**The Tribe of Tiger** Elizabeth Marshall Thomas, 2001-06 Describes the two extremes of the cat family cats and tigers

The Tribe of Tiger Elizabeth Marshall Thomas, 1994-02-01 The story begins with what cats are meat eaters first foremost But within that stark equation abides an astonishing range of experience expression Cats even tigers are not solitary beings but are homebodies who own property favor extended clans when food supplies permit They communicate with one another with us Most crucially cats are like us individuals who instinct notwithstanding pass on adapt invent codes of deportment as circumstances require They sustain an intricate elegant ever changing web of community with us among themselves with the other creatures great small who dwell in the world B W drawings New York Times bestseller Intriguing Captivating **Cat Culture** Janet Alger, Steven Alger, 2011-02-07 Even people who live with cats and have good reason to know better insist that cats are aloof and uninterested in relating to humans Janet and Steven Alger contend that the anti social cat is a myth cats form close bonds with humans and with each other In the potentially chaotic environment of a shelter that houses dozens of uncaged cats they reveal a sense of self and build a culture a shared set of rules roles and expectations that organizes their world and assimilates newcomers As volunteers in a local cat shelter for eleven years the Algers came to realize that despite the frequency of new arrivals and adoptions the social world of the shelter remained quite stable and pacific They saw even feral cats adapt to interaction with humans and develop friendships with other cats They saw established residents take roles as welcomers and rules enforcers That is they saw cats taking an active interest in maintaining a community in which they could live together and satisfy their individual needs Cat Culture s intimate portrait of life in the shelter its engaging stories and its interpretations of behavior will appeal to general readers as well as academics interested in human and animal interaction *Feline Cultures* Éric Baratay, 2024-07 Using testimonies written between the middle of the eighteenth century and the beginning of the twenty first nourished by ethology and the human and social sciences Feline Cultures extends the unique track of animal studies that ric Baratay pursues from book to book As with his Animal Biographies Toward a History of Individuals Baratay breaks the model of human exceptionalism to create innovative accounts of these animals lives in a way that challenges the reader s thinking about animals Baratay is not interested in seeing how humans think about or treat these animals Instead he chooses to observe the animal s perspective to document how individual cats have carried out their lives He writes from the point of view of these animals to understand what they felt and experienced and how they reacted Whether they be street cats farm cats pet cats companion cats or catdogs cats show a great plasticity of behavior This book establishes that cats have their own cultures and adaptations and therefore their own history Through tight portraits the dynamic construction of what we can call cultures is revealed Here we are far from the eternal portrait of the cat independent unpredictable and mysterious that has become commonplace For each of the domestic cats whose existence can be reconstructed from his sources Baratay pays attention to their perceptions of the world their sensations and their

emotions their sensitivity and character their bodily expressiveness and their interactions with the environment other animals and humans Ethology becomes under the alert pen of ric Baratay an ethnology , **The Lion in the Living Room** Abigail Tucker,2017-09-05 Originally published in hardcover in 2016 by Simon Schuster **Human-Animal Relationships in San and Hunter-Gatherer Cosmology, Volume I** Mathias Guenther,2019-08-21 Exploring a hitherto unexamined aspect of San cosmology Mathias Guenther s two volumes on human animal relations in San cosmology link new Animism with Khoisan Studies providing valuable insights for Khoisan Studies and San culture but also for anthropological theory relational ontology folklorists historians literary critics and art historians In Volume I therianthropes and transformations two manifestations of ontological mutability that are conceptually and phenomenologically linked are contextualized in broader San myth Guenther explores the pervasiveness of human animal hybridity and transformation in San expressive culture myth stories and storytelling ludic dancing and art ancestral rock art and contemporary easel art ritual trance dance curing female and male rites of passage and hunting Transformation is shown to be experienced by humans particularly via rituals and dancing that evoke animal identity mergers but also by hunters who may engage with their prey animals in terms of sympathy and inter subjectivity particularly through the use of hunting medicines
