The Turnaround How Americas Top Cop Reversed The Crime Epidemic:

Turnaround William Bratton, Peter Knobler, 2009-03-04 When Bill Bratton was sworn in as New York City's police commissioner in 1994 he made what many considered a bold promise The NYPD would fight crime in every borough and win It seemed foolhardy even everybody knows you can't win the war on crime But Bratton delivered In an extraordinary twenty seven months serious crime in New York City went down by 33 percent the murder rate was cut in half and Bill Bratton was heralded as the most charismatic and respected law enforcement official in America In this outspoken account of his news making career Bratton reveals how his cutting edge policing strategies brought about the historic reduction in crime Bratton's success made national news and landed him on the cover of Time It also landed him in political hot water Bratton earned such positive press that before he'd completed his first week on the job the administration of New York's media hungry mayor Rudolph Giuliani threatened to fire him Bratton gives a vivid behind the scenes look at the sizzle and substance and he pulls no punches describing the personalities who really run the city Bratton grew up in a working class Boston neighborhood always dreaming of being a cop As a young officer under Robert di Grazia Boston's progressive police commissioner he got a ground level view of real police reform and also saw what happens when an outspoken dynamic reform minded police commissioner starts to outshine an ambitious mayor He was soon in the forefront of the community policing movement and a rising star in the profession Bratton had turned around four major police departments when he accepted the number one police job in America When Bratton arrived at the NYPD New York's Finest were almost hiding they had given up on preventing crime and were trying only to respond to it Narcotics Vice Auto Theft and the Gun Squads all worked banker's hours while the competition the bad guys worked around the clock Bratton changed that He brought talent to the top and instilled pride in the force he listened to the people in the neighborhoods and to the cops on the street Bratton and his dream team created Compstat a combination of computer statistics analysis and an unwavering demand for accountability Cops were called on the carpet and crime began to drop With Bratton on the job New York City was turned around Today New York's plummeting crime rate and improved quality of life remain a national success story Bratton is directly responsible and his strategies are being studied and implemented by police forces across the country and around the world In *Turnaround* Bratton shows how the war on crime can be won once and for all *Encyclopedia of Law Enforcement* Larry E Sullivan, 2005 Vols 1 and 2 cover U S law enforcement Vol 3 contains articles on individual foreign nations together with topical articles on international law enforcement **The Changing Environment for Policing, 1985-2008** David H. Bayley, 2010 Our thesis is that policing in the mid 1980s was perceived to be in crisis and there was a strong sense that fundamental changes were needed in the way it was delivered In contrast police are considered to be performing well 20 years later by both practitioners and outside observers Crime has been falling for almost 18 years and any new challenges including terrorism appear to be manageable without the invention of new strategies for the delivery of police services Past

experience contains the lessons needed for the future In our view this assessment may be mistaken not because existing policies are defective in controlling crime but because the institutions that provide public safety are changing in profound ways that are not being recognized

The Monsters We Make Rachel Corbett, 2025-10-14 A riveting work of true crime that tells the strange story of criminal profiling from Victorian times to our own Criminal profiling the delicate art of collecting and deciphering the psychological fingerprints of the monsters among us holds an almost mythological status in pop culture But what exactly is it does it work and why is the American public so entranced by it What do we gain and endanger from studying why people commit murder In *The Monsters We Make* author Rachel Corbett explores how criminal profiling became one of society's most seductive and quixotic undertakings through five significant moments in its history Corbett follows Arthur Conan Doyle through the London alleyways where Jack the Ripper butchered his victims depicts the tailgate outside of Ted Bundy's execution and visits the remote Montana cabin where Ted Kaczynski assembled his antiestablishment bombs Along the way emerge the people who studied and unraveled these cases We meet self-taught psychologist Henry Murray who profiled Adolf Hitler at the request of the U.S. government and later profiled his own students including the future Unabomber by subjecting them to cruel humiliation experiments We also meet the prominent Yale psychiatrist Dorothy Lewis who ended up testifying that Bundy was too sick to stand trial Finally Corbett takes the story into our own time explaining the rise of modern predictive policing policies through a study of one Florida family that the analytics targeted to devastating effects With narrative intrigue and deft research Corbett delves deep into the mythology and reality of criminal profilers revealing how thin the line can be separating those who do harm and those who claim to stop it

