The Crown Estate in Scotland Great Britain: Parliament: House of Commons: Scottish Affairs Committee,2012-03-19 This report examines the Crown Estate Commissioner s management of the Crown property rights and interests which make up the Crown Estate in Scotland The Commissioner s operations in Scotland can be split into two categories ancient possessions responsibilities and modern activities relating to the buying selling and management of property and land The evidence identified major issues particularly in relation to the seabed and the foreshore including lack of accountability lack of communication and consultation with local communities the inappropriateness of the Commissioner s remit for its responsibilities in the marine environment the cash leakage from local economies and other adverse impacts There were no such problems in relation to the management of urban and rural estate The Commissioner s responsibilities for the seabed

the foreshore and other ancient rights in Scotland should be devolved then decentralized as far as possible Devolution to Holyrood should be conditional upon agreement between the Secretary of State for Scotland and the Scottish Government on how such a scheme of subsidiarity to local authority and local community levels should be implemented This report also sets out how different arrangements could be made for each of the Scottish Crown property rights and responsibilities Further consultation should proceed on the basis of proposals set out by the Highlands and Islands local authorities which provides a clear framework on which to base discussion

Scotland's North

Highlands (Slow Travel) Emma Gibbs, 2025-02-07 Scotland's North Highlands Slow Travel is the latest title in Bradt's series of distinctive widely acclaimed Slow travel guides to local UK regions. Written by a northern Scotland specialist who edits the award-winning JRN Travel Magazine, this guidebook provides greater detail than any other to the whole of northern Scotland, roaming far beyond the increasingly popular 516-mile North Coast 500 NC500 driving route. Coupling a wide personal selection of places to explore with focused advice on travel practicalities, Scotland's North Highlands Slow Travel encourages visitors to adopt a leisurely approach designed to tease out the region's many special qualities and contribute positively to local communities. In the far northern reaches of Scotland, Sutherland, Caithness, and Ross-shire are regions that by their very nature demand to be taken slowly. Single-track roads dominate, skirting lochs and winding up and over moorland and mountains carpeted with blanket bog. Settlements are few and far between, and you'll often feel outnumbered by sheep as yet another flock ambles across a road leading to a crumbling castle, old fishing port, or alluring ancient site. But biding your time is no inconvenience here; not when every corner reveals a yet more staggering view, when remote coastal cliffs throb with the cries of seabirds, or when following a sign down a potholed road leads to an empty cove of sand that shimmers pink and blue in the ever-changing Highlands light. There are no large settlements here; the second largest town has barely 1,500 inhabitants, so visitors focus very much on the outdoors. Getting into wilderness is joyously easy: within moments of parking your car or stepping out of your B&B, you're striding among scenery so enchanting and dramatic it feels like it's been conjured up by someone's imagination. Whether you crave clambering over rocks to discover secret beaches, watching dolphins leap, kayaking to uninhabited islands, or trekking to the UK's highest waterfall, northern Scotland is the kind of place that gets its teeth into you, a place that people return to again and again. Just the place indeed for Bradt's Scotland's North Highlands to provide the perfect travelling companion.

Who Owns Scotland Andy Wightman, 1996 This is a comprehensive account and analysis of landownership in Scotland. Drawing on a wide range of sources, it lists the owners of Scotland and analyzes the current pattern of landownership and how it has evolved over the centuries.
