Shakespeare through Letters David M. Bergeron, 2020-10-14 In *Shakespeare through Letters*, David M. Bergeron analyzes the letters found within Shakespeare's comedies, histories, and tragedies, arguing that the letters offer the principal intertextual element in the plays as text. In their own right, Bergeron posits that Shakespeare's theater itself exists at the intersection of oral and textual culture, which the letters also exhibit as they represent writing, reading, and interpretation in a way that audiences would be familiar with. In contrast with the illustrious culture of kings, queens, and warriors, this book demonstrates that the letters, profound or perfunctory, constitute texts that warrant interpretation even as they remain material stage props impacting narrative development, revealing character, and enhancing the play's tone. Scholars of literature, theater, and history will find this book particularly useful.

Suicide Century Andrew Bennett, 2017-10-05 *Suicide Century* investigates suicide as a prominent theme in twentieth century and contemporary literature Andrew Bennett argues that with the waning of religious and legal prohibitions on suicide in the eighteenth and nineteenth centuries and the increasing influence of medical and sociological accounts of its causes and significance in the twentieth century literature responds to the act and idea as an increasingly normalised but incessantly baffling phenomenon Discussing works by a number of major authors from the long twentieth century the book explores the way that suicide makes and unmakes subjects assumes and disrupts meaning induces and resists empathy and insists on and makes inconceivable our understanding of ourselves and of others

Aesthetic Apprehensions Lene M. Johannessen,Jena Habegger-Conti,2021-01-12 *Aesthetic Apprehensions* Silences and Absences in False Familiarities is a scholarly conversation about encounters between habitual customs of reading and seeing and their ruptures and ossifications In closely connected discourses the thirteen essays collected here set out to carefully probe the ways our aesthetic immersions are obfuscated by deep seated epistemological and ideological apprehensions by focusing on how the tropology carried by silence absence and false familiarity crystallize to define the gaps that open up As they figure in the subtitle of this volume the tropes may seem straightforward enough but a closer examination of their function in relation to social cultural and political assumptions and gestalts reveal troubling oversights *Aesthetic Apprehensions* comes to name the attempt at capturing the outlier meanings residing in habituated receptions as well as the uneasy relations that result from aesthetic practices already in place emphasizing the kinds of thresholds of sense and sensation which occasion rupture and creativity Such after all is the promise of the threshold of the liminal to encourage our leap into otherness for then to find ourselves and our sensing again and anew in novel comprehensions
