Reflections on a Life in Exile J.F. Riordan,2019-05-01 Recipient of the 2020 Shelf Unbound Notable Indie Award A collection of essays by novelist J F Riordan Reflections on a Life in Exile is easy to pick up and hard to put down By turns deeply spiritual and gently comic these brief meditations range from the inconveniences of modern life to the shifting nature of grief Whether it s an unexpected revelation from a trip to the hardware store a casual encounter with a tow truck driver the changing seasons or a conversation with a store clerk grieving for a dog J F Riordan captures and magnifies the passing beauty of the ordinary and the extraordinary that lingers near the surface of daily life **The Right** Matthew Continetti,2022-04-19 A magisterial intellectual history of the last century of American conservatism When most people think of the history of modern conservatism they think of Ronald Reagan Yet this narrow view leaves many to question How did Donald Trump win the presidency And what is the future of the Republican Party In The Right Matthew Continetti gives a sweeping account of movement conservatism s evolution from the Progressive Era through the present He tells the story of

how conservatism began as networks of intellectuals developing and institutionalizing a vision that grew over time until they began to buckle under new pressures resembling national populist movements Drawing out the tensions between the desire for mainstream acceptance and the pull of extremism Continetti argues that the more one studies conservatism s past the more one becomes convinced of its future Deeply researched and brilliantly told *The Right* is essential reading for anyone looking to understand American conservatism *The Myth of Left and Right* Hyrum Smith Lewis,Verlan Lewis,2023 A groundbreaking argument that the political spectrum today is inadequate to twenty first century America and a major source of the confusion and hostility that characterize contemporary political discourse As American politics descends into a battle of anger and hostility between two groups called left and right people increasingly ask What is the essential difference between these two ideological groups In *The Myth of Left and Right* Hyrum Lewis and Verlan Lewis provide the surprising answer nothing As the authors argue there is no enduring philosophy disposition or essence uniting the various positions associated with the liberal and conservative ideologies of today Far from being an eternal dividing line of American politics the political spectrum came to the United States in the 1920s and since then left and right have evolved in so many unpredictable and even contradictory ways that there is currently nothing other than tribal loyalty holding together the many disparate positions that fly under the banners of liberal and conservative Powerfully argued and cutting against the grain of most scholarship on polarization in America this book shows why the idea that the political spectrum measures deeply held worldviews is the central political myth of our time and a major cause of the confusion and vitriol that characterize public discourse **My Writings: Personal Essays** Colonel Ben L. Walton, US Army (Retired),2017-10-13 *My Writings Personal Essays* is a collection of 57 essays from among hundreds of narratives the author wrote over a 30 year period as a freelance scribe The book fills a knowledge void with vital information that readers from all levels of society can use in their daily life Most of the commentaries were published in periodicals throughout the U S The book with a foreword by Dr Lawrence T Coulehan M D has seven parts Aging Christianity History Relationships Service Quality and Participation and Self Help Born in a small community in central Texas Colonel Ben L Walton U S Army Retired grew up in Waco Texas where he lived in a four room house without electricity or running water A wood burning stove was used to cook food and for heat The nearest house to where I lived was four miles away Besides where I lived was across the street from a graveyard He was motivated to write the book based on writings in the Bible *Selected Essays 1917 1932* by T S Eliot and *Things That Matter Three Decades of Passions Pastimes and Politics* by Charles Krauthammer For more than 400 years as documented in *The Art of the Personal Essay Anthology from the Classical Era to the Present* by Phillip Lopate personal essays have been one of the richest and most vibrant of all literary forms Based on history *Essays* by Michel de Montaigne the title of an assemblage of 107 essays the author wrote and published in 1580 astonishingly is rated by experts today as among the greatest nonfiction books of all time Furthermore Montaigne is credited with inventing the writing style of an essay meaning the short subject

treatment of a given subject My Writings Personal Essays aims to provide readers with a poignant and useful self reliance publication worthy of their time that is captivating interesting and stimulating But most importantly it is a permanent resource that can be referred to as needed treasured and passed on to others for generations Exceptional Richard B. Cheney,Liz Cheney,2015-09 A new book by former Vice President and 1 New York Times bestselling author Dick Cheney and Liz Cheney **Freeze!** Henry Richard Maar III,2022-01-15 In Freeze Henry Richard Maar III chronicles the rise of the transformative and transnational Nuclear Weapons Freeze Campaign Amid an escalating Cold War that pitted the nuclear arsenal of the United States against that of the Soviet Union the grassroots peace movement emerged sweeping the nation and uniting people around the world The solution for the arms race that the Campaign proposed a bilateral freeze on the building testing and deployment of nuclear weapons on the part of two superpowers of the US and the USSR That simple but powerful proposition stirred popular sentiment and provoked protest in the streets and on screen from New York City to London to Berlin Movie stars and scholars bishops and reverends governors and congress members and ultimately US President Reagan and General Secretary Gorbachev took a stand for or against the Freeze proposal With the Reagan administration so openly discussing the prospect of winnable and survivable nuclear warfare like never before the Freeze movement forcefully translated decades of private fears into public action Drawing upon extensive archival research in recently declassified materials Maar illuminates how the Freeze campaign demonstrated the power and importance of grassroots peace activism in all levels of society The Freeze movement played an instrumental role in shaping public opinion and American politics helping establish the conditions that would bring the Cold War to an end *Global Governance from Regional Perspectives* Anna Triandafyllidou,2017-06-09 *Global Governance from Regional Perspectives* argues that the academic debate on global governance has neglected the combination of power with value constellations culture Both input and output legitimacy for instance or the exercise of control and influence are inextricably related to culture worldviews and values The book questions theoretically the Western hegemonic and hence invisible definition of governance and related concepts as well as the Western hegemony over global governance institutions It looks from the ground up whether and how alternative practices institutions networks and concepts norms of global governance are emerging in relation to emerging powers and regional integration systems *Global Governance from Regional Perspectives* starts with a critical reading of global governance from multi disciplinary views and engages with two important and under studied aspects notably how global governance can be measured and what lies behind such measurements and questions the democratic deficit of global governance The book provides a series of regional and country perspectives on global governance which engage with a specific example of an institution process or issue that is used to highlight why and how the western hegemonic views and practices of global governance are or not contested The book offers a mapping of global governance phenomena in different regions of the world and a critical readings of those As such this volume is different from all international relations or

