They Will See His Face Worship And Healing:

Liturgical Theology Simon Chan, 2009-09-20 Bad worship produces bad theology and bad theology produces an unhealthy church In Liturgical Theology Simon Chan issues a call to evangelicals to develop a mature theology of the church an ecclesiology that is grounded in the church's identity as a worshiping community Evangelicals he argues are confused about the meaning and purpose of the church in part because they have an inadequate understanding of Christian worship As a remedy for this ailment Chan presents a coherent theology of the church that pays particular attention to the liturgical practices that have constituted Christian worship throughout the centuries With a seasoned eye and steady hand he guides the reader through these practices and unpacks their significance for theology spirituality and the renewal of evangelicalism in the postmodern era Chan's proposal advances the conversation among evangelicals regarding the relationship between theology and worship In contrast to some theologians who have tended to emphasize a sociological analysis Chan argues that we need to consider what is essential to the church's theological identity Drawing on the larger Christian tradition Chan argues that we discover that identity primarily in the structure and significance of Christian worship They Will See His Face