The Wiley-Blackwell Encyclopedia of Urban and Regional Studies Anthony M. Orum, 2019-04-15 Provides comprehensive coverage of major topics in urban and regional studies. Under the guidance of Editor in Chief Anthony Orum, this definitive reference work covers central and emergent topics in the field through an examination of urban and regional conditions and variation across the world. It also provides authoritative entries on the main conceptual tools used by anthropologists, sociologists, geographers, and political scientists in the study of cities and regions. Among such concepts are those of place and space, geographical regions, the nature of power and politics in cities, urban culture, and many others. The Wiley Blackwell Encyclopedia of Urban and Regional Studies captures the character of complex urban and regional dynamics across the globe, including timely entries on Latin America, Africa, India, and China. At the same time, it contains illuminating entries on some of the current concepts that seek to grasp the essence of the global world today, such as those of Friedmann and Sassen on global cities. It also includes discussions of recent economic writings on cities and regions, such as those of Richard Florida. Comprised of over 450 entries on the most important topics and from a range of theoretical perspectives, it features authoritative entries on topics ranging from gender and the city to biographical profiles of figures like Frank Lloyd Wright. Takes a global perspective with entries providing coverage of Latin America and Africa, India and China, and the US and Europe. Includes biographies of central figures in urban and regional studies, such as Doreen Massey, Peter Hall, Neil Smith, and Henri Lefebvre. The Wiley Blackwell Encyclopedia of Urban and Regional Studies is an indispensable reference for students and researchers in urban and regional studies, urban sociology, urban geography, and urban anthropology.

The SAGE Dictionary of Criminology Eugene McLaughlin, John Muncie, 2019-04-08 Now in its fourth edition, The SAGE Dictionary of Criminology has established itself as an authoritative reference text for the key concepts, theories, and methods in criminology and criminal justice. Edited by two leading figures in the field of criminology, the book includes over 325 entries from 120 academics and practitioners from Europe, USA, Canada, China, Australia, and New Zealand. All concepts are precisely defined, followed by a section outlining the concept's origins, development, and general significance; a list of associated concepts; and finally, further reading suggestions to help extend students' knowledge. New to the 4th Edition: Up to 30 new entries covering topics such as cyber security, wildlife crime, crimmigration, and penal populism. Updates to entries including new further reading suggestions. A new section, Evaluation, is included for concepts considered to have the greatest theoretical weight, allowing for a critical assessment of how the concept can be debated, challenged, and reworked. Further contributions from international academics. An essential reference tool for students and academics within criminology, criminal justice, and legal studies.

Thin Blue Lie Matt Stroud, 2019-03-19 A wide ranging investigation of how supposedly transformative technologies adopted by law enforcement have actually made policing worse lazier more reckless and more discriminatory American law enforcement is a system in crisis After explosive protests responding to police brutality and discrimination in Baltimore Ferguson and a long list of other cities the vexing question of how to reform the police and curb misconduct stokes tempers and fears on both the right and left In the midst of this fierce debate however most of us have taken for granted that innovative new technologies can only help During the early 90s in the wake of the infamous Rodney King beating police leaders began looking to corporations and new technologies for help In the decades since these technologies have in theory given police powerful previously unthinkable faculties the ability to incapacitate a suspect without firing a bullet Tasers the capacity to more efficiently assign officers to high crime areas using computers

Compstat and with body cameras a means of defending against accusations of misconduct But in this vivid deeply reported book Matt Stroud shows that these tools are overhyped and in many cases ineffective Instead of wrestling with tough fundamental questions about their work police leaders have looked to technology as a silver bullet and stood by as corporate interests have insinuated themselves ever deeper into the public institution of law enforcement With a sweeping history of these changes *Thin Blue Lie* is a must read for anyone seeking to understand how policing became what it is today

The New Policing Eugene McLaughlin, 2006-11-16 *The New Policing* provides a comprehensive introduction to the critical issues confronting policing today It incorporates an overview of traditional approaches to the study of the police with a discussion of current perspectives The book goes on to examine key themes including the core purpose of contemporary policework the reconfiguration of police culture organisational issues and dilemmas currently confronting the police the managerial reforms and professional innovations that have been implemented in recent years the future of policing security and crime control In offering this discussion of the nature and role of the police *The New Policing* illustrates the need to re examine and re think the theoretical perspectives that have constituted policing studies Examining evidence from the United Kingdom the United States and other western societies the book promotes and enables an understanding of the cultural and symbolic significance of policing in society This ground breaking text has been constructed to ensure that it touches on all the key issues that any course on police and policing will cover It is an essential purchase for all students of policing and criminal justice and academics and professionals working in this field

