Inciardi, Frank M. Tims, Bennett W. Fletcher, 1993-05-30 This collection of studies by experts on drug abuse treatment represents the state of the art in research examining what works best and why in a nationwide effort to improve and expand treatment to counteract the epidemic use of cocaine and the spread of AIDS Investigators at the National Institute on Drug Abuse describe 15 projects that test intervention strategies to improve client recruitment retention performance and treatment outcomes in a range of community based programs relating to different populations treatment settings and research designs addressing real world issues The findings analysis and recommendations should counteract misunderstanding and misinformation about the nature of drug abuse among 5 5 million patients and the effectiveness of current treatment programs This report is meant for students scholars and professionals dealing with public health criminal justice America s social problems and governmental policies This professional report describes innovative programs for improving the treatment of drug abuse The first part of the book relates to methadone programs limiting the spread of HIV among high risk narcotics addicts improving retention on methadone maintenance and enhancing treatment through a mobile health service The second segment of the book deals with residential programs assessing their impact evaluating a specific outreach project providing a longitudinal evaluation of dually diagnosed men in different community programs Case management programs described in the third section of the study include an assessment of a model for intravenous drug users an assertive community treatment project for hard to reach populations and problems with and remedies for treatment drop outs and noncompliers The fourth part of the report concerns system evaluation of strategies for dealing more effectively with drug abuse today It covers multi modality and other eclectic programs such as a therapeutic community day treatment model for methadone clients a behavioral model for treating cocaine addicts treatments for AIDS risk reduction and a drug day treatment using the therapeutic community model NIDA Research Monograph , 1976 **Women and Substance Abuse** Harry K Wexler, Sally J Stevens, 2014-03-18 In Women and Substance Abuse Gender Transparency you ll see what can be done to aid women in some of the world s hardest hit substance abuse hubs including Rio De Janeiro Brazil Philadelphia Pennsylvania and New Haven Connecticut Filled with timely research and practical solutions this volume shows you what you can do to aid the tremendous and immediate need for specialized interventions in the lives of women Women and Substance Abuse considers many of the variables in the lives of women who abuse drugs race choice of drug HIV risk and drug treatment history and gives you line by line proof of the need for custom tailored harm reduction strategies for addicted women who are and who aren t engaged in drug treatment therapy In addition you ll see why frequent cocaine use current physical and sexual abuse and concerns relating to children can alter

the success of therapies and treatments Overall this unique volume will broaden your understanding of the subject by covering gender differences in risk for gonorrhea infection risk factors for women who trade sex for drugs and money the role of physicians and prenatal care providers of substance abusing women how drug treatment programs can be more multifaceted to include planning prenatal care and parenting skills prison based therapeutic communities long term residential treatment for women with children pregnant women and women without children For every unique woman with a drug problem there is a unique treatment Women and Substance Abuse turns away from the lost cause of blanket treatments and takes you into the world s slums and inner city ghettos where the faces of addiction are as diverse as the women who bear its debilitating burdens You ll see women s drug addiction for what it is a montage of suffering and pain that only individual and specialized care can cure

Autistic Adults at Bittersweet Farms Norman Giddan, Jane J Giddan, 2020-08-26

Autistic Adults at Bittersweet Farms is a touching view of an inspirational residential care program for autistic adolescents and adults This compelling book focuses on adult autism treated through the concepts used at Bittersweet Farms an 80 acre farm in northwest Ohio Through historical rationale for a therapeutic community a comparison between the Bittersweet Farms model and treatment settings in the United Kingdom specific treatments and training programs at Bittersweet Farms and staff parent and resident viewpoints the innovative program based on the premise that adults with autism continue to need special care and training throughout their lives is brought to life Divided into three sections *Autistic Adults at Bittersweet Farms* returns repeatedly to the concept behind the program molding autistic adults into contributing members of society in their own ways Section One includes a potpourri of information giving a glimpse of the range of models available for treatment and what makes each program a success Taking a closer look at program considerations within various community settings the second section examines behavior modification techniques in training autistic children and educating their parents As politics play an important role in developing an innovative care program like Bittersweet Farms the final section delves into regulations and funding for different types of residential care programs Ending on a very human and optimistic note section three closes with three personal accounts of life and work at Bittersweet Farms from a staff member a resident and a parent with each praising a different aspect of the total person care environment of Bittersweet Farms Occupational and physical therapists policymakers educators and parents of autistic children will be encouraged from reading this outstanding book

Treatment of the Chemically Dependent Homeless Kendon J. Conrad, Cheryl I. Hultman, John S. Lyons, 1993

Develop new programs or improve existing programs with these helpful descriptions of theoretical foundations and practical implementation of innovative projects *Treatment of the Chemically Dependent Homeless* presents fourteen projects funded by the National Institute on Alcohol Abuse and Alcoholism NIAAA in cooperation with the National Institute on Drug Abuse NIDA that were designed to develop strategies to combat the dual problems of homelessness and substance abuse and then analyze program effectiveness Contributors describe projects occurring in a

variety of major cities and focus on the theory behind each program and its practical implementation Treatment professionals seeking new directions for their own programs will benefit from chapters that compare conventional services with new innovative treatments They also demonstrate how the new programs will effectively meet the needs of the target population and fill the gaps where current services fail Treatment of the Chemically Dependent Homeless presents detailed discussions of each program s theoretical foundation design and implementation that will be invaluable to clinicians and researchers needing information about the complex nature of various experimental interventions The book begins by presenting an overview of the background and rules of the NIAAA Cooperative agreement The subsequent chapters follow a logical sequence by concentrating on one or two of the following aspects of program development theory of treatment local political and social milieus special populations outreach strategies relapse and retention issues residential care programs case management transition to independence Doctors nurses psychologists social workers substance abuse counselors and researchers who treat or study the chemically dependent homeless will value this groundbreaking information for studying developing and improving their own treatment programs Teachers who seek to educate their classes regarding state of the art service provision for homeless substance abusers will also find this an essential resource for innovative ideas and practical examples of program implementation

The Recovery Revolution Claire D. Clark, 2017-05-02 In the 1960s as illegal drug use grew from a fringe issue to a pervasive public concern a new industry arose to treat the addiction epidemic Over the next five decades the industry's leaders promised to rehabilitate the casualties of the drug culture even as incarceration rates for drug related offenses climbed In this history of addiction treatment Claire D Clark traces the political shift from the radical communitarianism of the 1960s to the conservatism of the Reagan era uncovering the forgotten origins of today's recovery movement Based on extensive interviews with drug rehabilitation professionals and archival research *The Recovery Revolution* locates the history of treatment activists influence on the development of American drug policy Synanon a controversial drug treatment program launched in California in 1958 emphasized a community based approach to rehabilitation Its associates helped develop the therapeutic community TC model which encouraged peer confrontation as a path to recovery As TC treatment pioneers made mutual aid profitable the model attracted powerful supporters and spread rapidly throughout the country The TC approach was supported as part of the Nixon administration's law and order policies favored in the Reagan administration's antidrug campaigns and remained relevant amid the turbulent drug policies of the late twentieth and early twenty first centuries While many contemporary critics characterize American drug policy as simply the expression of moralizing conservatism or a mask for racial oppression Clark recounts the complicated legacy of the ex addict activists who turned drug treatment into both a product and a political symbol that promoted the impossible dream of a drug free America
