The Terror Presidency Law And Judgment Inside The Bush Administration:

The Terror Presidency: Law and Judgment Inside the Bush Administration Jack Goldsmith, 2009-03-24 A key advisor to President Bush recounts his political clashes with powerful administration figures when he questioned the choices of his predecessors about the way the war on terror was being conducted in an account in which he cites historical parallels

The Terror Presidency Jack L. Goldsmith, 2009 A key advisor to President Bush recounts his political clashes with powerful administration figures when he questioned the choices of his predecessors about the way the war on terror was being conducted in an account in which he cites historical parallels The Terror Presidency Jack Goldsmith, 2007-05

Noble Cause Corruption, the Banality of Evil, and the Threat to American Democracy, 1950-2008 John DiJoseph, 2010-04-12 Noble Cause Corruption the Banality of Evil and the Threat to American Democracy 1950 2008 is a probe of the mindset of American government officials from presidents of the United States on down who decided that necessity required that the American democracy had to be defended by actions and policies that were contrary to the traditional ideals of the democracy The emphasis is on the activities of the U S military and intelligence agencies The probe relies for its historical data on well recognized previously published reports and histories The probe is unique in that it focuses on the mindset of the individuals involved The analysis of the mindset ranges from Aristotle the latest research of mental health professionals to the insights of thinkers Edmund Burke Reinhold Niebuhr Friedrich Meinecke and George Kennan The conclusions reached are disturbing the defense of the democracy has been a failure and the mindset of the officials has continued to the present day and does not bode well for the future of the democracy Presidential Rhetoric on Terrorism under Bush, Obama and Trump Gabriel Rubin, 2020-03-21 Through the analysis of eighteen years of presidential data this book shows how Presidents Bush Obama and Trump have conducted and framed the war on terror since its inception in 2001 Examining all presidential speeches about terrorism from George W Bush s two terms as President Barack Obama s two terms as President and Donald Trump s first year as President this book is the first to compare the three post 9 11 presidents in how they have dealt with the terror threat Presidential Rhetoric on Terrorism under Bush Obama and Trump argues that when policies need to be sold to the public and Congress presidents make their pertinent issues seem urgent through frequent speech making and threat inflation It further illustrates how after policies are sold a new President s reticence may signify quiet acceptance of the old regime s approach After examining the conduct of the war on terror to date it concludes by posing policy suggestions for the future **Presidential Power in Action** D. Wheeler, 2016-04-30 This book examines how Supreme Court detainee cases have been implemented with emphasis on the role of the president concluding that an active executive branch has the ability to shape the manner in which judicial decisions are implemented and exploring why presidents have more influence than Congress and the courts **Unlawful Combatants** Sibylle Scheipers, 2015-01-22 Unlawful Combatants brings the study of irregular warfare back into the centre of war studies The

experience of recent and current wars in Afghanistan Iraq Libya and Syria showed that the status and the treatment of irregular fighters is one of the most central and intricate practical problems of contemporary warfare Yet the current literature in strategic studies and international relations more broadly does not problematize the dichotomy between the regular and the irregular Rather it tends to take it for granted and even reproduces it by depicting irregular warfare as a deviation from the norm of conventional inter state warfare In this context irregular warfare is often referred to as the new wars and is associated with the erosion of statehood and sovereignty more generally This obscures the fact that irregulars such as rebels guerrillas insurgents and terrorist groups have a far more ambiguous relationship to the state than the dichotomy between the state and non state actors implies They often originate from states are supported by states and or aspire to statehood themselves The ambiguous relationship between irregular fighters and the state is the focus of the book It explores how the category of the irregular fighter evolved as the conceptual opposite of the regular armed forces and how this emergence was tied to the evolution of the nation state and its conscripted mass armies at the end of the eighteenth century It traces the development of the dichotomy of the irregular and the regular which found its foremost expression in the modern law of armed conflict into the twenty first century and provides a critique of the concept of the unlawful combatant as it emerged in the framework of the war on terror This book is a project of Changing Character of War programme at the University of Oxford

Reaffirming Legal Ethics Kieran Tranter,Francesca Bartlett,Lillian Corbin,Michael Robertson,Reid Mortensen,2010-07-02 This volume offers a comprehensive review of legal ethics as an international movement Contributors include many of the key participants to the legal ethics field from all over the world and many of the recognised emerging thinkers taking stock of the last thirty years of legal ethics practice and scholarship

Targeting Americans Jefferson Powell,2016 The constitutional history of the war on terror How to think constitutionally The war powers of the U S government The killing of Anwar al Awlaki a constitutional analysis Targeted killing and the future three speculations

