The Twilight of the Nation State Prem Jha, 2006-08-20 Groundbreaking work of political theory that provides a synthesised analysis of globalisation *The Twilight of the Nation State* Prem Shankar Jha, 2006-08-20 This book offers an in depth historical perspective on the rise of capitalism written by one of the leading scholars of the Global South Arguing that globalisation is poorly understood it offers a new synthesis of political and economic theory that sheds light on the consequences of rapid industrialisation world wide Writing from outside the usual Western perspective the book challenges many of the usual preconceptions about the impact of globalisation **The Remaking of Social Contracts** Gita

Sen, Marina Durano, 2014-09-11 Development Alternatives with Women for a New Era DAWN argues that social contracts must be recreated if they are to fulfil the promise of human rights In *The Remaking of Social Contracts* leading thinkers and activists address a wide range of concerns global economic governance militarism ecological tipping points the nation state movement building sexuality and reproduction and religious fundamentalism These themes are of wide ranging importance for the survival and well being of us all and reflect the many dimensions and inter connectedness of our lives Using feminist lenses the book puts forward a holistic and radical understanding of the synergies tensions and contradictions between social movements and global regional and local power structures and processes and it points to other alternatives and possibilities for this fierce new world Sea Narratives: Cultural Responses to the Sea, 1600-Present Charlotte Mathieson, 2016-06-07

Sea Narratives Cultural Responses to the Sea 1600 Present explores the relationship between the sea and culture from the early modern period to the present The collection uses the concept of the sea narrative as a lens through which to consider the multiple ways in which the sea has shaped challenged and expanded modes of cultural representation to produce varied contested and provocative chronicles of the sea across a variety of cultural forms within diverse socio cultural moments *Sea Narratives* provides a unique perspective on the relationship between the sea and cultural production it reveals the sea to be more than simply a source of creative inspiration instead showing how the sea has had a demonstrable effect on new modes and forms of narration across the cultural sphere and in turn how these forms have been essential in shaping socio cultural understandings of the sea The result is an incisive exploration of the sea s force as a cultural presence **The Human**

Right to Health Eduardo Arenas Catalán, 2021-06-25 This timely book offers a fresh perspective on how to effectively address the issue of unequal access to healthcare It analyses the human right to health from the underexplored legal principle of solidarity proposing a non commercial understanding of the positive obligations inherent in the right to health

The SAGE Handbook of Globalization Manfred Steger, Paul Battersby, Joseph Siracusa, 2014-05-22 Global studies is a fresh and dynamic discipline area that promises to reinvigorate undergraduate and postgraduate education in the social sciences and humanities In the Australian context the interdisciplinary pedagogy that defines global studies is gaining wider acceptance as a coherent and necessary approach to the study of global change Through the Global Studies Consortium GSC

this new discipline is forming around an impressive body of international scholars who define their expertise in global terms. The GSC paves the way for the expansion of global studies programs internationally and for the development of teaching and research collaboration on a global scale. Mark Juergensmeyer and Helmut Anheier's forthcoming *Encyclopaedia of Global Studies* with SAGE is evidence of this growing international collaboration while the work of Professor Manfred Steger exemplifies the flourishing academic literature on globalization. RMIT University's Global Cities Institute represents a substantial institutional investment in interdisciplinary research into the social and environmental implications of globalization in which it leads the way internationally. Given these developments the time is right for a book series that draws together diverse scholarship in global studies. This Handbook allows for extended treatment of critical issues that are of major interest to researchers and students in this emerging field. The topics covered speak to an interdisciplinary approach to the study of global issues that reaches well beyond the confines of international relations and political science to encompass sociology, anthropology, history, media and cultural studies, economics and governance, environmental sustainability, international law and criminal justice. Specially commissioned chapters explore diverse subjects from a global vantage point and all deliberately cohere around core global concerns of narrative, praxis, space and place. This integrated approach sets the Handbook apart from its competitors and distinguishes Global Studies as the most equipped academic discipline with which to address the scope and pace of global change in the 21st century.

International Security Studies Peter Hough, Andrew Moran, Bruce Pilbeam, Wendy Stokes, 2015-02-20. This new textbook provides students with a comprehensive and accessible introduction to the subject of security studies with a strong emphasis on the use of case studies. In addition to presenting the major theoretical perspectives, the book examines a range of important and controversial topics in modern debates covering both traditional military and non-military security issues such as proliferation, humanitarian intervention, food security and environmental security. Unlike most standard textbooks, the volume also offers a wide range of case studies including chapters on the USA, China, the Middle East, Russia, Africa, the Arctic, the Middle East, Europe and Latin America, providing detailed analyses of important global security issues. The 34 chapters contain pedagogical features such as textboxes, summary points and recommended further reading and are divided into five thematic sections: Conceptual and Theoretical, Military Security, Non-Military Security, Institutions and Security, and Case Studies. This textbook will be essential reading for all students of security studies and highly recommended for students of critical security studies, human security, peace and conflict studies, foreign policy and International Relations in general.

Globalisms Manfred B. Steger, 2008-12-16. This new edition of Manfred Steger's award-winning book explores the three principal ideologies of our time: the dominant market globalism based on a neoliberal vision of the world as a single marketplace; the justice globalism developed over the last decade by a transnational coalition of global civil society forces; and the jihadist globalism of radical Islamists seeking to galvanize their global community of believers into violent action. Market globalism has responded to these challengers by

turning into imperial globalism a political belief system that marries the capitalist language of the 1990s with the security concerns of our post 9 11 world Steger one of the world s leading scholars on these subjects explores globalization s central questions What exactly are the core claims of these conflicting globalisms How does the imperial globalism of the 2000s differ from the market globalism of the 1990s How has justice globalism managed to mature into a coherent ideology What are the most likely future trajectories of this great ideological struggle of the twenty first century Written with impressive historical and theoretical breadth this groundbreaking work is essential reading for all those concerned with the key questions that our shrinking world must face *Frontline* ,2006 *Seminar* ,2006 **Outlook** ,2006 **The Book**

Review ,2006 **The Indian National Bibliography** B. S. Kesavan,2007 *Economic and Political Weekly* ,2006 **Indian National Bibliography** B. S. Kesavan,2007 *Guide to Indian Periodical Literature* ,2007 **Business Today** ,2006 **Global Order and Global Disorder** Keith Suter,2003-05-30 Is the world entering a period of breakdown or breakthrough As Suter makes clear globalization is reducing the role of national governments but it is not yet clear what will follow the current world order He explains the process of globalization and uses the technique of scenario planning to examine alternative forms of global order and disorder The current world order is ending The old order has been based on nation states or countries with centralized national governments As Keith Suter makes clear the process of globalization which is now the most important factor in world politics is undermining that world order and leading to world disorder Globalization is the process of the erosion of the nation state as the basic unit of world politics the declining power of national governments and the reduced significance of national boundaries Global change is running ahead of governments abilities to manage it Economics is only a part of that process Suter also deals with other vital concerns war crime environment and health Therefore while Suter examines the growth and impact of transnational corporations he also takes in many other matters that comprise globalization The process of globalization is not reversible Therefore there has to be a search for a new order rather than vain efforts to patch up the system of the nation states Suter concludes by exploring alternatives to the current world order using the technique of scenario planning A provocative analysis that will be of interest to scholars students researchers and the general public concerned with international relations law and economic issues *Alternative Press Index* ,2005 *Post Cold War World Order Globalization and the Challenges to the Nation State* Yeşim Poroy,Doğu Akdeniz Üniversitesi,1999
