## **Weeping In The Playtime Of Others Weeping In The Playtime Of Others:**

**Weeping in the Playtime of Others** Kenneth Wooden, 2000 From the summer of 1972 through 1975 Kenneth Wooden visited correctional facilities in thirty states where juveniles between the ages of five and sixteen were being held During his research he uncovered an astoundingly high incidence of emotional and physical abuse torture and commercial exploitation of the children by their keepers individuals who received public funds to care for them After observing the brutal treatment of these youths a significant number of whom were not criminals but runaways or mentally disabled Wooden described the conditions in which these children lived in *Weeping in the Playtime of Others* **Child Abuse and Neglect** Michael L. Lauderdale, Rosalie N. Anderson, Stephen E. Cramer, 1978 *Victoria's Children of the Dark* Alan Gallop, 2011-08-26 *Victoria's Children of the Dark* tells the story of Queen Victoria's invisible subjects women and children who laboured beneath her green and pleasant land harvesting the coal to fuel the furnaces of the industrial revolution Following the real fortunes of seven year old Joey Burkinshaw and his family Alan Gallop recreates the events surrounding the 1838 Husker Pit disaster at Silkstone Yorkshire a tragedy which helped lead to better working conditions for miners Chained to carts and toiling half naked for eighteen hour shifts in near darkness children as young as four were employed by mine owners Yet it was not until the catastrophe at Silkstone when twenty six children were drowned in a mineshaft that Victoria and her subjects realised that many Britons were existing in virtual slavery This powerful and dramatic account exposes the real lives and working conditions of nineteenth century miners A gripping human story *Victoria's Children of the Dark* brings history particularly the history of childhood vividly to life **Emotionally Disturbed** Deborah Blythe Doroshov, 2019-04-26 Before the 1940s children in the United States with severe emotional difficulties would have had few options for care The first option was usually a child guidance clinic within the community but they might also have been placed in a state mental hospital or asylum an institution for the so called feeble minded or a training school for delinquent children Starting in the 1930s however more specialized institutions began to open all over the country Staff members at these residential treatment centers shared a commitment to helping children who could not be managed at home They adopted an integrated approach to treatment employing talk therapy schooling and other activities in the context of a therapeutic environment *Emotionally Disturbed* is the first work to examine not only the history of residential treatment but also the history of seriously mentally ill children in the United States As residential treatment centers emerged as new spaces with a fresh therapeutic perspective a new kind of person became visible the emotionally disturbed child Residential treatment centers and the people who worked there built physical and conceptual structures that identified a population of children who were alike in distinctive ways Emotional disturbance became a diagnosis a policy problem and a statement about the troubled state of postwar society But in the late twentieth century Americans went from pouring private and public funds into the care of troubled children to abandoning them almost completely Charting the decline of residential treatment centers in favor of domestic care based

models in the 1980s and 1990s this history is a must read for those wishing to understand how our current child mental health system came to be      **Henry George, The Transatlantic Irish, and their Times** Kenneth C. Wenzer, 2009-06-09 The American political economist Henry George devoted his life to the single tax Virtually forgotten today his best seller Progress and Poverty influenced numerous people in the English speaking world His fame and fall were due to a temporary alliance with the American Irish Catholics who were agitating for the land war in Ireland      **Lost Causes** Chad R. Trulson, Darin R. Haerle, Jonathan W. Caudill, Matt DeLisi, 2016-03-15 What should be done with minors who kill maim defile and destroy the lives of others The state of Texas deals with some of its most serious and violent youthful offenders through determinate sentencing a unique sentencing structure that blends parts of the juvenile and adult justice systems Once adjudicated via determinate sentencing offenders are first incarcerated in the Texas Youth Commission TYC As they approach age eighteen they are either transferred to the Texas prison system to serve the remainder of their original determinate sentence or released from TYC into Texas s communities The first long term study of determinate sentencing in Texas Lost Causes examines the social and delinquent histories institutionalization experiences and release and recidivism outcomes of more than 3 000 serious and violent juvenile offenders who received such sentences between 1987 and 2011 The authors seek to understand the process outcomes and consequences of determinate sentencing which gave serious and violent juvenile offenders one more chance to redeem themselves or to solidify their place as the next generation of adult prisoners in Texas The book s findings that about 70 percent of offenders are released to the community during their most crime prone years instead of being transferred to the Texas prison system and that about half of those released continue to reoffend for serious crimes make Lost Causes crucial reading for all students and practitioners of juvenile and criminal justice      **Who Gets a Childhood?** William S. Bush, 2010-01-01 Using Texas as a case study for understanding change in the American juvenile justice system over the past century the author tells the story of three cycles of scandal reform and retrenchment each of which played out in ways that tended to extend the privileges of a protected childhood to white middle and upper class youth while denying those protections to blacks Latinos and poor whites On the forefront of both progressive and get tough reform campaigns Texas has led national policy shifts in the treatment of delinquent youth to a surprising degree Changes in the legal system have included the development of courts devoted exclusively to young offenders the expanded legal application of psychological expertise and the rise of the children s rights movement At the same time broader cultural ideas about adolescence have also changed Yet the author demonstrates that as the notion of the teenager gained currency after World War II white middle class teen criminals were increasingly depicted as suffering from curable emotional disorders even as the rate of incarceration rose sharply for black Latino and poor teens He argues that despite the struggles of reformers child advocates parents and youths themselves to make juvenile justice live up to its ideal of offering young people a second chance the story of twentieth century juvenile justice in large part boils down to the exclusion of poor

and nonwhite youth from modern categories of childhood and adolescence      **Readings in Public Policy** ,1983      Child Abuse and Neglect Research ,1979      Sexual Exploitation of Children United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime,1977
