The Troubled Dream Of Life The Troubled Dream Of Life:

The Troubled Dream of Life Daniel Callahan, 2000-06-12 Drawing on his own experience and on literature philosophy and medicine Daniel Callahan offers great insight into how to deal with the rewards of modern medicine without upsetting our perception of death He examines how we view death and the care of the critically ill or dying and he suggests ways of understanding death that can lead to a peaceful acceptance Callahan s thoughtful perspective notably enhances the legal and moral discussions about end of life issues Originally published in 1993 by Simon and Schuster *Troubled Dream of Life* Dr Daniel Callahan, 1994-08-01 Housing and the Democratic Ideal A. Scott. Henderson, 2000-08-16 Charles Abrams 1902 1970 stood at the center of the policies problems and politics surrounding urban planning housing reform and the public and private interests involved in the expansion of the American state He uniquely combined in one person the often divergent roles of public and policy intellectual As a public intellectual Abrams s voice reached the American public through the pages of *The Nation* *The New Leader* and *The New York Times* with accessible explanations of civil rights legislation mortgage financing government policies and urban renewal As a policy intellectual he helped to create the New York Housing Authority lobbied President Kennedy to issue an executive order barring discrimination in federally subsidized housing projects and combated the growing threat of a federally initiated business welfare state *Housing and the Democratic Ideal* is the only comprehensive work on Charles Abrams to date Though structured as a narrative biography this book also uses Abrams s experiences as a lens through which we can better understand the development of American social policy and state expansion during the twentieth century In his left leaning critique of centrist liberalism Abrams took aim at the use of fiscal and monetary policies to achieve social objectives a practice that allowed business interests to maximize private profits at the expense of public benefits His growing concern over racial discrimination prefigured its emergence as a highly contested aspect of the American state A Scott Henderson not only provides clear insight into Abrams s role in American policymaking and his individual achievements as a pioneering civil rights lawyer scholar and urban reformer but also offers an in depth analysis of modern state building and the government private sector relations ushered in by the New Deal **Happiness and the Christian Moral Life** Paul J. Wadell, 2008 A Sheed Ward book Includes bibliographical references and index Finding a path for life the quest for goodness and happiness Not going it alone friendship and community in the Christian moral life Facing shipwreck and bandits virtues and the quest for happiness Every person s truth made in the image of God called to do the work of God Freedom exploring a dangerous topic False steps on the path to happiness losing our way and finding it back Finding a story worth handing on narrative and the moral life Doing what the good requires conscience and prudence in the moral life The gift that makes all gifts possible learning the language of love Reimagining the world why the happiness of one demands justice for all *The Bloomsbury Encyclopedia of Philosophers in America* John R. Philosophers in America presents an indispensable reference work. Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers, this condensed edition includes key contributors to philosophical thought. From 1600 to the present day, entries cover psychology, pedagogy, sociology, anthropology, education, theology, and political science, before these disciplines came to be considered distinct from philosophy. Clear and accessible, each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. Featuring a new preface by the editor and a comprehensive introduction, *The Bloomsbury Encyclopedia to Philosophers in America* includes 30 new entries on twenty-first century thinkers, including Martha Nussbaum and Patricia Churchland. With in-depth overviews of Waldo Emerson, Margaret Fuller, Noah Porter, Frederick Rauch, Benjamin Franklin, Thomas Paine, and Thomas Jefferson, this is an invaluable one-stop research volume to understanding leading figures in American thought and the development of American intellectual history.

Life's Living Toward Dying Vigen Guroian, 1996. Responding to the current preoccupation with assisted suicide, the author discusses society's moral confusion over the meaning of death and gives a Christian alternative consistent with traditional ascription of value to human life.

Testing the Medical Covenant William F. May, 2004-01-06. William F. May, a leading expert on medical ethics, here explores two of today's most crucial tests of the medical covenant: active euthanasia and health care reform. May begins with an incisive introduction that delineates the covenantal or relational nature of the practice of medicine, over against the merely contractual view, the quid pro quo of the commercial buying and selling of professional services. In the subsequent chapters, May follows the implications of the medical covenant with respect to the related issues of euthanasia and health care reform. He also provides a covenantal view of professional character and virtue: what virtues we should look for in covenanted physicians and nurses, discusses the limits of the medical covenant in the face of medical futility, and examines the implications of covenant-keeping for the shape of future health care reform.

Thriving in the Face of Mortality Daniel B. Hinshaw, 2023-01-27. Kenosis, a Greek word meaning depletion or emptying, and a concept borrowed from Christian theology, has deeply profound implications for understanding and ordering life in a world marked by suffering and death. Whereas the divine kenosis was voluntary, human beings experience an involuntary kenosis, which is characterized by the inevitable losses experienced during the lives of mortal creatures. How one chooses voluntarily to respond to this involuntary kenosis, regardless of faith commitments, in effect defines us both in our relationships with other suffering creatures and with the entire cosmos. This book offers a unique perspective on how the losses of involuntary kenosis choreograph the suffering, which is such a defining aspect of the lives of persons, communities, and the environment in which they live, and how the kenotic process, rather than being a source of despair, can be a source of hope, presenting opportunities for extraordinary personal growth.

Bearing Witness Courtney S. Campbell, 2019-09-09. In *Bearing Witness*, Courtney S. Campbell draws on his experience as a teacher, scholar, and a bioethics consultant to propose an innovative interpretation of

the significance of religious values and traditions for bioethics and health care The book offers a distinctive exposition of a covenantal ethic of gift response responsibility transformation that informs a quest for meaning in the profound choices that patients families and professionals face in creating sustaining and ending life Campbell s account of bearing witness offers new understandings of formative ethical concepts situates medicine as a calling and vocation rooted in concepts of healing affirms professional commitments of presence for suffering and dying persons and presents a prophetic critique of medical assisted death This book offers compelling critiques of secular models of medical professionalism and of individualistic assumptions that distort the physician patient relationship This innovative interpretation bears witness to the relevance of religious perspectives on an array of bioethical issues from new reproductive technologies to genetics to debates over end of life ethics and bears witness against the oddities of a market oriented and consumerist vision of health care that is especially salient for an era of health care reform

The Chaplain's Presence and Medical Power Richard Coble,2017-12-20 Why is loss present but rarely spoken of in the hospital system How does such silence carry over to the practices of chaplains who accompany dying patients and grieving families Richard Coble critically examines his experiences as a hospital chaplain to analyze the place of spiritual care in wider trends vexing healthcare today including its persistent disparities and its related inability to reckon with human decline Simultaneously he offers routes for chaplains to be a force of change

Reading the World Dianne C. Luce,2009 In Reading the World Dianne C Luce explores the historical and philosophical contexts of Cormac McCarthy s early works crafted during his Tennessee period from 1959 to 1979 to demonstrate how McCarthy integrates literary realism with the imagery and myths of Platonic gnostic and existentialist philosophies to create his unique vision of the world Luce begins with a substantial treatment of the east Tennessee context from which McCarthy s fiction emerges sketching an Appalachian culture and environment in flux Against this backdrop Luce examines novel by novel McCarthy s distinctive rendering of character through mixed narrative techniques of flashbacks shifts in vantage point and dream sequences Luce shows how McCarthy s fragmented narration and lyrical style combine to create a rich portrayal of the philosophical and religious elements at play in human consciousness as it confronts a world rife with isolation and violence
