We See A Different Frontier A Postcolonial Speculative Fiction Anthology:

We See a Different Frontier: A postcolonial speculative fiction anthology Djibril al-Ayad, Fabio Fernandes, 2013

This anthology of speculative fiction stories on the themes of colonialism and cultural imperialism focuses on the viewpoints of the colonized. Sixteen authors share their experiences of being the silent voices in history and on the wrong side of the final frontier. Their fantasies of a reality in which straight cis able bodied rich anglophone white males don't tell us how they won every war and their revenge against the alien oppressor settling their new world.

The Year's Best Science Fiction: Thirty-First Annual Collection Gardner Dozois, 2014-07-15 In the new millennium what secrets lay beyond the far reaches of the universe? What mysteries belie the truths we once held to be self-evident? The world of science fiction has long been a porthole into the realities of tomorrow, blurring the line between life and art. Now in *The Year's Best Science Fiction: Thirty-First Annual Collection*, the very best SF authors explore ideas of a new world in the year's best short stories. This venerable collection brings together award-winning authors and masters of the field such as Robert Reed, Alastair Reynolds, Damien Broderick, Elizabeth Bear, Paul McAuley, and John Barnes. And with an extensive recommended reading guide and a summation of the year in science fiction, this annual compilation has become the definitive must-read anthology for all science fiction fans and readers interested in breaking into the genre.

The Oxford Handbook of Science Fiction Rob Latham, 2014 The *Oxford Handbook of Science Fiction* attempts to describe the historical and cultural contours of SF in the wake of technoculture studies. Rather than treating the genre as an isolated aesthetic formation, it examines SF's many lines of cross-pollination with technocultural realities since its inception in the nineteenth century, showing how SF's unique history and subcultural identity has been constructed in ongoing dialogue with popular discourses of science and technology. The volume consists of four broadly themed sections, each divided into eleven chapters. Section I, *Science Fiction as Genre*, considers the internal history of SF literature, examining its characteristic aesthetic and ideological modalities, its animating social and commercial institutions, and its relationship to other fantastic genres. Section II, *Science Fiction as Medium*, presents a more diverse and ramified understanding of what constitutes the field as a mode of artistic and pop cultural expression, canvassing extra-literary manifestations of SF ranging from film and television to videogames and hypertext to music and theme parks. Section III, *Science Fiction as Culture*, examines the genre in relation to cultural issues and contexts that have influenced it and been influenced by it, the goal being to see how SF has helped to constitute and define important sub-cultural groupings, social movements, and historical developments during the nineteenth, twentieth, and twenty-first centuries. Finally, Section IV, *Science Fiction as Worldview*, explores SF as a mode of thought and its intersection with other philosophies and large-scale perspectives on the world from the Enlightenment to the present day.

right wing groups exploiting fannish formations for political ends Through case studies of Glee and The Hunger Games fandoms as well as events such as Gamergate RaceFail 09 and the Hugo Awards controversies this book explores the complexities of political fandom
