Laird R. Blackwell, 2020-10-30 Although fantasy and supernatural literature have long and celebrated histories many critics contend that the fantastic and the supernatural have no place in the logical rational world of the detective story This book is the first extensive study of the fantastic in detective fiction and it explores the highly debated question of whether detective fiction and the fantastic can comfortably coexist The locked room mystery which often uses the fantastic as a red herring to eventually be debunked by reason and logic has long been among the most popular subgenres of detective fiction This book also explores stories featuring almost supernaturally gifted detectives stories where the supernatural is truly encountered and stories with ambiguous endings Close to 500 detective stories from 1841 to 2000 in which the fantastic or supernatural plays a central role are discussed and analyzed Although not all the stories are judged to be successful as detective tales in the great majority the fantastic enlivens the tale and deepens the mystery without weakening the detective elements The Publisher ,1907 British Books ,1907 The Publishers' Circular and Booksellers' Record ,1908 Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1907 *The Problem of Cell 13* Jacques Futrelle, 2018-09-15 The Problem of Cell 13 Jacques Futrelle The public knew Professor Augustus S F X Van Dusen as The Thinking Machine and perhaps this phrase described him best of all He always was in his small laboratory where he invented brilliant theories that shocked scientists and had a profound effect on the world Once he argued with his friends he tried to convince that the mind is master of everything No man can escape from a cell just using only his brain If it could be possible no prisoners would be at all Just let s imagine a case A cell for prisoners who are condemned to death These men will do anything to try to escape Imagine you were in that cell Could you escape Certainly lock me in any cell of any prison where you want in any time give me only casual clothes and I ll escape from there only in a week **The Chase of the Golden Plate** Jacques Futrelle, 2008-04 Jacques Heath Futrelle 1875 1912 was an American journalist and mystery writer He is best known for writing short detective stories featuring the Thinking Machine Professor Augustus S F X Van Dusen He worked for the Atlanta Journal where he began their sports section the New York Herald the Boston Post and the Boston American In 1905 his Thinking Machine character first appeared in a serialized version of The Problem of Cell 13 In 1895 he married fellow writer Lily May Peel with whom he had two children While returning from Europe aboard the RMS Titanic Futrelle a first cabin passenger refused to board a lifeboat insisting his wife board instead He perished in the Atlantic His works include The Chase of the Golden Plate 1906 The Simple Case of Susan 1908 The Thinking Machine on the Case 1908 The Diamond Master 1909 Elusive Isabel 1909 The High Hand 1911 My Lady s Garter 1912 Blind Man s Bluff 1914 The Simple Case of Susan Jacques Futrelle, 2018-01-26 Jacques Heath Futrelle April 9 1875 April 15 1912 was an American journalist and mystery writer He is best known for writing short detective stories featuring Professor Augustus S F X Van Dusen also known as The Thinking Machine for his application of logic to any and all situations Futrelle died in the sinking of the RMS Titanic