political science collections on global governance and also opens up a new field of study that has been hitherto neglected in sociological or cultural studies

[American Christian Support for Israel](#) Eric R. Crouse,2014-10-28 The dominant political theme of the State of Israel is the perpetual quest for security In its first 25 years Israel experienced five wars with Arab states declaring their goal to destroy Israel In American Christian Support for Israel Standing with the Chosen People 1948 1975 Eric R Crouse examines how American Christians responded to Israel's wars and the persistent threats to its security While some were quick to condemn Israel as it made difficult and unpopular decisions in its fight for survival in a hostile region conservative Christians were trustworthy supporters routinely voicing uplifting reports Crouse argues that Israel's embodiment of western ideals and its remarkable economic development gave conservative Christians good reasons to favor Israel in a troubled Middle East but the main reason for their unconditional support was the key biblical text of Christian Zionism I will bless those who bless you Abraham and his descendants and I will curse him who curses you Genesis 12:3

Taking Religion Seriously Charles Murray,2025-10-14 Millions are like me when it comes to religion well educated and successful people for whom religion has been irrelevant Charles Murray writes For them I think I have a story worth telling Taking Religion Seriously is Murray's autobiographical account of the decades long evolution in his stance toward the idea of God in general and Christianity in particular He argues that religion is something that can be approached as an intellectual exercise His account moves from the improbable physics of the Big Bang to recent discoveries about the nature of consciousness from evolutionary psychology to hypotheses about a universal Moral Law His exploration of Christianity delves into the authorship of the Gospels the reliability of biblical texts and the

scholarship surrounding the resurrection story Murray the author of Coming Apart and coauthor of The Bell Curve does not write as an expert He acknowledges that those taking religion seriously for the first time like himself must grapple with topics and ideas that defy intellectual mastery In this book Murray offers his personal example of intellectual struggle toward religion Maybe God needs a way to reach overeducated agnostics and that s what I stumbled into he writes It s a more arid process than divine revelation but it has been rewarding And if you re like me it s the only game in town **Real Teams**

Working with Winston Cita Stelzer,2019-05-14 An original and insightful look at Winston Churchill through the eyes of those who knew him best the women who worked with him throughout his life All politicians adopt a public persona that they believe contributes to electoral success Though they might reflect the character of the politician they reveal only a part of the man What we know less about are the characteristics that Winston Churchill revealed when he was out of the public eye Much has been written about Churchill and of the important world leaders politicians high ranking military personnel with whom he interacted But Churchill also required a vast staff to maintain the intense pace at which he worked When Churchill strode the world stage the secretarial and support staff positions were inevitably filled by women Though extraordinarily talented and valuable to Churchill and his work these women remain unheralded He was not an easy employer He was intimidating with never ending demands who would impose his relentless and demanding schedules on those around him And yet these women were devoted to him though there were times in his political career in which he was decidedly unpopular Many reflect upon their years working for him as the best years of their lives Intelligent and hard working these women were far from sycophants Just as Churchill was no ordinary Prime Minister these women were not ordinary secretaries Indeed in today s terms their titles would be much grander as their work encompassed ultra secret documents and decrypting and reading enemy codes A treasure trove of insight and research Working with Winston reveals the man behind the statesman

and as well as brings long overdue recognition to the hidden army that like Churchill was never off duty **The Institutions of Extraterrestrial Liberty** Charles S. Cockell, 2022 This multi author text provides in depth analyses of space ethics and approaches to governance on territories beyond Earth With insights from a vast background of academic subjects including science law philosophy psychology and politics it presents a holistic take on the expression of space freedoms and what it might mean for humankind **The People, the Land, and the Future of Israel** Bock, Darrell L. , Glaser, Mitch, 2014-08-21 What does the Bible teach about the role of the Jewish people and the nation of Israel today What is God s plan for the future of Israel and the neighboring countries How can believers in Jesus be part of God s peace process in the Middle East The People the Land and the Future of Israel walks through the Bible s account of the role of Israel and the Jewish people both now and in the future Each contributor offers a profound insight into God s unfolding plan and purpose for the nation of Israel as the Scripture depicts them Readers will gain a deeper understanding of both current and future events in the Middle East as described in both the Hebrew Scriptures and the New Testament Features an extensive foreword by best selling author Joel Rosenberg who addresses the question Will there ever be peace for Israel and her neighbors Each chapter includes a scannable QR code that links to a short video introduction by the author of that chapter introducing its topic Discussion questions in each chapter aid book group and classroom discussion
