Mysterious Valley Christopher O'Brien, 2007 No other region in North America features the variety and intensity of unusual phenomena found in the world's largest alpine valley, the San Luis Valley of Colorado and New Mexico. Since 1989

Christopher O'Brien has documented thousands of high-strange accounts that report UFOs, ghosts, crypto-creatures, cattle mutilations, skinwalkers, and sorcerers, along with portal areas, secret underground bases, and covert military activity. This mysterious region at the top of North America has a higher incidence of UFO reports than any other area of the continent and is the publicized birthplace of the cattle mutilation mystery. Hundreds of animals have been found strangely slain during waves of anomalous aerial craft sightings. Is the government directly involved? Are there underground bases here? Does the military fly exotic aerial craft in this valley that are radar invisible below 18,000 feet? These and many other questions are addressed in this all-new work by one of America's top paranormal investigators. Take a fantastic journey through one of the world's most enigmatic locales. Origins of the Gods Andrew Collins, Gregory L. Little, 2022-04-19 Explores how our

ancestors used shamanic rituals at sacred sites to create portals for communication with nonhuman intelligences. Shares supporting evidence from the spiritual and shamanic beliefs of more than 100 Native American tribes. Shows how the earliest forms of shamanism began at sites like Qesem Cave in Israel more than 400,000 years ago. From Gobekli Tepe in Turkey to the Egyptian pyramids, from the stone circles of Europe to the mound complexes of the Americas. Andrew Collins and Gregory L. Little show how again and again our ancestors built permanent sites of ceremonial activity where geomagnetic and gravitational anomalies have been recorded. They investigate how the earliest forms of animism and shamanism began at sites like the Denisova Cave in the Altai Mountains of Siberia and Qesem Cave in Israel more than 400,000 years ago. They explain how shamanic rituals and altered states of consciousness combine with the natural forces of the earth to create portals for contact with otherworldly realms. In other words, the gods of our ancestors were the result of an interaction between human consciousness and transdimensional intelligence. The authors show how the spiritual and shamanic beliefs of more than 100 Native American tribes align with their theory and they reveal how some of these shamanic transdimensional portals are still active, sharing vivid examples from Skinwalker Ranch in Utah and Bempton in northern England. Ultimately, Collins and Little show how our modern disconnection from nature and lack of a fully visible night sky makes the manifestations from these ultraterrestrial intelligences seem random. If we can restore our spiritual connections, perhaps we can once again communicate with the higher-dimensional beings who triggered the advancements of our earliest ancestors.
