Thomas' *Essentials of International Management: A Cross Cultural Perspective* (SAGE, 2001), great care has been taken to select readings that do not duplicate but supplement material typically contained in texts on this topic. The readings and cases in this book are organized around three major themes: the basis for understanding the influence of culture on international management; the key roles that international managers play; and the important challenges that these managers face. Designed to represent a broad geographic scope, this integrative volume includes: An explanation of how culture influences individual managers; Methods to systematically describe cultural differences; Fundamental principles that influence cross cultural interactions; An examination of managers as communicators, negotiators, change agents, and organization builders; Procedures for designing effective organizational structures. *Readings and Cases in International Management: A Cross Cultural Perspective* presents ways to maximize the positive effects of cultural diversity while minimizing the negative consequences. An index of key terms, teaching notes, and a quick reference guide are provided to facilitate learning in a separate instructor's manual. Developed as a supplement for advanced international management texts, this is also an excellent primary text for courses in organizational behavior, management, and international business.

Readings for Reflective Teaching in Early Education Jennifer Colwell, Andrew Pollard, 2015-02-26 *Readings for Reflective Teaching in Early Education* is a unique portable library of exceptional readings drawing together seminal extracts and contemporary literature from international sources from books and journals to support both initial study and extended career-long professionalism for early years practitioners.
