

WELCOME SPEECH FOR AWARD CEREMONY

- A welcome speech is an essential part of any award ceremony.
- Welcome speech generally starts from welcoming all the honorable guests, including the school or college committee, the head of the institution, the distinguished judges, the parents, and the participants.
- The host who gives the welcome speech encourages everybody, including all the participants, for their continuous effort.

Welcome Address At Speech And Prize Ceremony:

Speeches Rufus Daniel Isaacs Marquess of Reading, 1926 *Applied Corpus Linguistics*, 2016-08-22 This book will be of particular interest to anyone interested in the application of corpus linguistic techniques to language study and instruction. This volume includes selected papers from the Fourth North American Symposium held in Indianapolis and hosted by the Indiana Center for Intercultural Communication at Indiana University Purdue University in Indianapolis IUPUI in November 2002. These papers from authors representing eight countries including the U S Belgium China France Germany Ireland the Netherlands and Spain provide a wide range of views of and approaches to corpus linguistic. Topics range from theory and analysis to classroom application and include the study of oral discourse as well as the study of written discourse including internet based discourse. Consequently this volume is divided into two sections. The first section focuses on the use of corpus linguistics in the analysis of spoken and written discourse; the second section focuses on the direct pedagogical application of corpus linguistics reflecting the applied foundation of this branch of linguistics. **Transformative Speeches of Governor**

Nyesom Ezenwo Wike Ayebaesin Beredugo, 2025-11-03 But thank goodness Rivers State has just been relieved of the most decadent administration in history which frittered public resources sold the State's valuable assets to cronies increased the debt burden and crippled the State's economy. Governor Nyesom Ezenwo Wike As Justice Learned Hand rightly observed If we are to keep democracy there must be a commandment thou shall not ration justice. Today the people of Rivers State are beneficiaries of justice in its proper measure. We salute the courage and determination of the Supreme Court of Nigeria to uphold the Constitution of the Federal Republic of Nigeria and the rule of law in our democracy. Governor Nyesom Ezenwo Wike We are celebrating political or flag independence. But the need to deliver economic freedom to our country remains the most significant challenge before all of us. Therefore on this historic day we should pledge to rededicate our lives to build a united inclusive and prosperous nation where justice peace and the rule of law shall reign supreme. We are resilient and highly creative. We can easily overcome our economic predicaments if we all work together with patriotism towards building trust and finding realistic solutions to the challenges buffeting the nation. Governor Nyesom Ezenwo Wike As Rivers people we are proud of our contributions to the unity and progress of the Nigerian nation. We remain committed to preserving the unity and indivisibility of Nigeria. All that we ask in return is justice mutual respect and adequate recompenses for our contributions and sacrifice to the economic and social progress of the country. Governor Nyesom Ezenwo Wike Isaac Newton once said If I have seen further than others it is by standing upon the shoulders of giants. It is therefore essential to acknowledge that whatever heights I have attained and my contributions to my State our nation and humanity it is because people inspired me believed in me gave me opportunities and supported me along this journey in diverse ways. Governor Nyesom Ezenwo Wike We cannot continue to live in sin or tolerate the devil's evil ways and expect God's grace to flourish and prosper our lands. Therefore we pray that the Church reflect on the social malaise affecting our country re direct its

efforts towards transforming our people's lives, minds and attitudes unto righteousness and restore our society's moral and religious foundations for good Governor Nyesom Ezenwo Wike In the Words of Nelson Mandela Jennifer

Crwys-Williams, 2010-06-10 Through his words and actions Nelson Mandela has been embraced worldwide as our leading symbol of courage, hope and reconciliation. *In the Words of Nelson Mandela* is a unique collection of quotations from one of the most admired men on the planet. His thoughts on subjects as diverse as humanity, friendship, oppression and freedom provide valuable insights into the man and all he stands for. By turns moving, revealing, humorous and wise, this book eloquently conveys his warmth and dignity, and his words are certain to inspire and give strength to all who read them. On freedom: To be free is not merely to cast off one's chains but to live in a way that respects and enhances the lives of others. On boxing: My greatest regret in life is that I never became the heavyweight boxing champion of the world. On self-respect: If you are in harmony with yourself, you may meet a lion without fear because he respects anyone with self-confidence. *Nobel*

Prizes: Genes, Viruses And Cellular Signaling Erling Norrby, 2022-09-05 The present book discusses the Nobel Prizes in physiology or medicine from 1969 to 1971. The 1969 prize recognized Max Delbrück, Alfred Hershey and Salvador Luria. Their pioneering studies of viruses infecting bacteria, bacteriophages from the mid 1940s through the 1950s laid the foundation for the wide field of molecular biology. The nature of the gene was finally understood. Insights into the biochemistry of the critical information molecules, the nucleic acids, opened wide vistas for interpreting their expression and the interaction of their product with other gene products. The contact between the endings of a nerve and a target cell, the synapse, has always stirred the imagination of scientists. A number of the insights gained have been highlighted by Nobel Prizes in physiology or medicine. In 1970 the prize recognized Bernard Katz, Ulf von Euler and Julius Axelrod. They had revealed how signaling substances in the nerve terminals were stored in packages, released by membrane fusion and inactivated or reused by particular metabolic events. The recipient of the 1971 Nobel Prize in physiology or medicine was a single scientist, Earl Sutherland. He had identified critical molecules in cells that allow signals elicited at their surface via a number of internal steps to influence the expression of specific genes in the nucleus. The new kind of information-transmitting molecules were referred to as secondary messengers. They represent a critical part of a highly complex network of signaling controlling the operative conditions of the cell by adjustments of the so-called intermediary metabolism. The widening insights into functions of specialized cells and their complex interactions have led to the development of many kinds of remedies.
