Contesting the Nigerian State M. Okome,2013-07-03 In public choice theory the received wisdom has long been that self organization is an impediment to collective action whether via the tragedy of the commons or a Hobbesian scenario in which self interest produces social conflict rather than cooperation Yet as this fascinating collection shows self organization and state society relations have been much more complicated in the context of contemporary Nigerian politics Given the absence or unwillingness of the Nigerian state to provide essential services entire communities have had to band together to repair roads build health centers and maintain public utilities all from levies The successes failures and ongoing challenges faced by Nigerian society

provide valuable insights into the state's capacity its relationship with civil society and the social economic and political well being of its citizens

Oil, Politics and Violence Max Siollun, 2009 An insider traces the details of hope and ambition gone wrong in the Giant of Africa Nigeria Africa's most populous country When it gained independence from Britain in 1960 hopes were high that with mineral wealth and over 140 million people the most educated workforce in Africa Nigeria would become Africa's first superpower and a stabilizing democratic influence in the region However these lofty hopes were soon dashed and the country lumbered from crisis to crisis with the democratic government eventually being overthrown in a violent military coup in January 1966 From 1966 until 1999 the army held onto power almost uninterrupted under a succession of increasingly authoritarian military governments and army coups Military coups and military rule which began as an emergency aberration became a seemingly permanent feature of Nigerian politics The author names names and explores how British influence aggravated indigenous rivalries He shows how various factions in the military were able to hold onto power and resist civil and international pressure for democratic governance by exploiting the country's oil wealth and ethnic divisions to its advantage Publisher's description

Political Spiritualities Ruth Marshall, 2009-08-01 After an explosion of conversions to Pentecostalism over the past three decades tens of millions of Nigerians now claim that Jesus is the answer But if Jesus is the answer what is the question What led to the movement's dramatic rise and how can we make sense of its social and political significance In this ambitiously interdisciplinary study Ruth Marshall draws on years of fieldwork and grapples with a host of important thinkers including Foucault Agamben Arendt and Benjamin to answer these questions To account for the movement's success Marshall explores how Pentecostalism presents the experience of being born again as a chance for Nigerians to realize the promises of political and religious salvation made during the colonial and postcolonial eras Her astute analysis of this religious trend sheds light on Nigeria's contemporary politics postcolonial statecraft and the everyday struggles of ordinary citizens coping with poverty corruption and inequality Pentecostalism's rise is truly global and *Political Spiritualities* persuasively argues that Nigeria is a key case in this phenomenon while calling for new ways of thinking about the place of religion in contemporary politics
