The Individual and the Nature of Mass Events

Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth

Healing Myths, Healing Magic Donald M. Epstein,2011-07-08 The myths we accept without question have a powerful magically suggestive effect on the way we interpret our symptoms the way we heal and the quality of life we experience In this breakthrough book Dr Epstein contends that unless we question the myths that control our lives we will continue to make the same healing choices we have been conditioned to make even if those choices are killing us Epstein examines the deeply ingrained stories or myths we commonly hold about how our bodies heal myths that can actually inhibit healing The healing myths are divided into four categories Social Biomedical Religious and New Age He exposes each myth individually then suggests an alternative statement or Healing Magic to help us reclaim our body s natural ability to heal **The Magical Approach** Seth (Spirit),Jane Roberts,1995 In this brand new volume of original material Seth invites us to look at the world through another lens a magical one Seth reveals the true magical nature of our deepest levels of being and explains how we have allowed it to become inhibited by our own beliefs and conventional thinking The Magical Approach teaches us to live our lives spontaneously creatively and according to our own natural rhythms It helps us to discover and tune into our natural instinctive behavior By applying the principles in this book readers will learn to trust their impulses and discover the highest expression of their creativity **Hypnosis, Channeling and Raising Consciousness** Peter

Dennis,2019-04-15 Peter Dennis is a hypnotist and has done many past life regressions with his clients A few years ago some of Peter s clients while visiting past lives started reporting lives on other planets This prompted Peter to pursue this further and in so doing a number of clients began to channel After five women began Channeling Peter wrote this book detailing some of the concerns inhibitions and fears that these women dealt with as they pursued this adventure After discovering that hypnosis could be a very effective route to Channeling Peter s hypnosis practice is now mainly focused on helping people to become Channelers Peter is not a Channeler but is referred to as a Channeling Facilitator as he helps people to make a Channeling connection strengthen that connection and if the client wishes take that talent to the public More about this can be seen on Peter s website at peterhdennis com Channeling takes many forms When we get ideas or inspirations chances are that we are Channeling Intuitive flashes can be Channeling Authors songwriters composers inspired speakers all have moments of Channeling This book is not about these more subtle forms of Channeling but rather it s about what might be called Conscious Channeling or Overt Channeling and sometimes Trance Channeling What then is Channeling As you may know our scientists have been telling us that everything at the sub atomic level is composed of a vibrating energy and that everything and everyone has his her its own unique rate of vibration So for Channeling to work the Channeler has to raise his or her vibration and the sender has to lower its vibration so that a match can be made and a connection established Once that connection is established the sender sends a message telepathically and the receiver or Channeler uses his or her brain voice box vocal cords and perhaps some other things to receive and vocalize that information Like a lot of things in our lives these days we don t have to fully understand how something works to benefit from using it and Channeling is much the same We don t have to understand the Physics of Channeling in order to figure out if the content of the channeled messages works for us or not This book is also an introduction to Spirituality and it offers many messages and explains many metaphysical concepts It is the Author s hope that you will find that these messages expand your thinking raise a number of new questions and bring you more peace It's About You! Chris Johnson,2013-06-28 It s About You Know Your Self is the first of a trilogy that integrates some of the most profound teachings from science metaphysics psychology philosophy and spirituality into a set of experiential workbooks The primary aim of the trilogy is to awaken the reader to their own personal intent and in so doing clarify the purpose of their life Such knowledge equips us with the means to better manage those key areas within our lives health relationships occupation and abundance and begin living a more joyful existence
