We the People: An Introduction to American Politics (Full Ninth Edition (with policy chapters)) Benjamin Ginsberg, Theodore J. Lowi, Margaret Weir, Caroline J. Tolbert, 2012-12-20 Politics is relevant We the People is the best text for showing students that politics is relevant to their lives and that political participation matters especially in the digital age New coauthor Caroline Tolbert brings expertise in political behavior to deep revisions of key chapters and new Digital Citizens boxes highlight the role of new media in politics [We the People: An Introduction to American Politics \(Shorter Ninth Edition \(without policy chapters\)\)](#) Benjamin Ginsberg, Theodore J. Lowi, Margaret Weir, Caroline J. Tolbert, 2012-12-21 Politics is relevant We the People is the best text for showing students that politics is relevant to their lives and that political participation matters especially in the digital age New coauthor Caroline Tolbert brings expertise in political behavior to deep revisions of key chapters and new Digital Citizens boxes highlight the role of new media in politics **Public Policy** Sara R. Rinfret, Denise Scheberle, Michelle C. Pautz, 2021-12-24 Public Policy A Concise Introduction Second Edition by Sara R Rinfret Denise Scheberle and Michelle C Pautz is a student friendly textbook that connects responsible citizens to the world through a contemporary examination of the fundamentals of American public policy The authors help both majors and non majors foster their analytical skills early and then spend the rest of the semester discussing the policy issues data and events that matter most to them The Second Edition has been updated to include how we can collectively use public policy to raise individuals from the margins and address inequities that exist in our system Recent policy questions include How do we shape our country's health care system How do we address increases in costs of tuition and Did the COVID 19 pandemic positively or negatively shape our public education system **Gender in the Political Science Classroom** Ekaterina M. Levintova, Alison Kathryn Staudinger, 2018-07-12 A collection of studies examining the role of gender in teaching and learning in the traditionally male dominated field of political science Gender in the Political Science Classroom looks at the roles gender plays in teaching and learning in the traditionally male dominated field of political science The contributors to this collection bring a new perspective to investigations of gender issues in the political behavior literature and feminist pedagogy by uniting them with the Scholarship of Teaching and Learning SoTL The volume offers a balance between the theoretical and the practical and includes discussions of issues such as curriculum class participation service learning doctoral dissertations and professional placements The contributors reveal the discipline of political science as a source of continuing gender based inequities but also as a potential site for transformative pedagogy and partnerships that are mindful of gender While the contributors focus on the discipline of political science their findings about gender in higher education are relevant to SoTL practitioners other social science disciplines and the academy at large A bold and compelling collection that asks important questions about the ways in which the teaching of Political Science reproduces gender inequities Aeron Haynie **Civil Servants on the Silver Screen** Michelle C. Pautz, 2017-12-29 In the movies government often finds itself in

a variety of roles from villain to supporting cast and rarely if ever the hero. A frequent component of that role is the bureaucracy and as documented in *Civil Servants on the Silver Screen: Hollywood's Depiction of Government and Bureaucrats*, bureaucrats are routinely found on screen. This book investigates how government bureaucrats are portrayed in the top ten box office grossing films from 2000 through 2015. Perhaps unsurprisingly, government is generally portrayed poorly while individual government bureaucrats are typically depicted positively. These images of government on screen are particularly important given the ability of movies to influence the attitudes and perceptions of its audiences. The nature of these depictions and potential implications are considered as bureaucrats in film are categorized. We the People Thomas E. Patterson, 2002 *Witchcraft Activism* David Salisbury, 2025-09-12 The first hands on guide to witchcraft activism with practical tips on everything from joining activist groups to conjuring spells for self protection. There is a movement on the rise, one that brings the worlds of social justice and political activism together with the practice of witchcraft. Activists wish to add magical methods to their arsenal while spell casters seek to use their powers to resist oppression. Written by an experienced witch activist and with the current political climate in full view, the book shows readers how to learn spells for self protection and body shielding as well as methods of developing enhanced psychic intuition and situational awareness. Salisbury explains how and why to conjure spirits of defense, land spirits, ancestral spirits of activism as well as your own personal guardian spirits. Included are rituals, spells, and sigils written clearly and simply so that even someone with absolutely no previous experience in spell casting can immediately feel empowered and join the witch resistance.

Counting Like a State Philip Rocco, 2025-06-17 The census plays a foundational if all too easily ignored role in the operation of the American state, shaping everything from congressional representation to the allocation of trillions of federal dollars. While census taking aspires to the high modernist goal of seeing like a state, centralizing, standardizing, and homogenizing knowledge about a polity, it is subject to far more conflict and negotiation than final tabulations, maps, or technical documentation make apparent. This is especially true in a large decentralized polity like the United States where the Constitution entrusts the ultimate authority for the census in the legislative branch. In *Counting Like a State*, Philip Rocco shows how the production of the US Census now crucially hinges not only on what happens in Washington but also on a series of intergovernmental partnerships. State and local officials, though not formally responsible for census taking, figure importantly in the implementation of the decennial count. These officials are essential partners in the construction and maintenance of address lists as well as in outreach and promotion campaigns in hard-to-count communities. The 2020 Census compounded these challenges with new crises. Intergovernmental partnerships played a key role in preventing President Trump from adding a citizenship question as state and local officials mounted a coordinated legal counteroffensive. Many local officials also simply refused to cooperate with the Trump administration's efforts to exclude undocumented immigrants from the apportionment count. The census also took place in the context of a global pandemic that stretched administrative

resources to the breaking point While these partnerships allowed the Census Bureau to adapt to ever changing conditions on the ground state and local governments also sounded the alarm when the Trump administration sought to rush the census These efforts helped preserve the quality of the data collected in the 2020 count Rocco s illuminating study of the 2020 Census pulls back the curtain on the administrative state to reveal how something as complex and centralizing as a census takes place within a decentralized federalist system Drawing on analyses of interviews with hundreds of public officials and quantitative analyses of state and local census activities Counting Like a State allows scholars and practitioners to better understand what facilitates as well as what impedes effective intergovernmental partnerships for census taking