The Limits of Community Policing Luis Daniel Gascón, Aaron Roussell, 2019-07-23 A critical look at the realities of community policing in South Los Angeles *The Limits of Community Policing* addresses conflicts between police and communities Luis Daniel Gascón and Aaron Roussell depart from traditional conceptions arguing that community policing popularized for decades as a racial panacea is not the solution it seems to be Tracing this policy back to its origins they focus on the Los Angeles Police Department which first introduced community policing after the high profile Rodney King riots Drawing on over sixty interviews with officers residents and stakeholders in South LA's Lakeside precinct they show how police tactics amplified rather than resolved racial tensions complicating partnership efforts crime response and prevention and accountability Gascón and Roussell shine a new light on the residents of this neighborhood to address the enduring and frequently explosive conflicts between police and communities At a time when these issues have taken center stage this volume offers a critical understanding of how community policing really works

The Oxford Handbook of Crime and Criminal Justice Michael Tonry, 2011-09-29 Although criminal justice systems in developed Western countries are much alike in form structure and function the American system is unique While it is structurally similar to those of other Western countries the punishments it imposes are often vastly harsher No other Western country retains capital punishment or regularly employs life without parole three strikes or lengthy mandatory minimum sentencing laws As a result the U S imprisonment rate of nearly 800 per 100 000 residents dwarfs rates elsewhere

The Oxford Handbook of Crime and Criminal Justice is an essential guide to the development and operation of the American criminal justice system. A leading scholar in the field and an experienced editor Michael Tonry has brought together a team of first rate scholars to provide an authoritative and comprehensive overview and introduction to this crucial institution. Expertly organized, the various sections of the Handbook explore the American criminal justice system from a variety of perspectives including its purposes, functions, problems, and priorities, and present analyses of police and policing, juvenile justice, prosecution and sentencing, and community and institutional corrections, making it a complete and unrivaled portrait of how America approaches crime and criminal justice and giving persuasive answers as to why and how it has developed to what it is today. Accessibly written for a wide audience, the Handbook serves as a definitive reference for scholars and a broad survey for students in criminology and criminal justice.

The Future of Policing Joseph A. Schafer, Michael E. Buerger, Richard W. Myers, Carl J. Jensen, III, Bernard H. Levin, 2011-08-08. As communities continue to undergo rapid demographic shifts that modify their composition, culture, and collective values, police departments serving those communities must evolve accordingly in order to remain effective. *The Future of Policing: A Practical Guide for Police Managers and Leaders* provides concrete instruction to agencies on how to promote successful policing by proceeding on a course informed by future trends and emerging community forces. Explores critical variables necessary for decision making. Designed for typical police departments with common structures, problems, and opportunities, this book offers a unique juxtaposition of real life examples, futures research, emergent trends, and management implications. Each chapter provides a discussion of the professional literature, current and projected trends, and situations faced by agency executives and leaders. Through this multidimensional and contemporaneous approach, the book explores community and political variables crucial to the decision making process. It describes methods that managers can employ to explore the future and prepare their agencies for possible probable and preferable trends and opportunities. Provides specific concrete examples. Drawn from the authors' research as well as their own instructional and practical experience in the policing profession, this volume goes beyond esoteric theoretical analysis and instead provides practical and well-grounded strategies for those who aspire to become police managers or current managers wishing to improve their proficiency. Using futures research and methodologies as the foundation for the text, this volume prepares practitioners to meet the challenges of policing and police management in the 21st century.

Fight the Power Clarence Taylor, 2018-12-20. A story of resistance, power, and politics as revealed through New York City's complex history of police brutality. The 2014 killing of Michael Brown in Ferguson, Missouri, was the catalyst

for a national conversation about race policing and injustice The subsequent killings of other black often unarmed citizens led to a surge of media coverage which in turn led to protests and clashes between the police and local residents that were reminiscent of the unrest of the 1960s Fight the Power examines the explosive history of police brutality in New York City and the black community's long struggle to resist it Taylor brings this story to life by exploring the institutions and the people that waged campaigns to end the mistreatment of people of color at the hands of the police including the black church the black press black communists and civil rights activists Ranging from the 1940s to the mayoralty of Bill de Blasio Taylor describes the significant strides made in curbing police power in New York City describing the grassroots street campaigns as well as the accomplishments achieved in the political arena and in the city's courtrooms Taylor challenges the belief that police reform is born out of improved relations between communities and the authorities arguing that the only real solution is radically reducing the police domination of New York's black citizens