War of Necessity, War of Choice Richard Haass,2009-05-05 Richard Haass is president of the Council on Foreign Relations an independent nonpartisan membership organization think tank and publisher Until June 2003 Richard Haass was director of policy planning for the Department of State where he was a principal advisor to Secretary of State Colin Powell Previously Haass was vice president and director of foreign policy studies at The Brookings Institution He was also special assistant to President George Bush and senior director on the staff of the National Security Council from 1989 to1993 Haass is the author ofThe Opportunity America s Moment to Alter History s Course A Rhodes Scholar he holds a B A from Oberlin College and Master and Doctor of Philosophy degrees from Oxford University

The Oxford Handbook of the U.S. Constitution Mark Tushnet,Mark A. Graber,Sanford Levinson,2015-07-31 The Oxford Handbook of the U S Constitution offers a comprehensive overview and introduction to the U S Constitution from the perspectives of history political science law rights and constitutional themes while focusing on its development structures rights and role in the U S

political system and culture This Handbook enables readers within and beyond the U S to develop a critical comprehension of the literature on the Constitution along with accessible and up to date analysis The historical essays included in this Handbook cover the Constitution from 1620 right through the Reagan Revolution to the present Essays on political science detail how contemporary citizens in the United States rely extensively on political parties interest groups and bureaucrats to operate a constitution designed to prevent the rise of parties interest group politics and an entrenched bureaucracy The essays on law explore how contemporary citizens appear to expect and accept the exertions of power by a Supreme Court whose members are increasingly disconnected from the world of practical politics Essays on rights discuss how contemporary citizens living in a diverse multi racial society seek guidance on the meaning of liberty and equality from a Constitution designed for a society in which all politically relevant persons shared the same race gender religion and ethnicity Lastly the essays on themes explain how in a globalized world people living in the United States can continue to be governed by a constitution originally meant for a society geographically separated from the rest of the civilized world Whether a return to the pristine constitutional institutions of the founding or a translation of these constitutional norms in the present is possible remains the central challenge of U S constitutionalism today

Overcoming Necessity Thomas P. Crocker, 2020-07-14 An argument for why emergencies are no excuse for extralegal action by presidents Using emergency as a cause for action ultimately leads to an almost unnoticed evolution in the political understanding of presidential powers The Constitution however was designed to function under states of exception most notably through the separation of powers and provides ample internal checks on emergency actions taken under claims of necessity Thomas Crocker urges Congress the courts and other bodies to put those checks into practice

The Justice Cascade Kathryn Sikkink, 2011-09-19 Acclaimed scholar Kathryn Sikkink examines the important and controversial new trend of holding political leaders criminally accountable for human rights violations Grawemeyer Award winner Kathryn Sikkink offers a landmark argument for human rights prosecutions as a powerful political tool She shows how in just three decades state leaders in Latin America Europe and Africa have lost their immunity from any accountability for their human rights violations becoming the subjects of highly publicized trials resulting in severe consequences This shift is affecting the behavior of political leaders worldwide and may change the face of global politics as we know it Drawing on extensive research and illuminating personal experience Sikkink reveals how the stunning emergence of human rights prosecutions has come about what effect it has had on democracy conflict and repression and what it means for leaders and citizens everywhere from Uruguay to the United States The Justice Cascade is a vital read for anyone interested in the future of world politics and human rights

Conspiracy Theory in America Lance deHaven-Smith, 2013-04-02 Ever since the Warren Commission concluded that a lone gunman assassinated President John F Kennedy people who doubt that finding have been widely dismissed as conspiracy theorists despite credible evidence that right wing elements in the CIA FBI and Secret Service and possibly even senior government officials were also

involved Why has suspicion of criminal wrongdoing at the highest levels of government been rejected out of hand as paranoid thinking akin to superstition Conspiracy Theory in America investigates how the Founders hard nosed realism about the likelihood of elite political misconduct articulated in the Declaration of Independence has been replaced by today s blanket condemnation of conspiracy beliefs as ludicrous by definition Lance deHaven Smith reveals that the term conspiracy theory entered the American lexicon of political speech to deflect criticism of the Warren Commission and traces it back to a CIA propaganda campaign to discredit doubters of the commission s report He asks tough questions and connects the dots among five decades worth of suspicious events including the assassinations of John and Robert Kennedy the attempted assassinations of George Wallace and Ronald Reagan the crimes of Watergate the Iran Contra arms for hostages deal the disputed presidential elections of 2000 and 2004 the major defense failure of 9 11 and the subsequent anthrax letter attacks Sure to spark intense debate about the truthfulness and trustworthiness of our government Conspiracy Theory in America offers a powerful reminder that a suspicious even radically suspicious attitude toward government is crucial to maintaining our democracy

The Constitution and 9/11 Louis Fisher,2008 *The Constitution and 9 11* provides a comprehensive striking and disturbing analysis of executive misuse of power that is made all the more compelling by placing it in a rich and fascinating historical contest No better book is available for placing post 9 11 government actions in the matrix of history and explaining how executive power has degraded the Constitution and citizen rights William G Weaver Back cover

