Critique of Pure Lawyering Jeffrey Lipshaw, 2017-03-27 The concept of learning to think like a lawyer is one of the cornerstones of legal education in the United States and beyond In this book Jeffrey Lipshaw provides a critique of the traditional views of thinking like a lawyer or pure lawyering aimed at lawyers law professors and students who want to understand lawyering beyond the traditional warrior metaphor Drawing on his extensive experience at the intersection of real world law and business issues Professor Lipshaw presents a sophisticated philosophical argument that the pure lawyering of traditional legal education is agnostic to either truth or moral value of outcomes He demonstrates pure lawyering's potential both for illusions of certainty and cynical instrumentalism and the consequences of both when lawyers are called on as dealmakers policymakers and counsellors This book offers an avenue for getting beyond or unlearning merely how to think like a lawyer It combines legal theory philosophy of knowledge and doctrine with an appreciation of real life judgment calls that multi disciplinary lawyers are called upon to make The book will be of great interest to scholars of legal education legal language and reasoning as well as professors who teach both doctrine and thinking and writing skills in the first year law school curriculum and for anyone who is interested in seeking a perspective on thinking like a lawyer beyond the litigation arena
