The Role of the University in the Preparation of Teachers the late Robert Roth, 2005-08-04 Addresses a subject of common interest in developed countries the apparently diminishing role of universities in the education of teachers There is pressure to redesign teacher education an on going struggle between those who see the need to strengthen the knowledge base of teachers and those who favour learning on the job there is a perceived need to define precisely what teachers need to know and be able to do and at the same time there is relaxation of entry standards for students entering the profession in an attempt to relieve the chronic shortage of teachers This situation is prevalent in the USA in the UK Europe and Australia The struggle over who should control the preparation of teachers is the significant emerging issue in education and could change the whole structure of the teacher preparation

The Role of the University in the Preparation of Teachers Robert A. Roth, 1999 This work addresses a subject of common interest in western countries that of the apparently diminishing role of universities in the education of teachers

In Schools We Trust Deborah Meier, 2014-02-18 We are in an era of radical distrust of public education Increasingly we turn to standardized tests and standardized curricula now adopted by all fifty states as our national surrogates for trust Legendary school founder and reformer Deborah Meier believes fiercely that schools have to win our faith by showing they can do their job But she argues just as fiercely that standardized testing is precisely the wrong way to that end The tests themselves she argues cannot give the results they claim And in the meantime they undermine the kind of education we actually want In this multilayered exploration of trust and schools Meier critiques the ideology of testing and puts forward a different vision forged in the success stories of small public schools she and her colleagues have created in Boston and New York These nationally acclaimed schools are built famously around trusting teachers and students and parents to use their own judgment Meier traces the enormous educational value of trust the crucial and complicated trust between parents and teachers how teachers need to become better judges of each others work how race and class complicate trust at all levels and how we can begin to scale up from the kinds of successes she has created