Courts and LGBTQ+ Rights in an Age of Judicial Retrenchment Rehan Abeyratne,2025-03-19 Over the past two decades liberal constitutionalism has been in decline Yet some courts including the U S Supreme Court the Supreme Court of India and the Hong Kong Court of Final Appeal have continued to progressively realize the rights of lesbian gay bisexual transgender and queer LGBTQ persons How can the seeming paradox of LGBTQ rights advancement amid liberal constitutional regression be understood And what in turn does that tell us about the state of liberal constitutionalism and rights adjudication *Courts and LGBTQ Rights in an Age of Judicial Retrenchment* addresses these questions by exploring rights adjudication within the broader context of declining liberal constitutionalism within the U S India and Hong Kong By analysing landmark LGBTQ rights judgments and topical case studies in increasingly challenging political and institutional contexts this book provides detailed qualitative accounts of constitutionalism in these jurisdictions over the past two decades Progressive and original this book explores how courts often use LGBTQ rights to demonstrate their rhetorical commitment to liberal and global constitutionalism even as their judgments may fall short of or even undermine those ideals

When Should State Secrets Stay Secret? Genevieve Lester,2015-05-12 Contrary to popular assumption the development of stronger oversight mechanisms actually leads to greater secrecy rather than the reverse *When Should State Secrets Stay Secret* examines modern trends in intelligence oversight development by focusing on how American oversight mechanisms combine to bolster an internal security system and thus increase the secrecy of the intelligence enterprise Genevieve Lester uniquely examines

how these oversight mechanisms have developed within all three branches of government how they interact and what types of historical pivot points have driven change among them She disaggregates the concept of accountability into a series of specified criteria in order to grapple with these pivot points This book concludes with a discussion of a series of normative questions suggesting ways to improve oversight mechanisms based on the analytical criteria laid out in the analysis It also includes a chapter on the workings of the CIA to which a number of CIA officers contributed *Leadership and Politics* Adebowale Akande,2024-07-10 This volume sheds light on the world of organizational politics political leadership and the pivotal roles played by employees and political leaders in managing diverse groups It picks up where influential scholars like Edgar Schein Harry Triandis Bernard Bass Robert House Shalom Schwartz and Geert Hofstede left off providing a timely and transparent exploration of these crucial topics In a rapidly evolving landscape characterized by renewed interest in political skill people management leadership and management diversity training organizational culture workplace incivility ambivalence alliance and career development the book emerges as an invaluable resource assembling a group of renowned contributors in the field who have conducted extensive social research It offers a comprehensive view of contemporary organizational politics psychology at work DEI political skill will HRM leadership effectiveness organizational behavior and culture relationships in the workplace and emotions in politics favoritism workplace incivility ambivalent alliance people analytics and office politics and competition The book discusses the ongoing struggle between knowledge driven scholarship and dogmatic ideology in the workplace and beyond As organizations grapple with the challenges of today s business environment the book therefore is an indispensable guide for scholars consultants and leaders committed to driving continuous improvement and navigating the complex intersection of politics and leadership in the modern workplace

Power, Profit and Prestige Philip S. Golub,2010-05-07 From the American Revolution and the signing of the Declaration of Independence to the waning popularity of the Iraq war Philip Golub depicts the long American journey to global ascendancy Through the study of imperial identity formation Golub shows how a culture of force and expansion has shaped American foreign policy Taking a historical and sociological approach to his examination of the US logic of world power he reveals how entrenched assumptions about America s primacy inhibits democratic transformation at domestic and international levels forging a new world where America is no longer able to set the global agenda **Coalitions of Convenience** Sarah E. Kreps,2011-01-14 Why does the United States sometimes seek multilateral support for its military interventions When does it instead sidestep international institutions and intervene unilaterally In *Coalitions of Convenience* a comprehensive study of US military interventions in the post Cold War era Sarah Kreps shows that contrary to conventional wisdom even superpowers have strong incentives to intervene multilaterally coalitions confer legitimacy and provide ways to share the costly burdens of war Despite these advantages multilateralism comes with costs multilateral responses are often diplomatic battles of attrition in which reluctant allies hold out for side payments in exchange for their consent A powerful

state s willingness to work multilaterally then depends on its time horizons how it values the future versus the present States with long term those that do not face immediate threats see multilateralism as a power conserving strategy over time States with shorter term horizons will find the expediency of unilateralism more attractive A systematic account of how multilateral coalitions function Coalitions of Convenience also considers the broader effects of power on international institutions and what the rise of China may mean for international cooperation and conflict

Getting the books **The Terror Presidency Law And Judgment Inside The Bush Administration** now is not type of challenging means. You could not unaided going when books heap or library or borrowing from your connections to log on them. This is an agreed simple means to specifically get lead by on-line.
