essential to understanding South Korea's recent resistance to U.S. influence. Along with its well-known economic transformation, South Korea has also had a profound social and political transformation. The minjung movement drove this transformation, and this book tells its story comprehensively and critically. **Still Desert** Daniel Elias Galicia, 2025-08-05  
 Finalist for the 2023 Button Poetry Chapbook Prize. Daniel Elias Galicia's debut collection *Still Desert* sings with histories both haunting and enchanting. Artistically and linguistically dynamic, Galicia's poems weave personal and historical narratives of immigration, assimilation, and Mexican heritage. *Still Desert* lingers in the spaces between borders and crossings, breathing in rich tactile environments and raw complex emotions. With a musical rage and a sacred love, Galicia speaks to unsung lineages and the violences found before, during, and after crossing the border. **Contentious Activism and Inter-Korean Relations** Danielle L. Chubb, 2014-02-04  
 In South Korea, the contentious debate over relations with the North transcends traditional considerations of physical and economic security, and political activists play a critical role in shaping the discussion of these issues as they pursue the separate yet connected agendas of democracy, human rights, and unification. Providing international observers with a better understanding of policymakers' management of inter-Korean relations, Danielle L. Chubb traces the development of various policy disputes and perspectives from the 1970s through South Korea's democratic transition. Focusing on four case studies—the 1980 Kwangju uprising, the June 1987 uprising, the move toward democracy in the 1990s, and the decade of progressive government that began with the election of Kim Dae Jung in 1997—she tracks activists' complex views on reunification along with the rise and fall of more radical voices encouraging the adoption of a North Korean style form of socialism. While these specific arguments have dissipated over the years, their vestiges can still be found in recent discussions over how to engage with North Korea and bring security and peace to the peninsula. Extending beyond the South Korean example, this examination shows how the historical trajectory of norms and beliefs can have a significant effect on a state's threat perception and security policy. It also reveals how political activists, in their role as discursive agents, play an important part in the creation of the norms and beliefs directing public debate over a state's approach to the ethical and practical demands of its foreign policy. **Annotated Books Received**, 2002 [The Law of Truly Large Numbers](#) James Kimbrell, 2025-01-28  
 The *Law of Truly Large Numbers* is a book about coming to terms with loss and the arrival of unexpected, perhaps undeserved, love. Based on the statistical principle that in a truly large sample set, anything outrageous is likely to happen, this book explores not only the outrageous things that have already happened—the loss of siblings and parents, the loss of home, friends, and relatives, the weight of illness and physical aging—but also the discovery and rediscovery of friendship, as well as romantic and familial connections. Often locating themselves where mourning and celebration, grief and humor intersect, these poems consider the sometimes unexpected ways in which grief might open new channels for understanding and ultimately for love. *Poets & Writers*, 2002 **Autumn** Susan M. Felch, 2005-08  
 Discover how this transitional season can reveal both the abundance and the limitations of our everyday lives.

Autumn with all its traditional images of colorful trees frost covered pumpkins and piles of wood stored up against winter's cold can be a season filled with anticipation. The harvest, the imminent onset of cold and snow, the resumption of old routines and the beginning of the school year all require preparation and planning. If summer has been something of a pause, autumn helps us to see the passage of time more clearly. Autumn is a season of fruition and reaping of thanksgiving and celebration of abundance and goodness of the earth. But it is also a season that starkly and realistically encourages us to see our own limitations. Warm and stirring pieces by E. B. White, Anne Lamott, P. D. James, Julian of Norwich, May Sarton, Kimiko Hahn and many others in this beautiful book rejoice in autumn as a time of preparation and reflection when the results of hard labor are ripe for harvest.

**Modern Korean Poetry** Jaihiun Kim, 1994. A companion volume to the Classical Korean Poetry, this anthology provides the reader a bird's-eye view of modern 20th-century Korean poetry, thus completing the sampling of the Korean poetry beginning with the 12th century through the present.

Women and the Colonial Gaze Tamara L. Hunt, Micheline R. Lessard, 2002-06. Women and the Colonial Gaze is the first collection to present a broad chronological and geographical examination of the ways in which colonial powers have represented women in colonized native societies, exploring the ways in which both colonizers and colonized have been affected by these perceptions.

**Against the Chains of Utility** Serk-Bae Suh, 2025-08-31. The 1970s and 1980s were pivotal decades in South Korea, marked by rapid industrialization and urbanization. The language of sacrifice was constantly employed by the developmental state to justify its exploitation of workers and violation of countless civil rights as necessary for the nation's economic growth and security. As a counter to this prevailing rhetoric, a rich variety of literary texts emerged to capture moments of anti-utilitarian sacrifice, including Kim Hyon's critical essays, Pak Sangnyung's monumental novel *A Study of Death* (1975), and Chongh's poems about the Passion of Jesus. *Against the Chains of Utility* examines the anti-utilitarian visions outlined in these and other works, which range from the idea of sacrifice as an escape from instrumental rationality to the view of literature as a deviation from the mundane world. In doing so, it tasks us with rethinking literature's relationship to society during formative years in South Korean history. In *Against the Chains of Utility*, Serk Bae Suh challenges the notion of utilitarian sacrifice, which continues to pervade every aspect of Korean society. He argues that any act of sacrifice for a higher cause is inherently utilitarian, regardless of whether its motives are morally sound or questionable. Such sacrifices establish a circuit of exchange where sacrifice is valued solely based on its ability to achieve an end. To counter this instrumentalization, anti-utilitarian sacrifice must exist as a means without an end. Suh posits that literature's relevance to society lies in this seemingly nihilistic sacrifice, viewing literature not as a proxy for politics but as the art of imagination in language.

**A New History of Korea** Ki-baik Lee, 1988-03-15. One of the first most widely read and respected histories of Korea, Ki-baik Lee's *Han-guksa Sillon* has been translated into English by Edward W. Wagner. *A New History of Korea* offers Western readers a distillation of the best scholarship on Korean history and culture from the earliest times to the student revolution of 1960.

The Columbia Anthology of Modern Korean Poetry David McCann, 2004-03-24 Korea's modern poetry is filled with many different voices and styles subjects and views moves and countermoves yet it still remains relatively unknown outside of Korea itself This is in part because the Korean language a rich medium for poetry has been ranked among the most difficult for English speakers to learn The Columbia Anthology of Modern Korean Poetry is the only up to date representative gathering of Korean poetry from the twentieth century in English far more generous in its selection and material than previous anthologies It presents 228 poems by 34 modern Korean poets including renowned poets such as So Chongju and Kim Chiha

The Koreans Donald S Macdonald, 2018-02-19 In this new edition Donald Clark has thoroughly revised and updated Donald Macdonald's widely praised introduction to Korea describing and assessing the volatile and dramatic developments on the peninsula over the last five years Remaining true to Macdonald's original conception Clark has reworked the existing text from the perspective of the mid 1990s to take account of the enormous political and economic changes in South Korea the evolving relationship between North and South and the implications of North Korea's leadership transition and nuclear capability

**Making Law Work** Mattias Burell, Marina Svensson, 2011-04-30 By studying law implementation in different areas and at different levels contributors from various disciplines give a nuanced picture of law implementation in China showing that it is rare to find examples of complete success or failure Instead making law work in actual practice and in any society is a matter of degree The study is multidisciplinary in character and builds on insights from both sociology of law and political science
